RANDWICK ELECTIONS.—Alderman GALE will ADDRESS the Ratepayers TO-NIGHT at the Coach and Horses Hotel, Avoca-street. JOHN WALSH, Esq., has kindly consented to take the chair.

THE RATEPAYERS OF WAVERLEY WARD.
Ladies and Gentlemen,—
I have the honour to announce that I am a Candidate for re-election as Alderman for Waverley Ward.
I have endeavoured to work faithfully on behalf of your interests during the past three years, and can with confidence point to many improvements effected by the Council on my motion during my aldermanic career.
The increased importance attaching to the municipal offices, in view of the passing of a Local Government Bill during next session of Parliament, emphasises the necessity for the return of representatives having some knowledge of finance, and with experience in municipal government.
You are doubtless aware that it is proposed to give the Council much greater powers than those hitherto possessed, and a liberal endowment which will give ample funds for necessary improvements.
Should you deem me worthy of a renewal of your confidence, I shall spare no effort to merit your good opinion.
Faithfully yours,
WILLIAM P. SMAIRL.
Glenyanah, Waverley, January, 1890.

No. 6: 5 Bores on road Silverton to Lake Cobham.
A total of 11,000ft. (more or less).

Every tender must, as a guarantee of good faith, be accompanied by a preliminary deposit calculated according to the following scale, viz.:—For amounts up to £500 inclusive, £5; for all amounts exceeding £500 but not exceeding £1000, £10; for all sums over £1000, 1 per cent. on the amount of the tender, up to the maximum deposit of £300. Such deposit to be in the form of a Treasury deposit receipt, or a cheque bearing the stamp of the bank, and endorsed by the manager of the bank upon which it is drawn.

Any tender which may be received without such preliminary deposit shall, unless otherwise directed by the board, be deemed informal, and rejected accordingly.

Tenders, accompanied by the preliminary deposit, are to be enclosed in sealed envelopes, addressed to the undersigned, and endorsed "Tenders for Boring, Contract No. 1, 2, 3, 4, 5, or 6," as the case may be, and they must be deposited in the Tender Box of the Department of Mines, Sydney, or posted in time to reach the Under-Secretary's hand before the time stated.

Specifications, general conditions of contracts, and maps may be seen and procured free of charge at the office of the Chief Inspector of Public Watering Places, Mines Department, Sydney, and from whom further particulars can be obtained.

The lowest or any tender not necessarily accepted.

THE difference between advertising in the papers that WILL pay you and those that won't amounts to more in hard cash than any possible saving by competitive bids. The ability to produce BEST EFFECTS in LEAST SPACE makes money for the advertiser in two ways: while it increases the value it reduces the cost. To select the papers requires knowledge; to prepare the advertisement, skill; add to this commercial integrity, and you have all the essentials of success. If you think so, and are looking for a firm to place your advertising with, possessing such qualifications, we should like you to call or write. F. T. WIMBLE and CO. WESLEYAN CONFERENCE.

SEVENTH DAY.—THURSDAY, JANUARY 30.

The President took the chair at 10 a.m. The daily record was read and adopted.

The morning session was devoted to a consideration of the second reading of stations, which were not completed when the conference adjourned for lunch.

AFTERNOON SESSION.

On the motion of the Rev. R. CALDWELL, which was heartily supported by several ministers, a very cordial vote of thanks was given to the president, the Rev. W. Clarke, for the able sermon delivered by that gentleman on the previous evening in honour of the third jubilee of Methodism.

PROPERTY SCHEDULE COMMITTEE.

On the nomination of the President the following gentlemen were elected on the committee:—Revs. R. Bavin, A. Parsons, J. E. Carruthers, and Messrs. J. W. Conway, F. Halliday, J. M'Gill.

NOTICES OF MOTION.

The Rev. ex-President Caldwell to move,—"That the hearty thanks of this conference are due and are hereby presented to the Rev. William Clarke, the president of the conference, for the appropriate, able, and powerful discourse preached by him last evening in commemoration of third jubilee of Methodism, and that he be respectfully requested to publish it."

By the Rev. W. G. Taylor,—"That with a view to give more time for the holding of evening sessions for the transaction of business in connection with future conferences, the temperance demonstration and the annual meeting of the Sunday-school Union be in future held, the former as part of the Temperance Sunday arrangements, and the latter in connection with the sittings of the Sydney district meeting.

On the motion of Mr. M'Gill, it was resolved that the representative conference should meet on Friday and Saturday, at the following hours: 9.30 a.m. to 1 p.m., and from 2 p.m. to 5 p.m.

ELECTION OF REPRESENTATIVES TO THE GENERAL CONFERENCE.

It was resolved that the election of representatives to the General Conference of the Australasian Wesleyan Church should take precedence of all other business at the evening session.

DISCUSSION OF TEST OF MEMBERSHIP.

Moved by the Rev. G. LANE and carried,—"That the evening session be devoted to a consideration of the question of the test of membership."

ADDITIONAL MINISTERS.

The applications of the following circuits were granted:—Armidale, Newcastle, Oberon, Cooma, Bega, Gympie, Townsville.

NEW CIRCUITS.

The following places were taken on as new circuits in connection with the conference:—Katoomba, Enoggera, Sandgate, Normanton.

HOME MISSION STATIONS.

Darlington, to be connected with the Wesley Circuit. Balmain, to be a mission within the circuit. Myall Lakes, Wellington, Nyngan.

EVENING SESSION.

The business of the election of ministerial and lay representatives to the General Conference was, upon the voice of the conference, deferred to the morning session of this day (Friday).

The conference then dealt with the resignation of Mr. G. Crawshaw, lay treasurer of the Foreign Missions, who was obliged to take this step owing to his departure to England. A letter of thanks was ordered to be sent to that gentleman for his services to the Board of Missions. Mr. S. E. Lees, M.L.A., was unanimously elected to the vacancy.

QUESTION OF TEST OF MEMBERSHIP.

The Rev. J. E. Carruthers presented that portion of the report of the Committee of Church Procedure dealing with the question of Church membership, which contained the various recommendations of the district meetings on the subject, as well as the returns of the circuit quarterly meetings in New South Wales and Queensland.

The table of quarterly meeting returns show that 57 report against any alteration in the present rule relating to the condition of Church membership, 24 are in favour of a change, 2 are evenly divided, and 32 send no resolution.

The district returns are as follows:—Sydney by a majority of 37 to 23, and Bathurst by 16 to 6, favour the retention of the present test. Maitland, Armidale, and Queensland North are also in favour of the same; but there is no record as to the voting in the returns forwarded to the committee. Grafton, Goulburn, Wagga Wagga, and Queensland South are of opinion that a change of some kind is desirable, but the character of the change desired is not clearly specified, and no information is given as to whether the voting was unanimous or otherwise.

After some time had been taken up in explaining certain statements of the report, and furnishing details of the district meeting report, the Rev. J. E. CARRUTHERS moved (*pro forma*) the resolution of the committee, which is as follows:—"In view of the fact that so large a majority of the quarterly and district meetings are in favour of retaining the condition of membership as at present, the committee cannot approve of the change suggested in the resolution sent down for consideration by the General Conference."

Rev. R. CALDWELL seconded.

A motion for adjournment was negatived by 60 to 40 votes.

Mr. T. C. REEVE said he regarded that the present test of membership militated against the advancement of the Church. He thought the present a favourable time for considering and settling the question. Without doubt the membership of the Church was in a very unsatisfactory state. Numbers of those returned on the roll have not met in class for years, and these included many who held the most important offices in the circuits. He regarded the statistics as untrue, in fact, misleading and grossly inconsistent. Either keep the rules impartially and go back to old Methodism, or alter them in harmony with present condition of things. To return, in his opinion, was impossible. The English conference returns for the past year showed a decrease of 36,000 in the Church membership. This argument shows that the class meeting has not the hold upon the people that it once had. Therefore, a modification in the basis of membership was imperative. The question could not now be shelved; it must be discussed. He failed to see why many godly persons should be thrown out of Church membership. The Church was losing large numbers annually because of their dislike to the present test. A modification, in his opinion, would result in large accessions to the church. The quarterly meeting deliverances on the subject did not voice the opinions of the adherents of the church.

The Rev. R. CALDWELL said he had not spoken publicly upon this question, neither in the General Conference, the Annual Conference, nor the Sydney District Meeting. He was free to confess that 12 months ago he was little loose on this question. He then, to some extent, sympathised with the views of Mr. T. P. Reeve, but he felt bound by the laws of truth and fairness to respect the deliverances of the quarterly and district meetings. It might be that he was in advance, or, perhaps, a little in the rear in his views, but whichever it be, he was bound to respect the voice of the Church courts as expressed in the reports of the quarterly and district meetings. He could not go so far as Mr. Reeve, and say these quarterly meetings did not represent the piety of the members of the Church. There were many persons who did attend the class meetings but who did not attend as often as they should; but at the same time if we wanted to find the spiritually minded persons in their church, they must go to the class meeting for them. He thought therefore that they would have to give way; they must keep to the old lines, and stand by the vote which had been taken. At the same time they must do something for those who were so closely identified with our church, that if they were not Methodists they were nothing. They went to no other church, they came to the Lord's table in our church and altogether identified themselves with Methodism. They must do something for these people, most of whom were young people, the members of our families. They must go a little further and do something to recognise them in order to attach them more closely to our church. He did not want to get back to old Methodism, as Mr. Reeve had put it. There was something approaching tyranny in old Methodism, and he instanced a case in which a man who had married a Presbyterian girl was reproached for marrying a worldly person. But he wanted to get back to the piety, the earnestness, and the devotion of old Methodism, and with that in view he would stick to the old lines.

Mr. WILLIAM DAVIES said that they were all doubtless familiar with the old saying that, "The voice of the people is the voice of God." The voice of their quarterly and district meetings was certainly to them the voice of their people, and if not to be regarded as the voice of God they should at least pay a deal of deference to what those meetings had said. It is as if a great petition had been presented to this Conference from the majority of their people against any change in the basis of their test of membership. But one of those who had written somewhat extensively upon this subject in various ways had said that the church courts which have discussed this question have not been truly representative of our people. Even should that contention be admitted, the conclusion drawn therefrom would be a sword which cut both ways. What was sauce for the goose was sauce for the gander. He had prepared some statistics on the question which would doubtless prove interesting information. The number of members reported by those quarterly meetings adverse to any change in the test of membership amounted to 62½ per cent. of the total number returned in the Conference statistics, those desiring a change represented but 19 per cent. of the whole, and those who made no returns at all represented 18½ per cent., showing, if the neutrals were equally divided, that at least three-fourths of our members were against any change in the test. He observed that the resolutions submitted to the English Conference by the Rev. Mr. Slater had been commended to the attention of the quarterly meetings. But if such resolutions were adopted, they would require re-adoption next year. He would make a brief comparison between the test as now applied and one suggested by these resolutions. All that our Conferences ask of any man now is, "Do you want to be saved?" If that question be answered affirmatively, he is admitted to our church membership. A door as wide open as that is wide enough to admit all and exclude none who ought to come in. (Hear, hear.) Their after-duty was simply to attend the public worship of God, the administration of the Sacrament of the Lord's Supper, to read the Bible and have family worship and observe the quarterly fasts, &c. Contrast the simplicity of these provisions with the unwieldy provisions of the proposal suggested. It speaks first of "those who shall be considered as eligible." Such persons are not required to give any testimony as to their intentions or desires religiously, but are to be passed on by some judgment not defined. They are required to "attend meetings for prayer and fellowship," and yet the very distaste as to attendance on class-meeting fellowship is the primal reason for the agitation of this question. They are also to have their names read out in a church meeting annually. He had noticed that it was always the "good people" who were excluded; "the godly people" were always spoken of as being outside. Those who were now within the church had nothing as good said about them. If these people were godly they did not want saving. (Oh! oh!) Mr. Davies then proceeded at length to further criticise the statements made as to the alleged injustice and narrowness of the present test. He also urged that to change the present test in the direction designed would cause serious disruption in the mission fields and among the various societies within the bounds of their Conference.

The Conference adjourned at 9 p.m. until 9.30 a.m. this morning, when the first business will be the election of representatives for the General Conference, and after that the debate on the class meeting question will be resumed.

THE GOULBURN CATHEDRAL DISPUTE.

(FROM OUR CORRESPONDENT.)

At a meeting on Tuesday evening of the committee appointed to endeavour to effect a settlement of the cathedral dispute, the counter proposals submitted by the cathedral council in reply to the original proposals of the sub-committee chosen by the conciliation committee were discussed at length. Eventually it was decided to refer the counter proposals to the sub-committee for consideration and answer, and to report to a meeting of the whole committee. The documents are appended:—

PROPOSALS FOR A SETTLEMENT OF THE CATHEDRAL DISPUTE TO BE SUBMITTED TO THE CATHEDRAL COUNCIL.

"1. That the cathedral, not the schoolroom, be acknowledged to be the representative and successor of the original church of St. Saviour, *i.e.*, the church alluded to in Crown grants of 1842 and 1843, and regulated by the Church Act 8 Willm. 4, No. 5. 2. That the incumbent relinquish all his rights in that church under the Church Act for the following considerations:—(*a*) That the incumbent for the time being be *ex officio* a member of the cathedral Chapter, and occupy the pulpit of the cathedral at such times as may be arranged by the Chapter. (*b*) That the incumbent's right to enter the cathedral at any time for the performance of baptisms, marriages, and other surplice duties be acknowledged and confirmed by ordinance. (*c*) That the incumbent continue to occupy the parsonage, and that he be paid £300 per annum out of glebe revenue as arranged by the trustees. (*d*) That the incumbent also receive £100 per annum out of the collections in the cathedral in lieu of surplice fees and alms for the poor, or that he receive the offertory upon one Sunday in each month (or a stated sum for alms), and take surplice fees as usual. (*e*) That the churchwardens for the time being be *ex officio* members of the cathedral council, or that the council undertake all the duties of churchwardens, and churchwardens cease to be elected. (*f*) That the schoolroom be acknowledged to be the schoolroom attached to St. Saviour's. (*g*) That the above arrangements be embodied in the cathedral ordinance, and be legalised by Act of Parliament. H. S. GANNON, RUSSELL E. CONOLLY, F. T. STENNETT, sub-committee of the cathedral dispute conciliatory committee, Goulburn, 4th December, 1889."

"Goulburn, January 21, 1890. To Messrs. Gannon, Conolly, and Stennett. Gentlemen,—The council of St. Saviour's Cathedral having considered the proposals forwarded to them on December 6 last, desire to return, as requested, counter propositions for consideration and acceptance. Yours faithfully, S. W. ALEXANDER, hon. sec. St. Saviour's Cathedral Council."

COUNTER PROPOSITIONS.

"1. That the building known as St. Saviour's Cathedral is the parochial church of the city of Goulburn and the cathedral church of the diocese of Goulburn. 2. That the Rev. A. T. Puddicombe, on surrendering his present license, with a view to a fresh one being issued in accordance with these arrangements, and relinquishing all claims to any rights in that church, be appointed a canon and member of the cathedral Chapter, and occupy the pulpit of the cathedral at such times as may be arranged by the Bishop and Chapter. 3. That the cathedral be available (when not used for divine service) for the celebration by the Rev. A. T. Puddicombe of baptisms, marriages, and other surplice duties prescribed in the Book of Common Prayer. 4. That the present parsonage continue to be occupied by the Rev. A. T. Puddicombe, together with eight acres of glebe land, and that he be paid £150 per annum out of the glebe revenue. That the Rev. A. T. Puddicombe also receive £150 per annum out of the cathedral collections and subscriptions, together with £100 in lieu of surplice fees and alms from the offertory, all of which shall, as directed by the ordinance, continue to form part of the Cathedral revenue; and such sums of £150 and £100 respectively shall be a first charge upon such collections and subscriptions. 5. That the council undertake the duties of churchwardens, if any, and churchwardens cease to be elected. 6. That a cathedral district be formed out of the present district of St. Saviour's, the boundaries to be hereafter arranged by the Bishop and Chapter and the Rev. A. T. Puddicombe, and that there be assigned to the Rev. A. T. Puddicombe the rest of the district, which shall be called and known as the parish of ——. 7. That the building now used by the Rev. A. T. Puddicombe for divine service be transferred to the cathedral authorities and attached to St. Saviour's Cathedral, together with the lands alluded to in the Crown grants of 1842 and 1843, with the exception of the eight acres attached to the parsonage. 8. That the lands included in the deed from Mr. Faithfull and in the Crown grants of 1842 and 1843 (with the exception of eight acres attached to the parsonage), and all buildings thereupon, and all moneys received from the Commissioner for Railways, and all rents, interest, and profits derivable from such lands and moneys, shall be effectually vested in the diocesan trustees upon trust for cathedral purposes under the direction of the council and free from the trusts of the said grants, but subject to the payment of the said sum of £150 per annum and to the reservation of the said eight acres. 9. That the cathedral ordinance of 1884 shall be adhered to in all respects except in so far as such ordinance is inconsistent or at variance with the proposals now submitted, and that such ordinance shall as soon as may be convenient be amended so far as may be necessary in order to carry out these conditions. 10. That the above arrangements be embodied in a legal agreement, duly signed, sealed, and witnessed by all necessary parties, and that the agreement respecting the property, lands, and buildings be legalised by an ordinance of the Synod under the powers of the Church of England Property Act of 1889 or by Act of Parliament as may be considered necessary."

THE SINGLE TAX LEAGUE AND THE FREE TRADE PARTY.

TO THE EDITOR OF THE HERALD.

Sir,—In your issue of to-day, Mr. E. W. Foxall, vice-president of the Single Tax League, is reported to say, speaking of the next general election:—"Those who were not with them were against them, and when an appeal was made for their votes, they would know by the utterances of the candidates whether they were for them or against them." Now I wish, with your permission, to point out that they have already had one indication, which is not alluded to in the report. When the Assembly last met, Mr. Seaver, M.L.A., in a very straightforward manner, proposed an amendment upon the Address-in-Reply, mainly in favour of their principles, but could get no seconder. Therefore, the 70 freetraders in the House who declined to support the motion they ought already to put down as "against them." And as the majority of the free-trade members in the next Parliament will probably include the majority of freetraders in the present Assembly, the union between the Single Tax League and the free-trade party is surely a very one-sided one. The majority of freetraders at their conference would pass nothing compulsory, and exhibited efforts worthy of the Circumlocution Office in trying "how not to do it." That the freetraders in this unique "alliance" should be willing to take all and give nothing is not surprising; but that the single-taxers should be willing to give all and take nothing, certainly is. The tax proposed by the league is in itself a most righteous and just one; but, like the cow which kicked over the bucket of her own milk, the advocates are acting unwisely in wanting it a "single" one, and preventing hundreds of protectionists from joining them who believe in their tax as partly means of revenue, combined with protective duties to foster local employment. Promises of candidates at general elections are right enough when nothing nearer can be got; but, if broken, it is two or three years before the faithless can be dealt with. Would it not be better, instead of waiting for the next Parliament, for Mr. Seaver or Mr. Garland to be asked to move, when the present Assembly next meets, a resolution in favour of their land tax on its merits, apart from the fiscal question? Many candidates could then be judged by votes instead of promises. Land reform, like temperance reform, wants bringing forward inside the House as well as outside; but this appears to be forgotten by their advocates. I am, &c.,

January 30. E. A. JONES.

Though the truth of the rumour as to the promotion of a Universal Catholic Bank was denied, it is stated, at Rome, that several bankers of different countries entertain the idea, but the Pope has shown himself up to the present very much against any such enterprise.

SPORTING INTELLIGENCE.

THE TURF.

The Queensland *Racing Calendar* for the current month is to hand. In addition to the general turf information from the northern colony, the publication contains the lists of nominations for the Q. T. C. Produce events of 1890 and the three following seasons.

The Hawkesbury Race Club have issued the conditions for the principal events of the Autumn Meeting on March 27 and 29. For the Rowley Mile, the leading event on the opening day, the prize money is 250 sovs., of which 50 sovs. goes to the second horse; and the added stake for the Autumn Handicap is 400 sovs., of which the second horse gets 50. The respective distances are as heretofore.

With the view of encouraging cross-country racing the Rosehill authorities intend to include hurdle-racing and steeplechasing in all their programmes during the winter season.

The selling events at the Rosehill mixed meeting yesterday, did not result so profitably as usual. Euchre, the winner of the Galloway Selling Race, only realised £6, and Busy Bee, who was claimed, was knocked down when the bidding reached £41, but a purchaser was not forthcoming. Mr. M. R. Halcrow secured Warlike Glee, the winner of the Pony Selling Race, for £20.

The Geelong Racing Club Summer Meeting will commence to-day, and will be brought to a conclusion to-morrow. The opening event, the Hurdle Race, 1¼ mile, should bring about a good contest between Sluggard, Last Request, and Shanks, and, notwithstanding that the first-named will have the highly complimentary impost of 12st. 13lb. in the saddle, he should just about win. Rapidity, Calico, and Pigeontoe may have the winner of the Trial Stakes among them; and Spot and Magic Circle promise to divide the honours in the Sires' Produce Stakes. A pretty good field will face the flag for the Geelong Gold Cup, and, in the more than probable absence of Oakleigh and Lonsdale, the prospects of Chintz, Harbinger, and Stanley seem to be the brightest. Salvo and Real Jam should have most to say in the Connewarre Plate, and Grandlike and Rewi will be likely to work their way into the first flight at the end of the battle for the Grand Stand Stakes.

The following meetings have been registered by the A. J. C. authorities:—Gumbalie, Trunkey Creek, and Marsden's Swamp.

The following is a list of the winners, and the amount of stakes secured, at the Rosehill Trotting and Race Meeting yesterday:—Mr. T. Gunning, £55; Mr. D. Jay, £45; Mr. J. Tanner, £40; Mr. J. Cox, £35; Mr. W. Brennan (ns), £30; Mr. Geo. Maybin (ns), £25; and Messrs. J. Finn, W. Kelso, J. Willoughby, and R. Ellis, £5 each; making a total of £250.

The system of inflicting severe fines on jockeys for disobedience at the post does not seem to have the desired effect, especially at pony and galloway races. Day after day penalties of £5 and £10 are recorded. Nevertheless, starters do not as a rule, send off their fields on good terms, and the only parties to benefit by the fines are the proprietary clubs, for the money does not go into the Distressed Jockeys' Fund, as is the case when the racing is conducted under the A. J. C. rules. At Rosehill, yesterday, fines totalling £57 were imposed—in two events all the jockeys engaged incurring Mr. Watson's displeasure—and in view of the recent reduction in fees for losing mounts, the imposition of £10 fines is something more than a joke for the riders. Past experience has shown that the fining system does not secure obedience, for double the amount imposed would make very little difference to a jockey who has orders to get well away at all hazards, as the horseowner could well afford to pay; but, if suspension from riding for a term were made the penalty, riders would be more careful as to their behaviour at the post.

ROSEHILL RACECOURSE COMPANY.

TROTTING, PONY, AND GALLOWAY MEETING.

Rain or shine, the Rosehill management determined to carry out their trotting and race meeting as advertised yesterday; but, fortunately, fine cool weather prevailed. The attendance, however, was not up to the average, but that should not cause surprise, when it comes to be considered that the patrons of sport have just been treated to four consecutive days' racing, with another in store for them on Saturday. The course was in excellent order, and the programme was carried out without a hitch. Driscoll had a penalty of £10 recorded against him for disobedience in the Shorts; Garland, Flannery, Gee, and Cleal each had a similar fine imposed for insubordination in the Galloway Selling Race; and Ellis, Calder, Montgomery, Cleal, Garland, Gee, and Woodgate, who had mounts in the Pony Handicap, were each fined £1. A fine of £2 was inflicted on Mr. M. R. Halcrow for running Empress I. under wrong colours; and the owner of Fleetwing incurred a similar penalty for late scratching in the Pony Handicap. The starting was by no means good, especially for the opening event, in which the ponies were sent off in a very straggling manner.

One short of a dozen were saddled up for the Shorts, and Empress I. was made a warm favourite, but a bad start left her at the post, and Queen, who made her own running, won by half a head from Madge, who only beat the favourite by a head for second place. Four took part in the Galloway Selling Race, for which Euchre held the responsible position at odds on, and he won all the way. The winner was bought in for £6. Decamera was selected as the best of the seven that competed in the Time Handicap Trot, but his position in the contest did not justify the confidence reposed in him, and after Yendon and White Wings each had a turn at the front, Trickett came through at the three-furlong post, and achieved an easy victory. The candidates for the Pony Handicap were reduced to seven, and Kempsey, who had the call in the market, won from end to end. Warlike Glee had a walk-over for the Pony Selling Race, and was purchased by Mr. M. R. Halcrow for £20. Despite her failure to show prominently in the Galloway Handicap at Canterbury Park on Wednesday, Empress was made an even money favourite for the mile race, for which eight carried silk, but she could only get third to Sally, on whom Ellis scored his second victory. The details of the sport are as under:—

THE SHORTS, a handicap of 40 sovs., second horse 5 sovs. from the prize, for horses 14 hands and under. 5 furlongs.—Mr. J. Cox's gr m Queen, 5 years, 10st. 8lb. (Argall), 1; Mr. J. Finn's b m Madge, 3 years, 8st. 4lb., including 7lb. penalty (Driscoll), 2; Mr. M. R. Halcrow's ch f Empress I., 3 years, 8st. 12lb. (Gee), 3. Other starters: Fair Boy, 9st.; Grace, 8st. 2lb.; Secret, 7st. 9lb.; Mulgrave, 7st. 6lb., including 6lb. over; Fair Alice, 9st. 5lb.; Lady Tempest, 6st. 7lb.; May Not, 6st. 7lb.; Little Nell, 6st. GOULBURN TURF CLUB.

GOULBURN, THURSDAY.

The annual meeting of the Goulburn Turf Club was commenced to-day, in the presence of about 500. The weather was rough and boisterous. The sport was, on the whole, good. Mr. A. F. Gibson acted as judge, and Mr. F. D. Badgery as starter, and Mr. H. Chisholm was a most efficient hon. secretary. The following are the results:—

FINAL STAKES, 25 sovs., 1 mile.—Mr. R. C. Cooper's c c Rosebranch, 8st. 4lb. (W. Williams), 1; P. Confoy's b c Yunko, 8st. 4lb., 2; Mr. C. Lackey's b g Alasquin, 8st. 11lb. (J. Hurley), 3. Other starters: Mr. G. A. Taylor's First Yattendon, 9st.; Mr. E. H. Jamieson's Hard Times, 8st. 13lb. (carried 4½lb. over); Mr. F. F. Gibson's Kate Kearney, 8st. 11lb. Betting: 6 to 4 on Rosebranch, 3 to 1 v. Kate Kearney, 5 to 1 v. others. A good race. Won by about a length. Time, 1 minute 53½ seconds.

DISPOSAL STAKES of 15 sovs., once round.—Mr. W. Jobson's, jun., br g Try Me, 7st. 7lb., carried 9lb. over (C. Wilkins) 1. Mr. A. N. Turner's Blue Bonnet, 8st., also started. Won easily.

GUNDARY HANDICAP of 75 sovs., one mile and a furlong.—Mr. J. Lackey's br c The Felon, 6st. 10lb. (R. Gough) 1; Mr. W. Jobson's jun., b g Billy Boy, 7st. 3lb. (Gilmore) 2; Mr. J. Beck's c m Piety, 7st. 3lb. (F. Watson) 3. Mr. H. Dryden's Musher, 8st.; Mr. R. C. Cooper's Rosethorn, 7st. 12lb.; Mr. J. Hannah's Pauline, 6st. 8lb.; Mr. D. Leahy's Foxlow, 6st. 4lb. Betting: 6 to 4 on Felon, 3 to 1 v. Billy Boy, 4 to 1 v. Piety, 5 to 1 v. Pauline, 10 to 1 v. others. This was a splendid race, Billy Boy passed Felon in the straight, and apparently won by about a length, but the judge awarded the race to Felon. There was great dissatisfaction at the result. Those in the judge's box state that Felon beat Billy Boy in the last two strides. Time, 2 minutes 4 seconds.

HURRY SCURRY, of 10 sovs.; once round.—Mr. A. A. M'Innes' Cuckoo, 8st. 4lb., 1; Mr. J. Forty's Sweetbriar, 7st. 2lb., 2; Mr. Thompson's Zuleika, 9st., 3. Won easily. Time, 1 minute 57 seconds.

WELTER HANDICAP, of 40 sovs.; 1¼ mile.—Mr. F. Shepherd's c g Goldfish, 11st. 5lb. (M'Acraman), 1; Mr. J. Beck ns b g Forbes, 9st. 9lb. (Musgrave), 2; Mr. E. H. Jamieson's c g Hard Times, 9st. (Fleming), 3; Mr. A. A. M'Innes ns Violet, 9st. 7lb.; Messrs. A. C. and R. Gibson's Cossack, 9st.; Mr. P. Contoy ns Passacrel, 9st. 7lb. Won with the greatest ease. Time, 2 minutes 26½ seconds.

The meeting will be continued to-morrow.

PEDESTRIANISM.

The running of the Tennyson 23rd Star Handicap commences to-day at 2.45, and the finals will be run off next Thursday.

Nominations for the Tennyson third 75 Yards Handicap, to be run through on February 13, close to-morrow; and nominations for the 10th Novice Handicap close the same day.

The inclemency of the weather yesterday caused a further postponement of the Carrington Handicap until to-night. The first round will be completed on Saturday night, and the finals on Monday.

The conditions of the Carrington Easter Handicap have been announced. The event will be run on March 29, April 2 and 4. The prize-money is £250, and entries fall due on February 28.

The second night's running of the Lillie Bridge Anniversary Handicap, has been postponed until Monday night next, the 3rd February, and the final until Tuesday, the 4th February.

BOWLS.

A match was played on Anniversary Day between the Newcastle and St. Leonards Bowling Clubs, on the latter's green, the result being a victory for the latter club by 39 points. The visiting team was entertained at lunch at Connolly's Hotel before commencing play. The following are the scores:—

No. 1 Rink: St. Leonards—Thomas Jago, W. H. Stephenson, James Forsyth, F. Punch (captain), 31; Newcastle—F. Alcock, W. M'Leod, J. Frost, F. Gardiner (captain), 22. No. 2 Rink: St. Leonards—B. Jenkins, G. V. James, W. Alexander, C. V. Solomon (captain), 27; Newcastle—B. Gates, R. N. Sadlier, T. Smith, J. R. Rodgers (captain), 22. No. 3 Rink: St. Leonards—T. Old, R. Forsyth, G. T. Clarke, J. Stevens (captain), 45; Newcastle—S. Hughes, J. Gulliver, D. Whitehead, D. Watson (captain), 20. Totals: St. Leonards, 103; Newcastle, 64.

AQUATICS.

The race between C. Stephenson, of New South Wales, and William Hearn, of New Zealand, for the sculling championship of the latter colony and £200 a side, will be rowed on the waters of Wellington Harbour to-morrow (Saturday) afternoon. Hearn, who is a powerfully-built man, has held the New Zealand sculling championship for a long time, but when in Sydney some two years ago he was beaten by Kemp and Neilson. It is expected that Stephenson, who can row very fast for a mile, will defeat the New Zealand champion oarsman.

A meeting of the sailing committee of the New South Wales National Regatta was held at the Exchange Hotel, Mr. Blackman in the chair, when certain protests arising out of the sailing races on Anniversary Day were considered and decided. A protest entered by the Regina against the Violet for carrying a professional hand in the 14ft. Dingies Race was dismissed. In the matter of the protest, Craigielea v. Regina, for foul sailing in the Hired Boats Race, the committee decided not to entertain it, and ordered the two boats to re-sail the course on February 15, they having finished a dead heat. In connection with this race the third boat is Isadore, and the fourth Idothea. The protest entered by the Massilia against Our Tom was withdrawn, and a protest made by Petrel against Genesta for being over the line at starting was not entertained as the starter stated such was not the case. An important meeting of the committee will be held on Wednesday next. All are requested to attend and bring their subscription cards.

INTERCOLONIAL CRICKET MATCH.

The 44th intercolonial cricket match between New South Wales and Victoria came to a termination on the Association Cricket Ground yesterday, New South Wales winning by four wickets and two runs. It will be remembered that when rain stopped the play on Wednesday, shortly before 6 o'clock, the New South Wales score stood at 92 for the loss of six wickets, and our men required only 13 more runs to secure the victory. The heavy rain on Wednesday night flooded the ground so effectually as to prevent the wicket working, and thus the one slender hope the Victorians had left was taken away. If a hot sun had commenced to beat down on the pitch from early morning, and made it sticky, it would have been anybody's game, but when play commenced the ground was still thoroughly soaked, and the ball cut through it, while even with liberal supplies of sawdust the bowlers had all they could do to keep their balance. Consequently when Moses and Garrett, the not out men, resumed their innings, it was long odds on New South Wales winning. Trumble and M'Leod were selected to open the bowling, and Blackham took his time in placing the field exactly as he considered the emergency of the case required. Moses stood at the southern end to take strike from Trumble, who had to bowl against a furious wind. The first ball went for nothing, Moses flattening the pitch down carefully with his bat. The second ball was delivered to leg, and as it rose slow and dead he hit it carefully to square leg for 2, a single coming off the fifth ball of the over and a bye off the last. Garrett cut M'Leod for a single, and then Moses put one to the boundary, despite the efforts of two of the Victorians to reach it. When there were only 3 more runs wanted Bruce was put on in place of Trumble, and Garrett, after missing a sweet chance at a leg ball, brought the scores equal by cutting the new bowler for 2. A leg delivery from the same end then settled the question, Garrett placing it to fine leg for 2, and scoring the winning hit. The players at once returned to the pavilion, where they were received with lusty and most impartial cheering. The result of the match has been to make the number of wins to each colony equal once more. Looking back over the various stages of the game one must admit that the win has been fairly earned. Although the superiority of the New South Wales bowling in general over that of Victoria was appreciable, still it was not up to a high standard. The Victorians do not appear to have any trundler of the first flight, although M'Leod obtained the magnificent average in the second innings of five wickets for 30 runs. It must be remembered, however, that the bad light on Wednesday evening favoured him to a considerable extent, and that where the conditions were more favourable to the batsman he obtained only one wicket at the heavy cost of 53 runs. The dangerous practice of endeavouring to play straight balls round to leg has left its mark on the records of the game, no fewer than five batsmen being given out leg before wicket. In batting, public opinion was divided between the merits of the 100 runs credited to Jones and the 66 knocked up in such slashing style by Blackham. In wicket-keeping Blackham is still *facile princeps*, but this does not detract from the merits of the really excellent performance of Deane. The match was not a sensational one, and if after the following on the result was looked on as a foregone conclusion, the game was, nevertheless, full of sound cricket and played out in a spirit of healthy rivalry. THE PICNIC TO THE VISITORS.

In the afternoon the steamer Thetis left Floating Jetty, Circular Quay, for a trip round the harbour and a picnic at Clontarf, tendered by the New South Wales Cricket Association to the visitors. The company numbered about 100, among those on board being Messrs. P. B. Walker (vice-president of the association), G. H. Reid, M.L.A., Potter, Murdoch, Brough, Lyndal, Cameron, G. E. R. Jones, C. Lord, Boyle, Beal, Sheridan, Toohey, M.L.A., V. Cohen, Bonnor, Doherty, Titheradge, Dr. Scott, Knuckey, Gilpin, Best, M.L.A. (president of the V. C. A.), Freeman, Smyth, Portus, H. Hilliard, C. Lawrence, Cowen, and C. Teece. Dinner was laid in the pavilion at Clontarf, Mr. Walker occupying the chair, with Mr. Blackham on his right and Mr. Moses on his left. After the usual loyal toasts, and that of "His Excellency the Governor," Mr. Reid, in very pleasant terms, proposed "The health of the Victorian Eleven," coupled with the name of Mr. Blackham. In doing so he said that the present Victorian Eleven were worthy of all the splendid traditions of the cricket field of Victoria. They had at their head a man who stood by himself in his own department, and while no one played a keener, no one played a more honest game than he did. Then there was Trott, one of the best cricketers in Australia, and there was also a splendid batch of youngsters, such as the Barrett brothers, M'Leod, Drysdale, and Over. He was glad to see amongst them again that illustrious player William Murdoch, who belonged as much to Australia as to New South Wales. He was sorry Murdoch was not fighting in the recent match for this colony, for which he had fought so faithfully that he would never fight against it. (Hear, hear.) He thought it was a happy day for the Victorian Association when it secured as its president Mr. Best, a man who was calculated to promote good feeling and command respect. Mr. Blackham, in replying, said they had had quite as pleasant a match here as when the Victorians won in Melbourne. He congratulated Moses on the manner in which he had captained his team, and on his innings, by which he had helped to win the match. Dr. Garrett proposed "The health of the New South Wales team," coupled with the name of Mr. Moses, who, in his reply, said he considered that the New South Wales team possessed two very good colts in Sid. Gregory and Iredale. Mr. Toohey proposed "The health of the Victorian Cricketers Association," coupled with the name of Mr. Best. In his reply Mr. Best said that public interest in cricket was once more increasing very rapidly in Victoria. It was gratifying at the present juncture to know that the difficulties which had arisen between three representative bodies in the two colonies had been smoothed over. In conclusion, he said he had much pleasure in conveying to them the thanks of the president (Mr. F. G. Smith) and vice-presidents (Messrs. Braddon and Barlow) of the Melbourne Cricket Club for their invitation to be present. Mr. V. Cohen proposed "Our Visitors," coupled with the names of Messrs. Boyle, Murdoch, Dr. Scott, Brough, Titheradge, Lyndal, Rignold, Williamson, Browning, Doherty, Knuckey, C. Lawrence, and Cowen; Messrs. Brough, Scott, Knuckey, and Lawrence replying. The health of the chairman having been drunk, the proceedings terminated. During the dinner songs were sung by Dr. Barrett and Messrs. Gilpin, Jones, and Bull; and recitations were given by Messrs. Titheradge and Teece. The party had a breezy trip back against the southerly, Circular Quay being reached shortly before 7 o'clock. The general arrangements were carried out in a careful and satisfactory manner by Messrs. V. Cohen and J. Portus.

CRICKET.

As will be seen by advertisement in another column, the Randwick players who intend to take part in the borough match with Waverley, are requested to attend practice at Randwick as often as possible during next week, with a view of being selected in the match.

The Toxteth club journeyed to Kiama on Saturday last, and met the local club on Monday. The visitors were the first to go to the wicket, and they scored 143 runs, Milwain 41, Matthews 27, Reid 22, M'Intosh 13, Abrams 14 (not out). Kiama responded with 124, or 19 runs behind their opponents, Major 51, Kestel 13, Spinks 10. Milwain, Russell, and Williams bowled well for the winners; while Russell and Major did likewise for the losers. The Toxteths returned to town on Tuesday morning after a very enjoyable trip, Mr. C. C. Russell treating them very hospitably.

A cricket match was played on Anniversary Day between St. John's Choir, Ashfield, and Stanmore Second Elviras, and it resulted in a win for Elvira by 42 runs. R. Weaver 37, C. Barnett 13, C. Watson 11, batted well for the winners, as did Trotter 28, W. Rowley 19, and Jones 12, for the losers. C. Morgan, C. Brownlow, C. Barnett bowled best for the winners, as did T. Parker, V. Jones, and W. Rowley for the losers.

PIGEON SHOOTING.

It will be seen by advertisement elsewhere that open sweepstake shooting will take place on the New South Wales Gun Club's Grounds, Botany, to-day.

THE HIGGINS CASE.

TO THE EDITOR OF THE HERALD.

Sir,—Your sub-leader and the report of the police officers, published in this morning's issue, having reference to the case of the girl Higgins, call for an explanation, for which I shall be glad if you will give me space. The vigilance officer was set in motion in connection with the case in consequence of a report received by me, as director of the Society for the Prevention of Cruelty to Children. A young man called at the office of the society at the Temperance Hall, Pitt-street, on Tuesday, 21st instant, at about 3.30 o'clock, and stated that a young girl had just been dragged by two girls into a house at 423, Sussex-street, occupied by Chinese. I immediately sent Mr. Braine to inform the vigilance officer who was on duty in the neighbourhood. He found him, and proceeded with him to the house. The following statement confirms the tale of the officer as to the girl being dragged into the house, as she was first seen by Ada Stevens at Liverpool and Pitt streets, where she was resisting, and then by the informant in Sussex-street, where he says she was helplessly drunk and being dragged along. Ada Stevens states she saw the girl in company with two other girls at the corner of Liverpool and Pitt streets. She heard her say, "I want to go to my mother." One of the girls replied, "No, come along with me." They then dragged her along the street and entered a public-house.

Then, as to the condition of the house and the number therein at the time the vigilance officer entered. Mr. Braine states: "We found no difficulty in entering the house; Hawkins turned the door handle and we walked in and proceeded upstairs; there were several Chinamen downstairs and about 11 upstairs, together with six or seven girls; the girl Higgins was lying on a bed, nearly naked, and foaming at the mouth; she was quite helpless; we partly dressed the girl and then Hawkins asked me to go for a constable; I could not find one in or around the Haymarket and proceeded to the No. 2 Police Station; I returned to the house in company with Constable Meenaghan; it was fully half an hour from the time Hawkins and I first entered the house until I returned with the constable; the house was in a filthy condition and there was an abominable smell; the girl said that the Chinamen had given her opium and drink."

In reference to the question as to whether the girl had visited any Chinese haunts on previous occasions, it does not seem to me to be a consideration that should have weighed at all with us in taking action. It was sufficient for us to know that she was there on the occasion when arrested, and that she was under the age that girls can be dealt with under the Industrial Schools Act, which I hope will, as the Inspector-General suggests it should, be raised to 18, and in the condition described.

I am, &c., G. E. ARDILL, Director.
Society for the Prevention of Cruelty to Children.

TO THE EDITOR OF THE HERALD.

Sir,—I notice that it is suggested as a remedy for cases such as that of the girl Higgins that the age at which such girls could be arrested under the Industrial Schools Act should be extended to 18; it is now 16. There is much to be said in favour of this proposal. But should not those young girls be checked before they are 16? Is it not monstrous that more is not done under the provisions of the present Act? I have not the least hesitation in asserting that the Act as it stands at present is amply sufficient to largely put a stop to the juvenile depravity which now prevails. The fact is the police are not supported sufficiently by the magistracy. In the exercise of my professional duties, I have occasionally attended the different courts, and so have noticed the procedure. A girl is brought up under the Act, the clearest testimony is given as to the immoral life she has been leading, of the utter neglect shown by her friends, and so on; yet a few whining utterances by some person, who may or may not be a relative, awakens misplaced sympathy in the occupant of the bench, and the girl is discharged with a caution. Or some philanthropist, who has a home somewhere to fill, may be in court, and earnestly beseeches that she be sent to its care. No law exists to keep the girls in such homes, and immediately the Police Court is left the girls can claim their liberty. The same sort of thing takes place in respect of boys, but not to the same extent. Of course all this is discouraging to the police, who hardly ever take a juvenile before the courts without having previously warned his or her parents to keep a better control over the child. As a matter of fact, the police do in the majority of cases take such children to their homes, usually more than once, before arresting them under the Industrial Schools Act. Take this very case of the girl Higgins, as showing the misplaced leniency of the magistrate. The evidence given plainly shows the case was one to be dealt with under the Act. The girl will not be 16 until April, and yet she was discharged to the care of her parents. I am, &c., OBSERVER.

RAILWAY EXCESS FARES.

TO THE EDITOR OF THE HERALD.

Sir,—Some two years ago Mr. George Augustus Sala was taking a tour round the colonies with an intention of gaining knowledge, and no doubt to make himself better enabled to write a true history of Australia. On Mr. G. A. Sala's return to England he commenced lecturing upon his visit to the Australian colonies, and remarked what was most wanted was a better class of skilled labour, as all the artisan work was slummed (of course with few exceptions). He specially alluded to the building trades. Whilst reading the accusation, I as a single individual almost felt insulted; still, after consideration, had to bitterly confess it was true. The Government apparently is encouraging a better class of skilled labour in the rising generation by lectures, and classes of science and art, at reasonable fees, though knowledge is almost useless unless a man has tools capable to do a decent class of work. For instance, I am a joiner and carpenter, have faithfully served an apprenticeship, gone through a course of Government instruction in a school of arts, and bought tools to the advantage of myself and employer. I was always proud of my calling till I came to the colony, but, alas! I have truly felt disgusted with it many times since, as there is not more than one carpenter out of 20 who has more than a basket of tools, and directly a decent hand commences work they are either borrowing tools or scamping work with what few tools they have; consequently, the lender has to make enemies or possibly lose his tools. I have repeatedly asked men, "Why don't you buy tools for yourself?" and they have answered, "Stop till you have to travel in search of work, and then you will find out the reason," and truly since then I have done. It is a well-known fact there is and has been a depression in the building trades for the past two years or more. None of my former employers have any work; shops are closed and machinery stopped. Consequently, a man has either to remain in Sydney and become a drag upon themselves and society, or search for work in the country with little hope and much expense. Previous to writing this letter it has been my misfortune to be out of work for almost three months. Seeing an advertisement in the *Herald* a few days ago for three good hands some 40 miles distance from Sydney, I wrote, and followed by convenient train, and was chosen out of about 25. I then had to return to Sydney for my clothes-box and tool-chest, or pay rent-room for the same. Not knowing what tools I should require, I decided to take all, though the job will possibly only last a month. In the first instance the train fare return was 5s. 11d.; afterwards, single fare, 3s. 11d. My clothes-box weighed 1cwt. 23lb., and tool-chest 2cwt. 8lb., for which I had to pay 7s. 7d. excess luggage fare (how this amount is made up I am at a loss to understand, considering I am allowed to take 56lb.). Now, sir, if the Government would allow workmen's tools to travel free there would be less unemployed, better class of workmen, and also the employers would reap the benefit by their extra tools. In looking over the time-table I notice commercial travellers are allowed 1½cwt. of luggage up journey and free down. This consideration is not allowed to really the backbone of the country.

I sincerely trust that our Commissioners will speedily see their way clear to give such artisans encouragement they so justly deserve, by allowing tools to travel free, and then I venture to say we shall have a far better class of workmen, ironmongers and builders more prosperous, and the country greatly benefited. There are thousands of pounds expended yearly for the benefit of squatters and the like, for destroying rabbits, &c., and also thousands of pounds are paid and wasted on the railways by granting unnecessary holidays—for instance, the 1st of August, which the outside world knows nothing about; and surely if they have got money for such purposes, then why not encourage a better class of skilled labour? Trusting some more able pen will take this matter up,

RUST IN WHEAT.

TO THE EDITOR OF THE HERALD.

Sir,—I note in to-day's issue of the *Herald* a letter signed by Mr. James Cook, wherein he takes exception to the correspondence which appeared in your issue of the 20th instant, on the subject of "Wheat Rust: What it has Done, Preventitive Means," and signed Angus Mackay, F.C.S., Instructor in Agriculture. I have read Mr. Mackay's letter and consider that the colony is, and should be to a further extent, indebted to him (Mr. Mackay) for the research and experience with which he embraces all subjects appertaining to agriculture. In his faint endeavour to upset Mr. Mackay's theory, your correspondent goes straightway to inform the agricultural public what constitutes rust and, with a few stipulations, how it can be avoided. It is a pity that this latest information of which Mr. Cook is possessed should have remained so long dormant. I am sure the liberal rewards offered of late years by the intercolonial Governments for the prevention of wheat rust ought long since to have brought forward this information.

In justice to Mr. Mackay, I observe one or two instances in which growing wheat, according to your correspondent, suffered owing to the ravages of rust. In the first instance, I am of the opinion that pinched wheat does not belong to the rust-devouring order, but, so far as my experience tends, is attributable to a more than ordinarily dry season extending from the date of sowing until the harvest sets in. Mr. Cook again states his association with wheat crops to have been acquired as a flour miller dating back to 1853. Admitting that he is a thorough judge of the soundness of wheat, as also a judge of its market value, it is, however, frequently noticed that experts—perfectly reliable as valuations—have proved lamentable failures at the practical raising of the product. As a case in point, I will instance Yorkshire woollen manufacturers and buyers at the London annual wool sales—thoroughly conversant with the market value of wool, but in most cases at a perfect loss as to how the quality of the wool was attained. If Mr. Cook had tendered his experience as a practical farmer instead of a practical miller I might perhaps have accepted his theories with more than ordinary respect and consideration, but it now appears to me the total value of his information comprised nothing but "words," "words," "words." Mr. Cook goes so far as to condemn technical college education; but, goodness knows, we require all possible information on grain-producing topics, if Mr. Cock's theories are a sample of the present agricultural knowledge of the colony.

I have my own opinions about the prevention of rust in wheat, but as they are of a somewhat simple nature, I dare scarcely express them here. My basis, however, is sweet land—not sour, nor with an underlying damp—good and careful tillage, clean seed, and deliverance, if possible, from atmospheric damps and fogs. I venture to think that not every district will produce rust-proof wheat, but there are many places that do.

I agree with Mr. Mackay in stating that rust is the result of a parasitical plant-growth, but from that point beg leave to differ, concluding that the plant-growth is fostered by sour damp underground and ungenial atmospheric changes, including unhealthy fogs, indifferent tillage, and bad seed, the same as a fever might prove the outgrowth of any unhealthy locality.

RUSHCUTTER BAY RESERVE.

TO THE EDITOR OF THE HERALD.

Sir,—One of the most noticeable features in our city life during the past 10 years is the greatly increased interest shown by the general public in the matter of recreation grounds. Much money and taste have been expended on the beautifying of reserves which were too long allowed to go almost uncared for, and vast sums have been spent on the reclamation or purchase of additional areas in various parts of the city and suburbs. One of our most recently-acquired parks is that at Rushcutter Bay. When the formerly existing swamp was being filled in, and an announcement was made that a dedication as a public park under the care of trustees was to follow, the residents of the locality welcomed with thankfulness the prospect of possessing a place where their children might play in security; and where they in their leisure hours might sit and enjoy the sight and perfume of sweet flowers and fresh clover while listening, once or twice a week, to the music of our city bands.

But this desirable state of things is still in prospect. It would seem to be the proper duty of the governing body of such a place to, first of all, make the ground generally useful and beautiful, and afterwards to attend to any special interests that are of sufficient importance to demand consideration. But an inspection of this park shows that this is precisely what has not been done. The surface of the greater part of it is monotonous in its roughness and unsuitableness for all recreative purposes; the grass seems never to be cut, while stones and broken glass are very frequently to be met with. Very few trees have been planted—few, that is, compared with the number that ought to have been. There is not a single flower to be seen, and not one seat exists for the relief of tired humanity. It is too much to expect that in a park on which some thousands of pounds have been spent a man or woman must perforce sit on the ground if he or she desires to rest. The foreshores present a broken and unfinished appearance in place of the neat sea wall which ought to be there, while at the eastern end of the bay a portion of the water frontage of the reserve is in the occupation of a boatowner.

But perhaps the greatest grievance that the general public have to complain of in connection with this park is the marked attention paid to cricketers to the almost complete neglect of all other parts of the community. The best part of the western half of the reserve has been fenced off, and this portion is kept from being profaned by the unhallowed feet of ordinary individuals by notices prohibiting admission, and by the constant attention of the workmen employed on the ground. By dint of a very large expenditure of money and labour a cricket ground has been formed, and a small house, marked "members only," for the exclusive convenience of players, has been erected. The privileges in connection with this ground have been, it is said, secured by one club at the very low rental of £60 per annum, against which sum, however, must be placed the wages of two men constantly employed on this area by the trustees, which represent a sum of at least £150 per year. Reasons for the marked favouritism shown to this club are freely circulated, but apart from them the mere recital of the above facts should alone be sufficient to attract public attention. When the practice followed in this case is compared with the policy of the guardians of some of our other public cricket grounds—for instance, Moore Park or the Domain—the contrast is marked indeed. What would be thought if a substantial fence were erected around the parts of those reserves used for cricket purposes, or if monopolies of their use were granted to any one club; while the erection of permanent cricketing pavilions in those parks would create violent opposition from a public properly jealous of its rights.

I am, &c., A. A. HUNT.

THE UNEMPLOYED.

TO THE EDITOR OF THE HERALD.

Sir,—I see by your to-day's paper that the unemployed held a meeting yesterday, and intended to hold one every day until they succeeded in forcing the hand of the Government. How much longer are you New South Welshmen going to coddle and foster these agitators? You have one of the finest countries in the world lying comparatively idle because these men will not go up country and work for the squatters and farmers, and give a fair day's work for a fair day's wage. Now, I guarantee that if the following course were pursued you would no more hear of the unemployed. In one month they will all have left for a more congenial clime to air their grievances, and to lean against trees and lamp-posts in some other place. Firstly, let a Government labour bureau be opened, where every man in want of employment registers his name and the sort of work he is best suited for. Anyone wanting labour up country could apply for men, and these men when engaged should be obliged to go. If these men return to Sydney without sufficient reason and again pose as unemployed, put them to work on Government works, not on wages, but for their "tucker," for trying to get money out of the Government. At the present time 100 men are wanted on the new railway at Mount Geehan, Tasmania, at good wages. If it were thought advisable by the bureau, advantage could be taken of these outside works to draft any men away at any time. But men are wanted badly in New South Wales—at a fair wage—though, and there is plenty of work up country for all. I am, &c.,

January 30. SOUTH AFRICA.

The number of Gallician peasants who are said to have been decoyed into emigration by the agents who are now on their trial at Wadowice is over 13,000, of whom 6000 were not yet released from military service, and consequently became deserters. Many of these wretched people sold their lands to the emigration agents to pay for grants of land promised them in America. Their ignorance was so great that the agents hoaxed them in a hundred ways. For instance, an electric bell was set up, and some of the intending emigrants were told that it was a telegraph communicating with the palace of the Emperor of America. The credulous peasants applied for grants of land by telegraph, and when the bell tinkled, bringing them, as they were informed, a favourable reply, they were made to pay the cost of the imaginary telegram, with heavy fees besides. Evidently an imposture so widespread could not have been successfully practised without complicity on the part of the police. It is now alleged that a great many officials are compromised. An ex-commissary of police has already been arraigned with the other prisoners.

THE SYDNEY MAIL.

THE LARGEST ILLUSTRATED WEEKLY NEWSPAPER PUBLISHED IN AUSTRALASIA.

THE ISSUE FOR THE PRESENT WEEK, FEBRUARY 1,

contains, amongst other illustrations, the following:—

THE CASCADE, LEURA FALLS, KATOOMBA.

In the Mail this week, is a fine large engraving of one of the numerous and beautiful sights of that fashionable township, Katoomba, viz., the Cascade, at the Leura Falls. Our illustration will be interesting to very many, for the visitors to Katoomba are now so numerous as to completely throng the town. Nor is this to be wondered at when, in addition to the natural scenic beauties of the place, the highest temperature of the thermometer during the past week was 75 in the shade. The Leura Falls, especially the point we illustrate, are amongst the best known of the beautiful resorts of the township.

VIEWS ON THE QUEENSLAND COAST.

All travellers along the Queensland coast and through Torres Straits will be pleased with the sketches which our artist made during a recent trip. They comprise some of the principal and best known points of interest, such as Cape Upstart, Whitsunday Passage, Lion Island (Whitsunday Passage), and Cape Capricorn.

A PEASANT GIRL OF THE BLACK FOREST.

This is a splendid art picture, showing a type of female beauty to be found in the forests of Germany. It is a striking picture, doing credit alike to both artist and engraver.

HARBOUR SKETCHES, ANNIVERSARY DAY.

Our artist, in a series of admirable sketches, has depicted some of the most striking events in connection with the recent splendid aquatic festival of Anniversary Day. The picture is an excellent one for sending to friends at home.

PORTRAITS.

Excellent portraits of Mr. C. Goldsbury M'Mahon, Mayor of Wentworth; Mr. R. H. Judd, Mayor of St. Peters; and Mr. John Mealing, Mayor of Mittagong, will be found in this week's Mail.

AUSTRALIAN ECONOMIC PLANTS.

The plant illustrated and described this week is "An Apple Tree."

MADAME LEROUX.

The picture which this week accompanies the splendid story now running through the Sydney Mail is an extremely fine one, and depicts Lucy with her aunt Charlotte.

The Sydney Morning Herald

FRIDAY, JANUARY 31, 1890.

It is proposed to establish an annual national regatta on the Thames.

The Dockers' Union in London is conciliatory. It has resolved not to block the ocean liners at Bermondsey.

It is suggested by the *Pall Mall Gazette* that Mr. Goschen should devote his surplus to the establishment of a system of Imperial penny postage.

There is great discontent amongst the military in Brazil owing to the arrogant manner in which they are being treated by Field Marshal da Fonseca, the Dictator.

France is disposed to agree to the proposals submitted by England with regard to the conversion of the Egyptian national debt.

A revision is to be made of the French tariff by a committee consisting of 39 protectionists, 13 freetraders, and three members whose principles are doubtful. The committee has been urged by M. Leon Say, the French economist, not to impose an import duty on wool.

It is reported that Emin Pasha is now recovering. He has left the hospital at Bagamoyo.

A deputation from the Waterloo Municipal Council waited on the Minister for Works yesterday, and requested that Elizabeth-street, Waterloo, should be put in a proper state of repair, and handed over to the municipal council.

Owing to disadvantages connected with the local supply, there is a prospect of the Argentine Republic railways using Newcastle coals.

The Minister for Works was asked yesterday to submit the concluding section of the proposed line from St. Peters to Liverpool to the present Parliamentary Standing Committee on Public Works.

Sir James Fergusson, Bart., M.P., has joined the directorate of the Peninsular and Oriental Steam Navigation Company.

The Postmaster-General yesterday informed a deputation of letter-carriers that they could form an association amongst themselves without requiring his approval. He promised to read their rules and afterwards communicate his decision to them.

Some new Victorian gold mines are to be placed upon the London market "when money is cheaper."

The English money market is easier. The Bank of England having received a million sterling in gold from Russia, is lending money freely at 6 per cent.

A raid on a Chinese gambling den was made by the police at Wagga on Wednesday night. The occupants were engaged in playing fan-tan. Yesterday they were sentenced to three months' imprisonment each.

Benzon, the "Jubilee Plunger," still remains in custody at Nice, in France.

The Privy Council appeal case of Phillips v. Martin has been dismissed. The case, which was tried before the Chief Justice, was one under the Real Property Act, and the issues were whether two deeds had been signed by the caveator, Caroline Martin. The decision was in favour of the defendant.

A sentence of three months' imprisonment has been passed upon Dr. Charles K. D. Tanner, M.P. for Mid-Cork, for having threatened a Conservative member of the House of Commons.

France will not agree to the protest by Russia against the proclamation of an Italian protectorate in Abyssinia.

Sir William Robinson, Governor of Western Australia, leaves London for Perth in May.

A parcel of 1400 quarters of Victorian wheat has sold in London at 33s. 9d.

A cricket match between a New South Wales team and an Auckland eleven was commenced in the latter city yesterday.

In another column we give the proposals for a settlement of the Goulburn Cathedral dispute, and also the counter propositions. The latter have been referred to a sub-committee for consideration and to report to a meeting of the committee who have the matter in hand.

An outbreak of scarlet fever which is reported from Brighton, near Melbourne, is attributed to an infected milk supply.

An address to the Queen has been adopted by the Dominion Parliament of Canada, declaring that it would be insulting to represent that the Canadians are desirous of separating from England.

It is stated that the Governor of Mozambique, who was recalled to Portugal, is to resume his position.

In the import markets yesterday business was slack, although inquiries were numerous, and there seems to be a prospect of a good trade next month. The Customs revenue received yesterday amounted to £6372.

The Jubilee festivities were continued at Auckland yesterday.

It is likely that the French Government will withdraw £6,000,000 from the French bankers in London, with a view of funding a portion of the public debt.

It is probable that a bill will be introduced into Parliament granting shipowners the right to discharge cargoes from their vessels.

At an inquest yesterday morning on the body of William Flemming, who was knocked down and killed by an Illawarra train on Wednesday, the jury returned a verdict of death from injuries accidentally received.

The population of Queensland in December last was estimated at 406,950.

The South Australian revenue returns for the last quarter have been published. The total revenue was £533,947, as against £527,224 for the previous quarter.

The death is announced of Sir William Withey Gull.

At a meeting at the Town Hall, Brisbane, £150 was subscribed for the relief of the sufferers by the recent floods, and contributions from the country are coming in freely.

Speaking at Quirindi, Mr. Levien, M.L.A., condemned the Public Works Act, gave the Opposition credit for doing good work in regard to the Land Bill, and disagreed with the single-tax movement.

Our cablegrams report the opening of the first series of London wool sales for the year. Although at the Antwerp sales recently the market appeared to be rather weaker, it cannot be said that the prices are appreciably lower. The quantity of wool that will be offered at the sales is 280,000 bales, about 80,000 bales having gone direct to the manufacturers in Yorkshire and on the Continent.

The Wesleyan Conference was continued yesterday, when a large amount of routine work was done. A long discussion took place on the report of the committee of Church procedure dealing with the question of Church membership, which contained the various recommendations of the district meetings on the subject, as well as the returns of the circuit quarterly meetings in New South Wales and Queensland.

Some of our correspondents seem to be not a little exercised in their minds by the report that the Admiralty has offered H.M.S. Shah to the Government of New South Wales. They arrive at the conclusion, which the terms of the cable message do not bear out, that the intention is to employ the vessel for harbour defences, and they point out that she is unfit for such a purpose. In one letter it is declared that to send men into action in such a vessel would be little better than murder; in another, the writer dwells upon the unwieldiness of the Shah, as shewn in the fight she had with the Chilian turret vessel Huascar off the town of Ilo. Our correspondents are undoubtedly correct as regards the inefficiency of the Shah as a fighting vessel, but what is there to show that her employment in that capacity is contemplated either by the Admiralty or by the Government of this colony? We take it that the offer to place the Shah at the disposal of the Government of this colony has arisen out of communications which have passed between the authorities here and the Admiralty since the virtual condemnation of the training-ship Vernon. We want something to replace that worn-out and unsafe vessel, and we are now offered the Shah on condition that we defray the cost of the necessary fittings. There is not even a hint in the cable message as to her employment as a fighting ship, and it will be seen from a paragraph elsewhere that the intention is to use her instead of the Vernon.

Our correspondents seem to have caused themselves unnecessary anxiety on one point, but at the same time they have done service in bringing under notice once more the unsatisfactory condition of our naval defences, and the absurdities that are practised under the present system. The only vessel we have that can be used for naval exercises is the Wolverene, but her guns are obsolete and the time spent in working them is thrown away. We are told that although most of the recruits who join the Naval Brigade are seamen of a high class, who left the Imperial Navy on completing their term of service, and possess in most cases certificates of proficiency in the use of the most modern guns, they have to be re-drilled because the armament of the Wolverene is so far behind the age that it is perfectly strange to them. This sort of thing goes on from year to year. Both officers and men, it is said, are disgusted, and we can readily imagine that such is the case. They engage in what is rightly described as child's play, and it would be surprising if they were content. But our correspondents, while they are to be thanked for drawing attention to a matter which cannot be talked about too much or too often, for it is only by constant effort that Governments and Parliaments will be moved to take action, must not suppose that in exposing our naval absurdities they are turning over new ground. The anomalous condition of affairs was commented upon by Major-General SCHAW in his report on the defences of the colony, and he made the discovery, from reading the official history of the question, that things had long remained in the same state. When he was examined before the Royal Commission of 1881, Commodore WILSON had this question put to him—"With the Naval Brigade as it is now constituted we have nothing more than a land force?" His reply was, "They may be very good men, but they are only used as a land force." Commenting upon this statement, General SCHAW, who seemed to think that it held good at the time he made his examination, said: "It is clear that the duties of the naval forces of the colony must be distinctly defined, that they must be placed under one responsible head, and properly organised and trained to perform those duties. The materials for a very valuable naval auxiliary defence are apparently in existence, but without proper organisation they will not be able to do much good." In another part of his report he says: "The officers and men of the Naval Brigade and the Naval Artillery Volunteers deserve all honour for their patriotic exertions. They need, however, to be organised into one body of efficient naval gunners, torpedo men, and sailors, under one head, to give them practical value in the defence of Sydney." We have not yet got this organisation, and in the meantime we are trying to make men "efficient naval gunners" by drilling them with obsolete weapons, which no one would attempt to use in action.

In the letters we have published it is suggested that two large gun-boats heavily armed should be obtained, with the view of preventing a blockade of the port in case hostile ships made their appearance in the absence of the cruisers which will form the first line of defence; but as these vessels are expected to be strong enough to cope with any probable combination of foreign warships, General SCHAW did not consider the purchase of an ironclad or large gunboats necessary. He seemed to think that every purpose would be served by the erection of batteries with an efficient subsidiary defence by submarine mines, electric lights, torpedo-boats, and guard-boats. If this system of defence is to be pursued—and it is understood that General SCHAW's recommendations, which are concurred in by General EDWARDS, are in the main to be carried out, our naval forces ought to be trained as soon as possible in the work that will be expected from them. The manipulation of obsolete guns on board a vessel like the Wolverene is a waste of time and a waste of energy. Not that the Wolverene is a useless vessel. Our correspondents seem to think that whether the Shah replaces the Vernon, or whether the Wolverene is handed over to Captain NEITENSTEIN, and the Shah employed instead of the Wolverene, the introduction of the new vessel would prevent the acquisition by the colony of the fighting boats that she requires; but this does not at all follow. If we have a fleet of torpedo-boats, a training vessel, which would also be used as headquarters and store, will be required, and either the Wolverene or the Shah, supposing the latter vessel to have been transferred to the colony, could be used for the purpose. The acceptance or rejection of the Shah will affect our defences very little, if at all, and it need not be the cause of any anxiety. What we have reason to be anxious about is the procrastination which is shown in making the preparations which naval and military experts have assured us are necessary to place our chief ports in a position of security. There is no immediate danger, perhaps, but no one can tell how long the present state of things will continue, and we have been distinctly warned that measures of defence hastily undertaken will break down if pressure should be placed upon them. The desirableness of taking immediate action is urged by every authority that has been consulted, but we do nothing. It will be a fortunate thing for us if we do not suffer some day for our slothfulness.

When the French authorities started the plan of making New Caledonia a penal establishment, they no doubt honestly intended that it should work satisfactorily in the interest of colonisation, and also prove a reformatory for the criminals. Still, though these two objects were desirable in themselves, they did not constitute the ruling motive for the establishment. The main purpose was to get the worst criminal population out of France, and to put the distance of half the globe between them and their native land. In adopting this policy they followed the example of England, and some of the French authorities seemed to think that they had only to do that to make a corresponding success. What the one country had done in Australia, the other was going to do in New Caledonia: an undeveloped territory was to grow into a prosperous colony, and a criminal population was to found a virtuous commonwealth. The conditions, however, of the two experiments were totally different. The people now sent to New Caledonia are not light offenders, but are the vilest of the vile. A hundred years ago men in England were sentenced to transportation for stealing fowls, or stockings off a hedge, and a great many were despatched for mere political offences. This makes a very great difference when the degree of liberty allowed to workmen has to be taken into account. The natural resources of the two countries were also very different. The English authorities, as appears fully from the recent publications of the official despatches, quite expected that the Botany Bay settlement would very soon support itself, and to this expectation was due the neglect to keep them supplied with provisions, and the unfortunate people were nearly starved out. So long as it remained dominantly a convict settlement it showed no sign of supporting itself, and it was not until it became a commercial community by the development of the wool-growing industry that it fairly got on to its legs. New Caledonia has not reached that point. It has a little cultivation and a little mining industry, but it still rests mainly on the Governmental expenditure. Take that away, and there is more labour in the colony than can be profitably employed.

As to the reformation of the criminal population, the failure is complete and pronounced. The purpose intended has not been realised, and does not seem likely to be, and on this point we have now the testimony of competent and even unwilling witnesses. During the recent Exhibition period in Paris there was held an International Colonial Congress, and in connection with this the condition and prospects of New Caledonia came on for discussion. A correspondent of the *Argus* has given some of the opinions expressed at this conference, and to which the disappointed Parisians have been compelled to be unwilling listeners. Baron MICHEL condemned the whole system of penal transportation *in toto*. According to him it had utterly failed to realise the purpose of raising the morality of the criminal, while the convicts did little or nothing that was of any public service. The discipline was too lenient to be properly reformatory, and he wishes to see introduced the system of solitary confinement with absolute silence. But it is obvious that if this is the treatment the worst criminals need, it could be applied much more effectively in France than in New Caledonia. The object of transportation to a young country is to combine industrial work, and a certain degree of freedom, with the necessary surveillance. But solitary confinement and silence are inconsistent with industrial and associated work. Colonel DINAMATIN-DORA, who had been for a time in charge of the penitentiary administration at New Caledonia, also advocated very rigorous measures in the way of discipline, and declared that to separate the convicts from one another was essential to their moral improvement. He added that he did not believe in the convict as a colonist, although it might be possible to use him as a pioneer of colonisation. But so to use him, he must be capable of the rough work of making roads or constructing other public works; and for this he must work in concert with others, for the solitary system is quite inapplicable to it. We had plenty of experience of the gang system in New South Wales in the olden days, and we know that it was not an economical method of employing labour, and that the association of criminals almost prevented reformation. The fresh experience gained in New Caledonia simply repeats the lessons learned in New South Wales, Van Diemen's Land, and Norfolk Island more than fifty years ago.

Several colonists of New Caledonia took part in the discussion, and they were unanimous in saying that free labour was crushed by the unfair competition of what was practically the slave labour of the convict class. There evidently is not margin enough for free labour to work in, and in the restricted industrial area the cheaper convict labour gets the preference. If it is disappointing in Paris to find that the convict system at Noumea has thoroughly broken down, we cannot pretend to be disappointed here. The failure is what we expected, what we predicted, what we hoped for. We look to the recognition of the failure as affording the best chance of re-establishing amicable relations with France. At present that country is doing us a wrong, and in spite of all our protests persists. We have now something like eight hundred French criminals in this colony; they are a menace to our social order and a constant anxiety to our police; their number steadily increases, and will continue to do so as long as the penal establishment in New Caledonia is maintained in full force. We remonstrate, but the Government at Paris takes no heed, and therefore it is a supreme satisfaction to find that, judged by Frenchmen who would have liked to come to an opposite conclusion, the whole system is a gigantic failure, morally, socially, and financially.

The verdict of accidental death returned at the inquest into the Eveleigh fatality, reported elsewhere, need not shut out from view the fact that the accident was of a character which might have been prevented. The sad occurrence was undoubtedly the result of a very common piece of carelessness. Following the evidence, it appears that when deceased stepped on to the line two trains were approaching him in opposite directions. Of course he should not have gone on the line at all. The fact that he was walking along the track the employees always use only makes the matter the more serious. One witness, a labourer on the railways, said that the track deceased used was a short cut to his work, and the engine-driver further explained that for workmen to walk "along the line at the side of the down line" was a common occurrence. Anyone who has observed the workmen of the railway workshops at Eveleigh going to or returning from their work must have observed that the practice of crossing the lines is by no means confined to the labourers who work in gangs along the track, and the rash carelessness of porters and others at suburban stations, who habitually cross the rails in front of an advancing engine, has frequently been the subject of remark. When the painful accidents for which this kind of folly is responsible are remembered, it seems inexplicable that anyone in his senses would continue to run such risks. Familiarity, however, breeds contempt in this matter as in most others, and nobody pays the least attention to the daily and hourly risks that are taken until some family is deprived of its breadwinner, or some young fellow suddenly cut off, as was the case in the accident on Wednesday. With regard to trams and steamers, the case is just the same. Most of the tram accidents arise from this cause, and the people who jump wildly from steamers are comparatively lucky in the circumstance that they usually escape at the expense of a plunge in the water. A little patience and good sense in these matters would save many a life, and prevent many a harrowing paragraph appearing in the newspapers.

A new department of the Public Service was inaugurated in Victoria on Wednesday, by the appointment of Mr. DEAKIN to the recently-created office of Minister of Public Health. This departure is an evidence of the importance the sanitary question is assuming in the sister colony. The creation of a new Ministerial office is not always a good thing, of course, either in the general interest or in that of the particular branch of the public business with which it is proposed to deal. With the Ministerial office comes political patronage, and the fact that officials are appointed to satisfy the claims of influential friends is not by any means the best guarantee of efficiency, or of the appointees' peculiar fitness for their work. But there are some subjects in connection with which the sense of Ministerial responsibility should be distinctly felt, and, under certain circumstances, the administration of matters relating to the public health is one of them. Melbourne itself, during the past few weeks, has been providing abundant evidence of this. The report of the Central Board of Health for the last fortnight showed 344 cases of typhoid fever, 37 of which terminated fatally. The average of cases is increasing as the summer advances, and the hospital accommodation is already so far overtaxed that patients are refused at the doors, and a proposal has been made by a member of the Board of Health to hire the vacant skating rinks of the city and suburbs as fever hospitals during the typhoid season. When it is remembered that this is merely a repetition of the experiences of last summer, when the city was crowded with Exhibition visitors, while that summer only recalled the experiences of those that had gone before, the necessity for some definite action is readily apparent. Every year the ravages of this disease leave gaps in the population that would not be much greater if the city were annually placed in a state of siege, and with the coming of the warm weather every summer the same familiar state of things is looked for. To some extent the same remarks apply to the suburbs of Sydney, and probably for the same reason. Bad drainage does its fell work every summer here with more than official regularity. The very fact that this visitation comes, not as a surprise or as an accident, but as a regular visitor at fixed periods, makes the absence of measures of precaution the more remarkable. We know what to expect, and we take no steps to meet it. Individual effort alone is next to useless. The safety of the population, and the safeguards against disease and death, are matters of public concern for which the governing power may well take a direct

responsibility. Now that the head of the department in Victoria is a responsible Minister, it will be interesting to observe how the reorganised Health Department works.

New South Wales has won the cricket match by four wickets, and the record is once more even. The game was well contested, and the interest which it excited was shown by the large attendance of the public. We have every reason to congratulate ourselves on the result. Sometimes the success of the winning team is discounted by the fact that the luck has been all on one side, but on this occasion, if either team was favoured by fortune it was the Victorians. New South Wales certainly had the advantage of winning the toss and going first to the wicket. This, under some circumstances, might mean a great deal, but in the present case, as the weather was fine until New South Wales had made some progress with its second innings, it cannot be said that our players were helped by good luck. On the other hand, the thick gloom, preceding a heavy fall of rain, which settled down on Wednesday afternoon, placed our batsmen at a disadvantage. If the weather had kept fine all through, the probability is that New South Wales would have won with nine wickets to spare. Regarding the teams critically, the opinion must be expressed that ours was the stronger of the two in bowling, although TURNER, having a wicket which did not suit him, was less destructive than usual, we more than held our own while in batting we were if anything superior to our opponents. Both teams deserve praise for their fielding, Victoria especially, although mistakes were made on both sides. Unfortunate in the game was the large number of cases in which batsmen were out leg before wicket. No fewer than five players had to retire because in the opinion of the umpire their legs were in the wrong place; and although incidents of this sort frequently lead to disputes, it is satisfactory to know that a tale in-a-tree nothing took place to interfere with the good feeling with which the match began and ended. Altogether the occasion is one that may be regarded with entire satisfaction.

THE selection of the members of the Federal Conference, which is to meet in Melbourne on Tuesday next, has now been finally completed. The various colonies will be represented as follows:—New South Wales: The Hon. Sir Henry Parkes, G.C.M.G., Premier; the Hon. William M'Millan, Colonial Treasurer. Victoria: The Hon. Duncan Gillies, Premier; the Hon. Alfred Deakin, Chief Secretary. Queensland: The Hon. Boyd Morehead Mackenzie, Secretary for Public Works; and Mr. Hugh Samuel Griffith, leader of the Opposition. South Australia: The Hon. J. A. Cockburn, Premier; the Hon. Thomas Playford, leader of the opposition. West Australia: Sir James Lee Steere, Speaker of the Legislative Council. New Zealand: Certain Russell, Minister of Defence; Sir John Hall, member of the House of Representatives. Tasmania: The Hon. Andrew Inglis Clark, Attorney-General; the Hon. Nolten Garland, Treasurer. Fiji: Sir John Bates Thurston, K.C.M.G., Governor of the Islands.

SOME interest is felt respecting the fate of the steamer Riverina during the prevailing bad weather at that part of the coast where she is grounded. It was the general opinion amongst shipowners yesterday that the hard southerly gale and heavy sea at Shoal Point has knocked the vessel about a good deal. It was stated by the second officer of the Riverina, as may be remembered, that nothing southerly or easterly would play havoc with the steamer, and the weather has been exactly what came from those quarters. The salvage steamer Aldinga, sent down by the underwriters of the cargo, was heard of yesterday afternoon had weather of it 25 miles to the southward of Cape St. George at 5.40 a.m. Against its gale of yesterday and the heavy sea rolling along the coast, it would not be possible for the Aldinga to reach the scene of the stranded ship.

H.M.S. Satellite is it is understood, to replace the Nerissa as an industrial school. The vessel having the necessary beam, is considered exceedingly suitable for the purpose to which she is to be applied. The fleet is in every respect twice as large as the Nerissa. The cost of fitting her up will, it is expected, be considerably under £5000. It is thought probable that the necessary alterations in the vessel will be made in Sydney, the plan of some English industrial schools being followed, but no definite information on this point is obtainable at present. No decision has yet been arrived at as to what will be done with the Nerissa after she has given way to the Satellite.

An extension of Mr. Whitton's leave has, it is understood, been approved by the Cabinet, on half-pay, the reason for the extension being continued inability to perform his duties. At the end of this leave extension Mr. Whitton anticipates being able to resume duty.

The case of the two widows whose husbands were killed by an accident at the Prospect dam quarry, as well as the case of a quarryman who received severe injuries, have been brought under the notice of Mr. Carruthers by Mr. Crick, and have since been before the Cabinet. An inquiry was, it will be remembered, held regarding the accident, which it was considered could not have been foreseen, and for which it was found no one was to blame. A proposal has, however, been made that the two widows and the quarryman should receive some gratuity. The matter was submitted in the Cabinet on Wednesday, and it was agreed that £100 should be granted to each of the widows and £50 to the injured man, provided that all three persons execute a complete release of the Government from any claim any of them might be supposed to have.

A DEPUTATION of letter-carriers waited on the Postmaster-General yesterday morning to ask for the Minister's approval to an agreement which has been formed amongst the letter-carriers of the city and suburbs. Mr. O'Connor promised to read the rules through, and give the deputation an answer within a week. He pointed out that there was nothing to prevent them from forming a society, and they did not require his approval to do so. Any body of men in the community could form a society, but it was another thing to ask the Department to sanction the rules. One of the greatest troubles in the colony was the Railway and Tramway Employees' Association, and they formed their society without going to their Department and asking permission. Anything they did for their own improvement socially and mentally would have his hearty support. He would be pleased to attend or provide at their meetings, but he sanctioned them not to hand themselves body and soul over to the Postmaster-General.

A DEPUTATION from the unemployed will, it possible, wait upon Sir Henry Parkes this morning. The committee expect that several members of Parliament will accompany the men.

During the two days devoted by the Minister for Public Instruction to visiting suburban Public schools he saw between 12,000 and 13,000 children. He inspected 12 schools on Wednesday last, situated in the Glebe, Newtown, Redfern, and South Sydney electorates, and was fully occupied from half-past 9 a.m. until 7 p.m. In many of the visits was, he learnt, quite unexpected. The schools were found to be in a most creditable state. The sanitary arrangements, however, in a large number of instances were not perfect, and it is not possible to render them what they should be until the sewerage scheme has been carried out. At several of the schools the Minister addressed the children on the subject of behaviour beyond school bounds. On Wednesday Mr. Carruthers also inspected the Hurlstone Training College. The institution, which is conducted by Miss Ernest, was found to be in excellent order. The Minister will continue his inspection of schools today.

THE Minister for Public Instruction has dealt with the offers of a large number of clothing manufacturers and tailors to supply jackets and trousers of the approved pattern for members of the re-organised Public School Cadet Force. The offers were accompanied by samples of the cloth which it is proposed to use in making the garments, as well as by prices. The fencing provides in the Department that not only will the cadets be clothed with jacket and trousers of the approved kind, but as the patterns selected are very neat a considerable number of other lads will be found to adopt the clothing, so that, without the shoulder straps, &c., necessary to convert it into a military uniform, it will to a great extent be regarded as a school uniform. There are something like 240,000 children in attendance at the Public schools, and it is felt that it would not be right to screen the "tailor" of any one particular firm to manufacture all the clothing required. It has been found possible to approve of all the offers to supply sent in where the material is up to a certain standard, leaving parents to select for particular establishments from which they will obtain their boys' clothing. It is understood that the cost of the jacket and trousers ranges from 20s. to 30s., depending upon the precise quality of serge used. It is expected that the firms who have been in communication with the Department will send round samples of material to the various schools, and the Department will advise the schools of the prices at which the firms have agreed to supply jackets and trousers of the authorised pattern. In reference to the correspondence which has been published relative to the helmets for Public school cadets, it may be stated it is believed that when they have been seen by the recruits they will meet with general approval. The helmets are lined with cork are exceedingly light, and have been specially selected for their suitability to the climate and the prevention of sunstroke. They are regarded as much safer for the head than either straw hats or caps. The helmets will be covered with a white material, which will have to be piqued over.

THE prize of £150 for a school history of Australia, for which there were 15 competitors, has, we learn, been awarded to Mr. Lees, barrister-at-law. The portion of the work will not be published until after the result of the other competition in respect to the larger school history has been made known; and as it is thought that some of those who took part in the competition just decided will enter in that, their strongest (in framing the "keys" to their maps) will not be opened.

At the meeting of the Public Works Committee yesterday the Marrickville to Burwood-road railway proposal, upon which the committee intended to confer a resolution, was again postponed, as it was not a full committee present. A resolution was passed against the proposal submitted for a dredge and plant for Sydney harbour, this resolution being in accordance with the wishes of the Public Works Department, which has acquired improved appliances since the present vessel was built. A resolution in favour of acquiring a site and building offices for the Water Supply and Sewerage Board was agreed to. A sectional committee was appointed to take evidence locally on the proposed line of railway from Moss Vale to Robertson. The committee agreed to a resolution that it is expedient to carry out the proposed reticulation of the western suburbs. Reports from the respective sectional committees were received in reference to the following proposed works:—Railways from Hexam to Nowra, and from Grafton to the Tweed River breakwater at Byron Bay, and an improvements to the entrance to the Clarence River. The progress made with examinations into the works submitted to the committee is considerable, the principal of which is the proposed railway from Gosford to Wyong, and from Wyong to Wallarah. The committee will continue its inspection of schools today.

MR. DAVID DAIX, M.L.A., one of the members for Central Cumberland, accompanied by Mr. E. F. Ritchie, of Auburn, paid a visit to Pott's Hill on Wednesday afternoon, to inquire into the truthfulness or otherwise of the reports concerning the insanitary state of the workmen's camp at that place. It will be remembered that very serious reports were circulated to the effect that enteric fever was overflowing, that typhoid and fever were rampant, and that several deaths had taken place in consequence. Mr. Dale determined to visit the camp and ascertain beyond a doubt if such reports were correct. The result of his observations and inquiries, which occupied several hours, convinced him that the reports were utterly without foundation. The condition of the camp was found to be as satisfactory as the surroundings and the nature of the work permitted. Mr. Dale's attention was also drawn to the extremely dangerous condition of several culverts and roads between Hookwood and Auburn, and had promised to have no stone unturned to have them repaired.

THE only case of interest concluded in the District Court yesterday was that of M'Kenzie v. the Grand Central Coffee Palace Company, to recover damages for breach of contract for the delivery of milk to the company. Plaintiff, it appeared, obtained the contract for a period of 12 months, and after he had been delivering for some time, the company rescinded the contract on the ground that it was being inefficiently performed, inasmuch as the quantity required was not delivered daily, nor did the plaintiff observe the stipulated time for delivery. The jury returned a verdict for the plaintiff, with damages £1/10.

IN order to meet the expressed desire of the people of Newcastle for a Court of Quarter Sessions to be established in that city, the Minister for Justice recently called for reports as to what sort of accommodation would be necessary to enable him to grant the request. These reports have been received, and plans and specifications for the extra works have been prepared, and Mr. Gould has just decided that tenders be called for. A sum of £15,000 was voted on the loan estimates of the session before last for the erection of a new courthouse at Newcastle, and tenders will, it is hoped, be called for on an early date.

A SCHEME of members of the original Town Hall organ committee waited upon the Mayor yesterday, and conversed with him about the proposed arrangements to mark the opening of the organ. They spoke of the desirability of taking early steps to prepare a programme for the entertainer, and they suggested that a million to the twelve rentals already borrowed, and which it was considered should be more numerous, the scheme should be made much more comprehensive. All available talent ought to be impressed, and that committee offered their services to the Mayor to secure this. Mr. Bardsley said he was desirous of receiving suggestions from the committee, and he was pleased they had seen him. With regard to the enlargement of the committee, he proposed that a representative from each of the musical societies should be added, and that to them should be left the preparation of a scheme for the festival on a scale worthy of the occasion. Apart from their deputation, it was his intention during the first week in February to have taken steps in the matter himself, but he would be glad of their co-operation.

ABOUT 30 members of Signor Hazon's orchestra met at the Sydney Catering Company's rooms yesterday afternoon to discuss the subject of future performances and the system by which they might be conducted. Mr. Churchill Otton presided, and explained that only £50 out of the anticipated £90 subscription of two guineas in the proposed series of 10 concerts had come forward. It therefore rested with the members of the orchestra to say if they were prepared to initiate the Saturday afternoon concerts with 500 guineas and to trust to additional subscriptions coming in and the public patronage likely to be given to so worthy an enterprise. The Mayor of the city had graciously offered the use of the Exhibition Building, and only comparatively small expenses would have to be met. With regard to holding Sunday concerts, he mentioned the fact that many of the subscribers would find it necessary to withdraw from the undertaking if they were pressed as part of the subscription concerts. Signor Hazon offered his services without any remuneration, leaving the 37 members of the orchestra to equally divide the proceeds. After a short conversational discussion, the meeting agreed to give the Saturday concerts, and a committee consisting of Messrs. Algona, L. Hall, W. Rice, Kogard, Lemmone, Greely, Churchill Otton, and Signor Hazon was appointed to make the necessary arrangements for them. It was left to the committee to decide whether they should be given in the Exhibition Building or at Her Majesty's Theatre.

MR. BANTIEY with his clarionet party passed through Sydney yesterday en route for New Zealand, where a series of concerts in all the principal towns has been arranged. Mr. Bantley is accompanied by Miss Ellen Atkins, soprano; Mr. Henry Stockwell, tenor; and Mr. Frank Bradley, pianist and accompanist. After the completion of the New Zealand season, the company expects to go through Tasmania. The tour is under the management of the veteran agent, Mr. R. S. Smythe.

MR. JAMES, has we learn, been made for the Government to purchase the well-known model of the Strasburg Clock from Mr. R. B. Smith clockmaker, of Parramatta-street, and place it in the Technological Museum. A very favorable report was obtained recently from the Government Astronomer and Mr. Allerding, chronometer-maker, endorsing the scientific peculiarities and value of the model. It is considered that it would make a very interesting and instructive addition to the Museum.

BECAUSE of the work which the surveyors are performing in the Western districts of the colony continue to be received by the Water Conservation Department. Six surveyors were sent out some time ago by the department into the Murray, Lachlan, Lower Darling, Upper Darling, Macquarie, and Namoi districts, which will have to be plotted for the purpose of ascertaining the country best suited for a scheme of water conservation. Along the Murray and the Murrumbidgee especially considerable progress is being made with this work. In the Namoi district the surveying has been impeded by the heavy floods.

AN advertisement appearing in another column it will be seen that the train now leaving Sydney at 9.40 p.m., and arriving at Hornsby at 5.30 p.m., is to be altered to leave St. Leonards at 5.45 p.m., arrive at Hornsby at 6.35 p.m., and so connect with the 6.50 p.m. train Hornsby to Sydney. The attention is to take effect from Saturday, February 1.

AN advertisement appearing in another column of yesterday's issue has been forwarding the Australia Memorial Fund by collecting subscriptions. The Memorial Fund committee warn the public against the individual referred to, and request information as to his identity.

BY advertisement appearing in another column it will be seen that the Parramatta steamer Waratah will leave Circular Quay at 2.30 p.m. instead of 3 p.m. on Saturday next, and not on Monday as heretofore. The Waratah will be crowded with a white material, which will have to be piqued over.

THE prize of £150 for a school history of Australia, for which there were 15 competitors, has, we learn, been awarded to Mr. Lees, barrister-at-law. The portion of the work will not be published until after the result of the other competition in respect to the larger school history has been made known; and as it is thought that some of those who took part in the competition just decided will enter in that, their strongest (in framing the "keys" to their maps) will not be opened.

THE Parramatta, of the P. and O. Company's line, due from London this morning, has a well filled list of passengers for Sydney. The Parramatta continues to have her share of patronage with regard to passengers, and on this trip she left London with 66 in the first saloon and 90 in the second saloon. Passengers were dropped at Mediterranean and Egyptian ports, and others from India were taken in, and the passenger list on arrival includes 86 for Sydney. The Earl of Kerry and Lord Fitzmaurice, sons of the Marquis of Lansdowne, Viceroy of India, were passengers by the Parramatta from Brindisi to Aden, en route to India. The voyage was enlivened after the usual fashion on board ship. There were cricket, quoits, and other athletic sports by day, and concerts, theatrical entertainments tableaux, &c., by night, and the musical performance, vocal and instrumental, received great assistance from the well-trained band on board, Captain Murray is in command.

BETWEEN two and three hundred passengers left here yesterday for New Zealand. The Te Anau had about 70 on board, and the Hauroto over 150—the former for Auckland, and the last-named steamer for Wellington. A large proportion were excursionists to the Exhibition now being held at Dunedin, and not a few induced by the reduced fares were on a trip to friends there.

PRIVY COUNCIL APPEAL CASE.

PHILLIPS v. MARTIN.

[BY CABLE.]
(FROM OUR CORRESPONDENT.)

LONDON, JAN. 28.

The appeal to the Privy Council in the case of Phillips v. Martin has been dismissed.

On the 23rd March, 1888, an application for a rule nisi for a new trial was made in the action W. E. H. Phillips v. Caroline Martin, which was tried before his Honor the Chief Justice and a jury of four. It was a case under the Real Property Act, and the issues were whether two deeds, one of the 23rd January, 1885, and the other of the 1st June, 1886, had been signed by the said Caroline Martin. The jury found that they were not, and thus the issues were decided in favour of the defendant. Plaintiff appealed for a new trial on the ground that the verdict was against evidence. After argument the Chief Justice held that the rule nisi ought not to be granted, and Mr. Justice Windeyer concurred in his opinion. The rule, by a majority of the Court, was discharged. The matter was then sent to the Privy Council, with the result, as above stated, that the appeal has been dismissed.

DEATH OF SIR WILLIAM GULL.

[BY CABLE.]
(FROM OUR CORRESPONDENT.)

LONDON, JAN. 29.

The death is announced of Sir William Gull, the eminent physician.

Sir William Withey Gull, Bart., M.D., F.R.S., was born on December 31, 1816, being the youngest son of Mr. John Gull, of Thorpe-le-Soken, Essex. He was educated privately, and subsequently pursued medical studies at Guy's Hospital. He graduated M.B. in 1841, and M.D. in 1846, at the London University, and it is worthy of note that he was the first medical graduate who was nominated on the Senate by the Crown. Dr. Gull was Fullerian Professor of Physiology at the Royal Institution of Great Britain in 1847-49; was elected a Fellow of the Royal College of Physicians in 1848; and for 20 years acted as physician and lecturer to Guy's Hospital, retiring from that position about 1867, though he remained in connection with the institution in 1871 by accepting the post of consulting physician. On January 20, 1872, he was created a baronet, in recognition of the services rendered by him during the severe illness of the Prince of Wales at the close of the previous year. In the following month he was appointed one of Her Majesty's Physicians Extraordinary. In 1883 he resigned the latter office for that of Physician to Her Majesty's Medical Council as one of the Crown members. Sir William Gull was President of the Clinical Society, a Fellow of the Royal Medico-Chirurgical Society, a member of the General Medical Council, an honorary Doctor of Civil Law of Oxford (1880), and a Fellow of the Royal Society (1880). He was the author of "Gulstonian Lectures on Paralysis;" of treatises on "Hypochondriasis" and on "Apnœa of the Brain;" "Reports on Epidemic Cholera during 1854 as Inspector General of Hospitals;" "Report of the Medical Council of Physicians," (in conjunction with Dr. William Ogle), 1884; "An Address delivered in the Hall of Natural Society, February 13, 1861;" "Clinical Observations in Relation to Medicine in Modern Times," an address delivered in the Divinity School, Oxford, on the occasion of the meeting of the British Association in that city in 1868; and "The Harveian Oration," delivered at the Royal College of Physicians, London, June 24, 1870." "Arsenic-Capillary Paresis" (1862, Dr. Sutton); Med. Chir. Trans., vol. lv.; "Anæmia Nervosa." "On a Clinical Basis," Trans., Clin. Soc., vol. vii., &c. Sir W. Gull has also been a frequent contributor to the reports of Guy's Hospital. His practice is also known to be enormous. He married, in 1844, Susan Anne, daughter of Colonel J. Dawe Lacy, of Carlisle.

THE FEDERATION CONFERENCE.

[BY TELEGRAPH.]
(FROM OUR CORRESPONDENT.)

ADELAIDE, TUESDAY.

Sir James Lee Steere arrived in town to-day with Sir Samuel Griffith, from Albany, en route to Melbourne as Federal delegate for Western Australia.

In the course of an interview with the *Register* representative, Sir James Steere said he was anxious to forward the federation movement by every possible means. He thought the most practical course would be to extend and develop the present Federal Council by making it directly representative and by investing it with executive functions. The Council would deal with questions of defence, quarantine, and posts, arrangements, and such-like matters that affected all the colonies. He was of opinion that the people of New South Wales did not properly understand the principles of the Federal Council Act, and that when they did so that colony would join the others in the Council. He looked upon the conference as a factor in fostering federation by bringing about a proper understanding between the colonies.

Sir Samuel Griffith and Sir J. Le Steere, who are at present staying in Adelaide, had an important conversation with the Premier and Mr. Playford on the subject of the Federal Convention. To-morrow the visitors will visit Dry Creek Smelting and Refining Works, and on return will lunch at Parliament House. Sir James will leave by express in the afternoon for Melbourne. Sir S. Griffith will prolong his stay till the delegates from Adelaide leave.

THE WESLEYAN CONFERENCE IN VICTORIA.

THE MELBOURNE FIRE BRIGADES.

[BY TELEGRAPH.]
(FROM OUR CORRESPONDENT.)

MELBOURNE, TUESDAY.

In connection with the long-standing dispute between the Fire Brigades of the city and suburbs, the Chief Secretary yesterday sent a letter to Superintendent Stein, representing the Melbourne and Suburban Association, and Captain Mauger, representing the Metropolitan Association, intimating that in view of the urgent necessity for a more complete and efficient organisation of the Fire Brigades, the Chief Secretary declines to make any further advance from the Government to anyone for any purpose until a permanent scheme be agreed and an officer elected to undertake the control of all brigades. The effect of the letter will be that the Southcott control demonstration during March is not to be proceeded with, but a consolidation is effected.

For some time past the Railway Commissioners have had under consideration the desirableness of appointing a general traffic manager, with the view of getting uniformity of practice in the details of traffic management, including the classification of goods rates, and fares, as well as time tables and regulations for the safe working of the railways. They have now decided to promote Mr. J. F. Tallon, traffic manager of the northern and western districts, to the position. District traffic managers will also be appointed.

SOUTH AUSTRALIA.

ADELAIDE, TUESDAY.

The Wesleyan Conference to-day formally expressed approval of the Rev. George Brown's Tonga missionary recommendation, that the General Conference should continue to appoint two European ministers to the Tonga mission, and to make an allowance of £400 per year to assist in supporting them. Attention was called to the necessity of establishing a Wesleyan mission field in New Guinea, but the conference considered that it was not in possession of sufficient information to pronounce judgment upon the wisdom or otherwise of taking immediate action.

TASMANIA.

HOBART, TUESDAY.

Mr. A. Lord has been returned unopposed to the Legislative Council for Cambridge.

The highest temperature in the shade to-day was 75°.

THE SOUTH AUSTRALIAN REVENUE.

RETURNS FOR THE LAST QUARTER.

[BY TELEGRAPH.]
(FROM OUR CORRESPONDENT.)

ADELAIDE, THURSDAY.

A comparative statement of the revenue and expenditure of the colony for the quarter ended 31st of last December and a similar period of the previous year shows an increase of over £3000 under the head of taxation, mainly from Customs duties. Public works and services show an increase of £22,000, the principal source of increase being railways and tramways, viz., £16,338. The territorial revenue has decreased in the quarter by £18,191, over £16,000 of the decrease being chargeable to rent and licenses of Crown lands. The total revenue for the quarter was £533,917, as against £527,224 the previous quarter. The net increase of revenue in the quarter was £6722. As regards the expenditure for the same period, the increase under special Acts amounted to £10,488 to the various ministerial departments. The following are the main increases:—Crown Lands, £11,000; Public Works, £19,000; Education, £8000. There was a decrease of £11,000 in the Chief Secretary's department, and nearly £5000 in the Treasurer's department. The net increased expenditure for the quarter was £55,871. Total expenditure, £585,921. During the same quarter of the previous year it was £550,040.

THE SOUTH AUSTRALIAN RAILWAYS.

PROPOSED ADOPTION OF GAS LIGHTING.

[BY TELEGRAPH.]
(FROM OUR CORRESPONDENT.)

ADELAIDE, THURSDAY.

An inquiry by the Railway Commissioners into the cause of the recent catastrophe on the north train has been held for their own information only and no report will be made. There has been no diminution in the passenger traffic over the Railway since the fatality to Mr. Ramsay. The Railway Commissioners are closely engaged in investigating the merits of one or two patents for lighting railway carriages with gas, and it is anticipated that at an early date trains on the Port line will be fitted with gas-lighting apparatus. As a patent must be adopted, the Railway Department will have to purchase the appliances ready made.

THE SUGAR INDUSTRY IN QUEENSLAND.

[BY TELEGRAPH.]
(FROM OUR CORRESPONDENT.)

BRISBANE, THURSDAY.

An influential deputation of gentlemen interested in the sugar industry waited on the Chief Secretary this afternoon and asked for the appointment of a committee to consider some means of affording relief to the sugar planters. Mr. Morehead, in reply, thought that instead of the Government appointing a committee, it should be appointed from the deputation, when others besides planters would be represented. Mr. Black expressed the opinion that it would be useless to reopen the black labour question, as the country was dead against it. He thought the proper method of solving the sugar difficulty would be by intercolonial free trade. The deputation withdrew without any practical result.

THE SHEARERS' UNION IN QUEENSLAND.

[BY TELEGRAPH.]
(FROM OUR CORRESPONDENT.)

BRISBANE, THURSDAY.

A largely attended meeting of shearers was held at Augathella on the 28th instant for the consideration of the rules and regulations which were recently passed by a general meeting of the Shearers' Union at Blackall. The men are furious at the tyrannical nature of the rules, and it was unanimously decided not to work under them. It was proposed and carried, amidst cheers, to establish a branch of the Amalgamated Shearers' Union. A deputation from the meeting waited on the large station owners in the district, and they have decided to support the shearers in this matter. Oakwood, a very large shed, starts on the 25th February under the amalgamated rules. Provisional committees are being formed to carry out the objects of the meeting, and a delegate will go to the annual conference of the amalgamated unions, which will be held at Bourke early next month.

NARROW ESCAPE FROM A COLLISION IN HOBSON'S BAY.

[BY TELEGRAPH.]
(FROM OUR CORRESPONDENT.)

MELBOURNE, THURSDAY.

A Court of Marine Inquiry has been investigating the charges against Captain Campbell, of the steamer Ozone, and Captain M'Gee, of the steamer Coogee, of infringing certain articles in the regulations for preventing collisions at sea, whereby a collision between the steamers was narrowly averted near the Port Melbourne railway pier on the 4th instant. To-day the President delivered judgment, finding that the charges had not been sustained against Captain Campbell, but cautioning him to be more careful in future. In the case of Captain M'Gee, the finding was that he was not guilty of such a gross act of misconduct as would enable the Court to deal with his certificate, but the Court was of opinion that there was evidence of misconduct on his part, seeing that the Coogee was the overtaking ship; therefore the Court severely censured Captain M'Gee.

THE WEATHER FORECAST.

[BY TELEGRAPH.]
(FROM OUR CORRESPONDENT.)

BRISBANE, THURSDAY.

Mr. Clement Wragge, Government Meteorologist, issued the following special warning this morning:—"Mariners are advised that an easterly gale is possible north from the Clarence River in connection with the tropical disturbance already experienced." The weather bureau reported later:—"The tropical disturbance is now central north-east from Bowen, and its full force is being experienced off the coast, judging by this morning's reports. The sea is mostly rough to high, while south-east winds are blowing with a velocity of about 58 to 65 miles per hour between Mackay and Townsville."

The land board commenced a sitting here on Tuesday, and is still sitting.

Rain fell in light showers last night, and there are appearances of more.

BARMEDMAN, THURSDAY.

No rain has fallen here this month, but there is plenty of old grass, and stock are looking well. Crops have been heavy in the vicinity of Barmedman.

BLAYNEY, THURSDAY.

The weather is unsettled. A strong cool south-easterly wind is blowing.

BROKEN HILL, THURSDAY.

The inquest regarding the fatal accident at the Silver King, by which a miner lost his life in December by falling down the shaft, was concluded to-day. A verdict was returned to the effect that death was caused by the negligence of the management in not carrying out the mining board regulation. A rider was added that it is imperative that the Government should appoint an inspector for the district to see that the regulations are carried out, and also for the protection of the lives of the miners.

DUBBO, THURSDAY.

The weather has turned cool, but all signs of rain have gone. The prospects are good still. Rain would do much good. Grass and water are abundant, the former being quite green and luxuriant. The average wheat return is 30 bushels per acre.

The election of medical officer at the hospital is causing much excitement.

GRENFELL, THURSDAY.

Bush fires are prevalent in the district. The weather is much cooler than it has been.

KIAMA, THURSDAY.

The rain which commenced here yesterday afternoon continued more or less throughout the night, accompanied by a south wind almost approaching a gale, and at 9 o'clock this morning the rain-gauge recorded 47 points for the 24 hours. Fine showers have fallen at intervals to-day. From 9 a.m. till 5 p.m. 6 points of rain fell, making more than half an inch in about 25 hours.

A heavy surf is rolling in along the coast. If the wind remains in its present point, and continues to blow as now, there will be a high sea.

MACLEAN, THURSDAY.

Mr. M'Farlane, M.L.A., will address his constituents to-night here on political matters, and also at different centres during the coming week.

MORUYA, THURSDAY.

After more than a month's hot weather we were favoured to-day with splendid showers, which were very much needed. Thirty points of rain fell. It is still showery and threatening.

MUDGEE, THURSDAY.

On Tuesday evening a young man named Raynor, living at Mullamuddy, near Mudgee, was thrown from his horse and killed. Mr. W. J. Wotton, coroner, held an inquest to-day, and a verdict of accidental death was returned.

NEWCASTLE, THURSDAY.

A violent south-west gale has been blowing all day. Heavy rain also fell at intervals. To-night the weather somewhat moderated, but a heavy sea is running outside.

A concert was held to-night in aid of the Searle Memorial Fund, and was very successful.

RYLSTONE, THURSDAY.

Diphtheria is continuing to spread. Several deaths are reported.

WAGGA, THURSDAY.

A harvest festival will be held in St. John's Church, Wagga, on Sunday, when the church will be decorated according to the usual custom, and a service appropriate to the occasion will be adopted.

The weather was cooler to-day, the highest register of the glass in the shade being 90 degrees.

The river is 2ft. above summer level.

In virtue of the powers conferred on them by the Amending Land Act, the members of the Local Land Board have made a rule requiring all applicants for original conditional purchases to appear personally when their applications are set down by the local board for confirmation. Their presence will also, as a rule, be required in the case of additional conditional purchases.

Hares are becoming very plentiful in the Wagga district. The stock inspector, on Anniversary Day, saw thousands within a short distance of the town.

The annual meeting of the Wagga commoners was held yesterday. The report and balance-sheet, which were adopted, showed a balance in credit of £134 12s. 8d. The chairman, Mr. William Reed, stated that the Wagga commons were in a more satisfactory state than in previous years. The commons were a great boon to the people interested in them, and they should do their utmost to secure every acre they could get at a cheap rate. The money in hand would be spent in improvements for the benefit of the commoners.

WEST MAITLAND, THURSDAY.

A very heavy rain storm occurred last evening and lasted several hours. The weather is still cloudy and like more rain.

COLLISION IN NEWCASTLE HARBOUR.

[BY TELEGRAPH.]
(FROM OUR CORRESPONDENT.)

NEWCASTLE, THURSDAY.

Whilst the steamer Tagliaferro was swinging round at the Dyke last evening, preparatory to proceeding to sea, she collided with the barque Jane Porter, which was berthed at the cranes in load, smashing the barque's bits, and slightly injuring herself. These injuries were not of a serious nature, and the Tagliaferro proceeded on her voyage to Melbourne.

MR. LEVIEN AT QUIRINDI.

[BY TELEGRAPH.]
(FROM OUR CORRESPONDENT.)

QUIRINDI, THURSDAY.

Mr. Levien addressed the electors in the School of Arts here last evening, Mr. E. Underwood being chairman. About 150 people were present. Mr. Levien thanked the electors for returning him unopposed. He said he was much opposed to the Public Works Act. He considered that highly-paid civil servants should be capable of judging the necessity or otherwise of some of the public works which now came to be decided by the committee at a monstrous cost. If such civil servants were not capable of this duty they should be replaced by abler men. The new survey fees were an unjust charge, and he foresaw that a few months' time would show the necessity for their being done away with. With the Land Bill he agreed, but gave the Opposition credit for much of the good work in it. He upheld the Privy Council's decision with reference to the increasing of the pastoral rents. At that time the Parkes Government was financially embarrassed, and Sir Henry Parkes pitched on Mr. Garrett, but the decision of the Privy Council had upset his scheme. Referring to free trade and protection, he gave some figures relative to the sums in the savings banks of California and New South Wales respectively. The banking institutions of the former were established long after those of New South Wales, and yet, he said, the latter country was now far behind in the total of business done. He also quoted to show that wages in the United States were much higher than in England. The Trades and Labour Council of Victoria at the last election affirmed in favour of protectionist candidates; this was a telling fact, showing that the working men of Victoria were satisfied with the protectionist policy. He referred to the recent fiasco at the Mayor's banquet, and said there was some dissension in the freetrade party with reference to the greater question of federation. He eulogised Sir Henry Parkes, who, he said, was above all other Australian politicians the greatest. The single-tax movement was a side issue, and he condemned it. Referring to local matters, he was trying to get the Lands Office here at Tamworth, and was trying to get the Land Board for Tamworth to hold its meetings in a more convenient place for Wallabadah selectors. A vote of thanks was carried to the speaker.

THE ORANGE SCHOOL OF ARTS.

[BY TELEGRAPH.]
(FROM OUR CORRESPONDENT.)

ORANGE, THURSDAY.

The half-yearly meeting of the School of Arts subscribers was held last night, Mr. Torpy, M.L.A., presided. In the report submitted it was stated that 770 books had been issued for the 12 months; the receipts for the half-year had been £198, of which subscriptions made up £64, whilst the disbursements were £174, showing a credit balance in the bank of £37; 7 new members had joined. The report was adopted. Members commented upon the institute not receiving that public patronage which it deserved, and it transpired that only one alderman was a subscriber. The committee decided to invite lecturers during the winter months to deliver lectures on various topics.

MESSRS. EWING AND PERRY AT BALLINA.

[BY TELEGRAPH.]
(FROM OUR CORRESPONDENT.)

BALLINA, THURSDAY.

Messrs. Ewing and Perry addressed one of the largest meetings ever held here last night, the Mayor presided. They were enthusiastically received. At the conclusion of the address, Mr. Jones, a candidate for the municipal council, moved a no-confidence motion. No one seconded it till Mr. Ewing did so *pro forma*, and replied effectively. Alderman Winton then moved an amendment expressing confidence in the members. Alderman Cloeter seconded, and this was carried with only one dissentient.

MAITLAND HALF-HOLIDAY ASSOCIATION.

[BY TELEGRAPH.]
(FROM OUR CORRESPONDENT.)

WEST MAITLAND, THURSDAY.

The half-yearly meeting of the East and West Maitland Half-Holiday Association was held in the School of Arts last evening. Mr. Geo. L. Lee, president, was in the chair. The secretary read the committee's report, which showed that the membership numbered 190, being an increase of 38 members for the half-year, while the treasurer's balance-sheet indicated the society to be in a very prosperous condition, there being a credit balance of £22 8s. to the general fund, and £51 17s. 3d. to the sports fund. The following officers were elected:—President, Geo. L. Lee; vice-presidents, C. C. Sexton, W. R. Sullivan; treasurer, Jas. M'Lauchlan; joint secretaries, H. G. Dodds, W. S. Pender; committee, Messrs. Dalton and Godfrey (East Maitland), W. A. Moss, J. A. Kerr, W. Porter, F. Corner, Alex. M'Lauchlan (West Maitland).

GRASS FIRE ON A RUN NEAR WAGGA.

[BY TELEGRAPH.]
(FROM OUR CORRESPONDENT.)

WAGGA WAGGA, THURSDAY.

A fire broke out shortly after noon on Tuesday, in a paddock on Tooyal run, which was very heavily grassed. The flames spread with great rapidity. Mr. J. G. Fletcher, of Cobb, grazier, and the station hands and volunteers were quickly upon the scene. The fire had obtained such a hold that in spite of the efforts put forward the whole paddock, comprising about 800 acres, and two and a-half miles of fencing were destroyed. There is a quantity of ringbarked timber, and a watch was kept over it to prevent a further outbreak. The reflection of the fire was plainly visible from the Bundidjarie range, close to Narrandera.

LOWER CLARENCE HOSPITAL.

[BY TELEGRAPH.]
(FROM OUR CORRESPONDENT.)

MACLEAN, THURSDAY.

The third annual meeting of the Lower Clarence Hospital was held last night. A most satisfactory report was adopted. Eighty-one cases had been treated, the daily average being eight, and there were eight patients now in the hospital. The balance-sheet showed the institution was financially prosperous. The receipts for last year amounted to £800 13s. 11d., and the expenditure to £628 7s. 7d.; the latter includes £77 for the erection of an isolation ward. On December 31 there was a balance to credit of £146 15s. 11d. About two years ago the overdraft amounted to nearly £1000. This has been wiped out, and at present the cash assets amount to £391 19s. 10d. The following officers were elected:—Trustee, Samuel M'Naughton; committee—John M'Naughton, Stevens, Barry, M'Leod, Street, Garven, Miller, Roderick, Ball, Felsing, Jenkins, Alexander M'Donald, Samuel M'Lean, Conlon, Jones, Dunnett, M'Mahon, H. A. Gibson, Riley, M'Dougall; secretary, F. J. Nicoll; treasurer, Theo. Lamy. The committee is a good representative one, and good results are anticipated during the present year.

NOTES ON COMETS.

TO THE EDITOR OF THE HERALD.

Sir,—The orbit-elements of Comet G, 1889, as telegraphed, are so doubtful and incomplete that it is impossible to publish them. The time of perihelion passage is not given, but the perihelion distance appears to be about one-fourth of the sun's mean distance from the earth. The predicted apparent places telegraphed from Melbourne have been confirmed by post, and are the same as those given in Mr. Russell's communication. The orbit has been computed from observations on the 14th, 17th, and 23rd of last month. The comet on February 5 will be in conjunction with the sun and only 17deg. south of it, not 1deg. as given in Mr. Russell's letter; so that, unless our new visitor is a pretty bright one, it will probably be difficult to discover it.

Dr. R. Lamp, of the Royal Observatory, Kiel, published an ephemeris of Brorsen's periodical comet in *Astronomische Nachrichten* of November 7. In his communication he states that when the comet was first observed at Windsor during the return of 1879 its apparent brilliancy was 0·82. Careful, but unsuccessful, searches were made here on December 21 and 25 last, the theoretical brilliancy being 0·30, or about half of that of February 25, 1879. Another ephemeris was published by Dr. Lamp in the periodical above referred to for December 9, extending from December 30 to March 4. Very careful searches were again made here for a considerable distance on all sides of the ephemeris positions for the 18th, 20th, and 22nd instant, but not the slightest trace of the comet could be seen, although its theoretical brilliancy was 0·83 on the 18th and 1·02 on the 22nd. As the comet is slightly increasing in brilliancy this interesting object is not likely to be seen in the southern hemisphere, but it may be found in the northern hemisphere towards the close of next month. I am, &c.,

JOHN TEBBUTT.

The Observatory, Windsor, January 30.

THE WEATHER.

Right along the coast the southerly wind which set in on Wednesday evening continued to blow fresh during Wednesday night and throughout yesterday. Between 2 and 3 a.m. yesterday it increased to a moderate gale, and was accompanied by rather heavy rain at intervals. Heavy gusts reached a force of 30 miles per hour, and the suddenness with which they came down is reported to have caused some damage to fences in the suburbs. In the harbour one or two ships dragged their anchors, notably the Battle Abbey, which at one time was in some danger of touching over in Neutral Bay. The Port Jackson Company's steamer Commodore took her in tow, however, and safely left her on the opposite side of the harbour, behind Garden Island. In mooring steamers some slight damage was sustained in a few instances, but nothing of a serious character had occurred from the rather stiff blow. The rainfall has been chiefly coastal, and the heaviest fall in Sydney. At 9 a.m. yesterday the reports to hand were:—Bowral, 1·11; Bodalla, ·36; Bombala, ·25; Casino, ·18; Cooma, ·12; Eden, ·20; Goulburn, ·13; Grafton, ·08; Jervis Bay, ·22; Lismore, ·17; Maitland, 1·26; Merriwa, ·6; Moruya, ·30; Mount Victoria, ·30; Muswellbrook, ·12; Newcastle, ·43; Port Macquarie, 1·04; Singleton, ·26; Tenterfield, ·21; and it was then raining at Armidale, Barranjoey, Byron Bay, Cape Hawke, Grafton, Jervis Bay, Macleay Heads, Newcastle, Port Macquarie, Port Stephens, Seal Rocks, and Windsor. At 3 p.m. it was raining at Bowral, Cape Hawke, Jervis Bay, Macleay Heads, Port Macquarie, and Wentworth, and at midnight all coastal stations as far as Green Cape reported showery. The rainfall in the city up to 11 p.m. was 36 points for the 24 hours, making a fall of over 2 inches for the southerly blow. The sea along the coast was heavy, but no heavy gale was prevailing.

MUNICIPAL ELECTIONS.

The candidates nominated for Morpeth are—John Wingrave, Joseph George White, Robert James Scober, and John O'Neill; three to be elected. As Auditors: David James Campbell, Robert Simm, who are therefore re-elected.

There will be no polling for aldermen at the Glebe Borough Council, the wards not being contested. Alderman N. J. Conlon has been nominated for Outer Glebe Ward, Alderman J. Meeks for Bishopthorpe Ward, M. Chinnon for Inner Glebe Ward, W. G. Yeates for Forest Lodge Ward. There being more than two nominations for auditors, a poll will be taken on Monday, the 10th February. The gentlemen nominated are—S. F. Scott, J. J. O'Brien, G. W. Tate, J. W. Dickinson.

The municipality of Hurstville will hold a poll in Bexley Ward, only the other two wards not being contested. W. F. Humphrey and W. F. Payne have been nominated for Bexley, and Hugh Patrick for the Hurstville Ward, and D. D. Middleton for the Peakhurst Ward. As auditors, Messrs. G. P. Windon and A. H. Gregory have been nominated.

In the borough of Redfern all wards are contested except Redfern Ward, for which Mr. John Crowe has been nominated. Surry Hills Ward: A. Ogden and T. Lee are the candidates. Belmore Ward: E. M. Walsh and F. Berry. Golden Grove Ward: S. Stenner and T. Clarke. As auditors, Messrs. J. Mitchell and J. Moloney. Alderman J. Butterfield is the returning officer.

The Rockdale Municipal Council have contests in all wards and in Arncliffe and Scarborough Wards two extraordinary vacancies. For the Arncliffe Ward extraordinary vacancy Messrs. W. Taylor and F. Cahill are nominated, and for the Scarborough Ward extraordinary vacancy Messrs. H. Cook and J. Drape are nominated. The ordinary vacancies: Arncliffe ward, Messrs. William George Judd (ex-Mayor) and F. Cahill are candidates. Rockdale Ward, ex-Alderman A. E. Green and L. Thomas are nominated. Scarborough Ward, Messrs. J. E. Cooper and J. F. Hegarty are nominated. As auditors, Messrs. Farleigh, Dallas, and Callaway are candidates.

[BY TELEGRAPH.]
(FROM OUR CORRESPONDENTS.)

JUNEE, THURSDAY.

The following candidates were nominated for the approaching municipal election:—For Aldermen: James Hopkins, W. Carter, Tyson Peck, Edward Henry Williamson, David Oswald, Thomas Charles Humphreys, Wm. Edward Cross. For Auditors: Frederick William Walker, James Arthur Day Sellin. As alderman for the extraordinary vacancy caused by the resignation of Alderman Davies, the only candidate nominated was District Superintendent Roberts.

BLANEY, THURSDAY.

W. Whitaker, R. Kurdt, C. Donnellan, and J. Mellor were nominated for the three vacancies in the municipal council.

GRENFELL, THURSDAY.

The nominations for two vacancies in the municipal council are W. Lay, J. G. Dane, R. Hale, A. Sheckel, John Connolly, James Frazer; and as auditors, W. Woolley, E. J. Collins, J. Carruthers.

RAID ON A CHINESE GAMBLING DEN.

[BY TELEGRAPH.]
(FROM OUR CORRESPONDENT.)

WAGGA WAGGA, THURSDAY.

Between 9 and 10 o'clock yesterday evening the police made a raid on a Chinese gambling den at Yon Chong's store, situated in the Chinese quarters, in Fitzmaurice-street, Wagga. Immediately after entering the room all means of exit were cut off, and, after a slight resistance, 35 Chinamen were arrested and marched to the lockup. One of the occupiers escaped. The whole of these Chinese at the time were engaged in playing fantan. A number of their countrymen stayed outside the lockup for over two hours after the arrest was made. The whole batch were brought up at the police court this morning before Mr. Henry Baylis, P.M. The banker was sentenced to three months' hard labour in Wagga Gaol, and 33 others were each fined £2 and 4s. 10d. costs. Mr. R. B. Fitzhardinge, who defended the whole of the accused, held that they were illegally in custody, and that the warrant was no good, as it should have been executed at the time the information was laid. The magistrate overruled the objection. The whole of the gaming implements and a small sum of money found in the gambling room were confiscated. It is very probable that the occupier who escaped will be shortly arrested.

MR. GLADSTONE AND DIVORCE.

TO THE EDITOR OF THE HERALD.

Sir,—It is very difficult to get a clear plain answer to any question out of Mr. Gladstone, as anyone who may have asked him any questions will no doubt have found out, as those questioners in the *North American Review*, reprinted in to-day's *Herald*, surely must have done by this time. There are four questions put to Mr. Gladstone on the subject of divorce. He answers them all. The two first questions are the most important, and are the only ones I propose to deal with in this letter. They are the most important because an affirmative answer can be given on the authority of the New Testament, or, to speak more exactly, the first question can be answered in the affirmative on the authority of Our Saviour, while the Scriptures give no opinion as to the second. The questions are: 1. Do you believe in the principle of divorce under any circumstances? 2. Ought divorced people to be allowed to marry under any circumstances? The first question is a very plain one, admitting of an easy answer. But Mr. Gladstone does not answer it, but completely and entirely evades it, although the authority of Jesus Christ states him in the face that it is lawful for a man to divorce his wife on the ground of adultery. When Mr. Gladstone's answer is given to this first question we are left entirely in the dark as to whether or not "he believes in the principle of divorce under any circumstances"—the question put to him. This is no doubt provoking. On the second question Mr. Gladstone is clear and emphatic. He answers: "That re-marriage is not admissible under any circumstances or conditions whatsoever." Now I defy Mr. Gladstone to produce one single passage from the entire Scriptures where a man is prohibited from marrying again after having divorced his wife on the ground of adultery. The whole question is dealt with conclusively and finally in the Sermon on the Mount. At the time Our Saviour spoke, the practice and law was for a man to put away his wife without any cause, by merely giving her a writing to that effect. It might have been that a perfect angel of purity and virtue was thus put away without the slightest semblance or shadow of a fault on her side, and Jesus, speaking on this subject, said, "That whosoever shall put away his wife, saving for the cause of fornication, causeth her to commit adultery: and whosoever shall marry her that is divorced committeth adultery." Now, what is the plain meaning of this passage? Does it not mean a distinct condemnation of the cruel and barbarous law of allowing a man to divorce or put away his innocent wife, without a cause and an equally distinct condemnation of anyone who shall marry her who is thus put away? We see by the passage of Scripture quoted, that Jesus Christ allows of divorce for a specified crime, and this should have enabled Mr. Gladstone to have answered the first question authoritatively in the affirmative. But he does not do so, and, as far as I can judge, his answer is mere vapid words destitute of meaning to me. We have no instance in the whole Bible where a man who has lawfully divorced his wife on clearly proved adultery is forbidden to marry again. The other two questions answered by Mr. Gladstone are of no importance, inasmuch as they merely involve the private opinion of Mr. Gladstone, and in no way involve Scriptural authority. This matter of divorce will shortly come before Parliament, when I will then avail myself of the opportunity of producing Scriptural authority for every principle in Sir Alfred Stephen's Divorce Bill, which I sincerely hope the learned gentleman will be able to introduce the first day on Parliament meeting. I am, &c.,

MEETINGS.

PARLIAMENTARY STANDING COMMITTEE ON PUBLIC WORKS.

The Parliamentary Standing Committee on Public Works met yesterday. There were present:—Mr. J. P. Abbott (president), the Hons. J. Lackey, Dr. Garran, F. T. Humphery, and G. H. Cox, M.L.C., and Messrs. C. A. Lee, J. Hurley, E. W. O'Sullivan, J. Garrard, H. Copeland, J. E. Tonkin, and W. S. Dowel, M.L.A.

SYDNEY HARBOUR DREDGE PLANT.

On the motion of Mr. J. GARRARD, it was resolved that it was not expedient to provide for the dredge and plant for Sydney Harbour, as submitted to the committee for consideration.

WATER SUPPLY AND SEWERAGE BOARD OFFICES.

Mr. GARRARD moved that it is expedient to carry out the proposed offices for the Water Supply and Sewerage Board. He said that the evidence before them showed that if a building was put up on the site proposed at the corner of Wilmott and Pitt streets it would be a distinct saving to the ratepayers. The old premises at the A. S. N. Company's wharf were an intolerable nuisance to ratepayers in consequence of their being so far from the centre of the city; the present premises in Pitt-street were only a makeshift, although a considerable improvement, and, in fact, it would be better if the offices were even nearer the railway station than the proposed site.

Mr. G. H. COX seconded the motion.

The motion was agreed to.

MOSS VALE TO ROBERTSON.

On the motion of Mr. LEE, Messrs. J. P. Abbott, J. Garrard, and Dr. Garran were appointed a sectional committee to take evidence and report to the committee on the proposed railway from Moss Vale to Robertson.

Mr. John Harper, railway goods superintendent, was sworn, and stated that he had collected the information on which the Railway Commissioners had based their report; spent a week on the occasion and four days on another in all the settlements on the route of the proposed line; did not agree with Mr. W. R. Hall's report in many particulars; in arriving at an estimate the figures were based upon their very best season, 1885-1886; there was a good deal of traffic went from Robertson via Bowral, and vice versa; if this line were constructed there would still be traffic with Bowral; the fruit-growing industry was likely to develop; the dairying industry would also expand; it was possible that if the line were continued from Kiama to Nowra the traffic down the Kangaroo Valley would go to Nowra, instead of going to Moss Vale; believed that as a commercial speculation Moss Vale would be a better place to start from than Bowral or any intermediate place.

The inquiry was adjourned.

WESTERN SUBURBS DRAINAGE.

On the motion of Mr. LACKEY it was resolved that it is expedient to carry out the proposed reticulation of the western suburbs.

SECTIONAL COMMITTEE REPORTS.

Mr. Humphery presented the report of the sectional committee inquiring into the proposed railway from Kiama to Nowra.

The report was received, and it was ordered that it be printed.

Mr. J. P. Abbott presented the report of the sectional committee on the proposed railway from Grafton to the Tweed River.

The report was received, and it was ordered that it be printed.

Mr. J. P. Abbott presented the report of the sectional committee on the proposed breakwater at Byron Bay.

The report was received, and it was ordered that it be printed.

Mr. J. P. Abbott presented the report of the sectional committee on the proposed improvements to the entrance of the Clarence River.

The report was received, and it was ordered that it be printed.

MARRICKVILLE TO BURWOOD-ROAD RAILWAY.

In consequence of the absence of Mr. W. J. Trickett the consideration of the evidence taken in reference to the proposal to construct a railway from Marrickville to Burwood-road was postponed until a full meeting of the Committee should take place.

The Committee then adjourned.

ASHFIELD-DRUITT TOWN TRAMWAY.

On Wednesday evening a public meeting was held at the town-hall, Enfield, in advocacy of the proposed tramway from Ashfield to Druitt Town. Notwithstanding the heavy and continuous rain there was a large attendance. Amongst others present were Messrs. John Wheeler and A. Hutchinson, M.L.A., the Rev. S. Hungerford, and others. In the absence of the Mayor, who was called away to Melbourne, Alderman Hudson was voted to the chair.

The chairman read the advertisement convening the meeting, and read letters of apology from the Hon. J. H. Carruthers, M.L.A., Mr. J. T. Wilshire, M.L.A., and others, and briefly addressed the meeting in support of the movement.

Alderman CADDEN moved the first resolution, "That this meeting views with alarm the delay on the part of the Government in proceeding to construct the tramway from Ashfield to Druitt Town, and in view of the existing lack of means of communication with the metropolis and the continually increasing population, hereby resolves to again bring the matter before the Honourable the Secretary for Public Works." He urged that the very fact of such a large number of people turning out on such a night was a proof of the interest taken in the matter by the people of the district. Fully 2000 or 3000 would be directly benefited, and many more would settle if some method of getting to the city were provided. (Applause.)

Alderman THOMPSON, of Rosedale, seconded the resolution.

Mr. WHEELER, M.L.A., spoke warmly upon the subject. He had that day seen Mr. Bruce Smith, who had told him that the officers' reports were favourable to the construction of the line, but until the Minister had not given any definite reply upon the question. He was strongly in favour of the construction of tram lines, which would prove to be feeders to the railways (cheers), and hoped the people would never rest contented until the tramway was constructed. A large tract of country would be opened up for settlement. At present several thousand people would be served by the tramway, and even if the line did not pay at first, it soon would (cheers), and revenue would be brought to the railways. (Hear, hear.) They could rely on the support of their members. Let the people be unanimous in their demands. (Loud applause.)

Mr. ALEXANDER HUTCHISON, M.L.A., supported the motion and urged unity on the part of the people.

The motion was carried.

The MAYOR of Strathfield proposed the second resolution in the following terms:—"That with a view to giving effect to the foregoing resolution, a deputation be now authorised to wait upon the Minister for Works and urge the importance of the early construction of the said tramway, the following to form the deputation—The Parliamentary representatives for Canterbury and Central Cumberland, the municipal councils of Enfield, Ashfield, Burwood, Canterbury, and Strathfield, the Hon. W. H. Pigott, M.L.C., and Messrs. T. R. Ait, Roise King, William Hudson, W. Pratt, A. Elkington, W. Wood, T. Hungerford, J. P. Lenearty, and Rev. S. Hungerford."

Mr. J. P. LENEARTY seconded the resolution. Several other gentlemen also spoke, and the motion was carried, amid applause.

Alderman WEST moved, "That a committee be formed to watch the interest of the district in the matter."

Mr. J. T. LAWLER seconded the motion, which was carried, as also were votes of thanks to the chairman and the Parliamentary representatives.

THE PARRAMATTA DISTRICT HOSPITAL.

The annual meeting of the Parramatta District Hospital was held in the Town Hall on Wednesday evening; the Ven. Archdeacon Gunther, president, occupied the chair. The secretary's report and treasurer's balance-sheet were adopted. The balance-sheet showed a marked improvement in the state of the institution's finances, as compared with that of the previous year. The subscriptions and donations received were £526 5s. 11d., being an increase of £236 on 1888; paying patients, £109 2s. 6d.; Government subsidy, £525 15s. 3d.; unclaimed poundages, £152 8s. 2d.; and interest, £70, which with balance from last year, £25 18s. 5d., made total receipts £1291 12s. 2d. The expenditure, including outstanding accounts contracted during 1888, £817 13s. 3d., was £1192 19s. 7d., leaving a balance to credit on year's transactions of £98 12s. 7d. This is the first time for several years that the expenditure has been met by the year's income. In 1888 £300 was taken for current expenditure from invested funds. During the year 212 patients were treated; 157 discharged cured, 14 relieved, and 24 died. The average number of patients kept in the hospital was 25·7. The election of officers for the ensuing year resulted as follows:—President, the Ven. Archdeacon Gunther; vice-presidents, Messrs. G. T. Hunt and W. W. Bodenham; committee, Messrs. W. R. Murray, L. W. Pollock, A. E. Marsden, J. G. Fyall, Green, W. Gates, T. D. Little, G. Oldham, W. Moseley, A. C. Wilcox, T. Smith, and G. Mortimore. Mr. P. Beamish was re-elected to the position as treasurer, and Messrs. J. G. Fyall and T. D. Little the office of secretaries. Mr. H. Taylor, M.L.A., and the chairman referred at length to the necessity of a hospital on the cottage principle. The present building was totally unfitted for the purpose, being old and inconvenient. Mr. Taylor promised to interest himself with the Government in the matter. Eventually the matter was referred to the incoming committee.

GRAND UNITED ORDER OF ODDFELLOWS.

The Grand United Order of Oddfellows met last night, and held their usual quarterly meeting at the lodge-rooms, Castlereagh-street. The chair was occupied by District Master Bro. Jas. Hagan. The receipts during the evening were £498 18s. 5d., including a refund of £200 by the Pride of Illawarra Lodge. Thirty-four lodges were represented. After the transaction of the usual Grand Lodge business, an adjournment was made to the Masonic Hotel, where a presentation was made to District Grand Master Bro. James Hagan. The chair was taken by Bro. F. G. Newland, D.T. After some refreshments had been partaken of, the toast of the Queen was duly honoured.

The CHAIRMAN proposed "Our Guest," and said that Bro. Hagan had been elected District Grand Master on six successive occasions, which amply illustrated the confidence which was reposed in him by members of the order. In presenting him with a purse containing 50 sovs., from the Sydney district, and 10 sovs. additional from various friends, he said that Bro. Hagan intended to invest this sum in a piece of land near where he lived on Lane Cove River, to be vested on trust until his daughter attained the age of 21 years.

The toast was cordially honoured.

Brother HAGAN responded suitably. Whatever success he had taken it had been backed up by his colleagues. (Hear, hear.) He felt that the Sydney District had benefited by his actions—(hear, hear)—and congratulated the delegates on the completion of their building, which enabled them to have everything under their own control. As regards the work of the District it was in a flourishing condition, and the result of 1890 would be to show a very prosperous condition. He thanked them for the presentation, and said that he intended to purchase a piece of land for his eldest daughter with the money. (Applause.)

Bro. GEO. BROWN, district treasurer, proposed the toast of "The G. U. O. O. F.," which was enthusiastically honoured. He said that under the jurisdiction of the committee of management there were in round numbers 133 lodges, with a membership of nearly 10,000. Their income was between £25,000 and £26,000 a year, which was contributed by weekly and fortnightly payments, &c. The order distributed about £11,000 annually for doctors and medicines for members, and they had a reserve fund of £16,000. (Applause.)

The toast of "The Press" was also honoured, and a little harmony concluded the proceedings.

TRADES MOVEMENTS.

TRADES AND LABOUR COUNCIL. PARLIAMENTARY LABOUR REPRESENTATION.

A well-attended meeting of the Trades and Labour Council was held last evening at the Trades' Hall. Mr. A. J. Kelly presided. The following societies were represented:—Typographical Association, Illawarra Miners, Quarrymen, Sydney Wharf Labourers, Amalgamated Miners, Amalgamated Bootmakers, Pressmen and Stereotypers, Burwood Collierymen, Tinsmiths, Plasterers, Tobacco Operatives, Tailors, Lithographic Society, Licensed Drivers, Balmain Labourers, Pressers, Hand-sewn Bootmakers, Coach and Car Builders, United Furniture Trades, United Labourers, Newcastle Wharf Labourers, Bakers, Gas Stokers, Wickerworkers, Coopers, Confectioners, and Journeymen Butchers.

A letter was received from the Licensed Drivers' Union, asking for the assistance of the council in calling a meeting to protest against a bill for the leasing of the city streets for the purposes of a cable tramway.

A letter was read from the confectioners, with reference to employees of two Sydney firms who refused to join the union. The council decided to endeavour to induce the men to become members.

A letter was received from the promoters of a movement to establish a union of engineers and ironworkers. It was decided that as the society would clash with the amalgamated engineers, the council would not give the movement their support.

The Typographical Association wrote announcing that their newly-elected delegates were Messrs. Haughton, Combrook, J. C. Watson, and Sharra.

Mr. J. J. Houghton was appointed the first permanent secretary of the council at a salary of £3 10s. per week.

It was announced that the income of the council was £400 per annum, and that five other societies were expected to join shortly.

The nominations for officers was then proceeded with amid a considerable amount of enthusiasm. The following delegates were nominated: the election will take place at the next meeting:—President, Messrs. J. J. Brennan and J. V. Wiley; vice-president, Messrs. C. Hart and C. Byers; treasurer, Mr. G. E. Smith (unopposed); executive committee (six to be elected), Messrs. J. Riddell, E. Armstrong, J. Downey, J. R. West, James Watson, J. R. Talbot, C. Hart, F. J. Brennan, J. V. Wiley, H. Byers, R. Greathead, and A. Thompson; parliamentary committee (nine to be elected), Messrs. Colebrook, Greathead, Watson, Jones, Byers, Parbury, Kerr, Downey, West, Talbot, and Wiley.

Mr. M'KILLOP then resumed the debate upon a motion tabled by Mr. F. J. Brennan in November last, worded—"That the Parliamentary committee be instructed to consider at their next meeting the advisability of bringing forward labour candidates at the next general elections; and that the said committee draw up a labour platform, and submit same to next meeting." He regretted that the fiscal policy should have been introduced into the debate, had it been dealt with in the manner it deserved a large amount of good might have resulted from it. The question of labour representation had been brought forward at a number of congresses held in various parts of Australia. One of their greatest duties was that every effort should be made to have direct labour representation in the House. (Applause.) It was the only way to prevent others from treading down them as in the dark ages. He regretted that a considerable portion of the time of the Council was wasted in useless discussion. They were there for one purpose, and that an unselfish one, namely, to fight for the benefit of their fellow beings. (Hear, hear.) He thought that they should steel themselves to shoulder to endeavour to obtain good labour representation in the House. It was their bounden duty to look after the interests of the members represented in the various unions. He suggested the formation of a league, whose duty should be to visit the electorates at the time of general elections, and to work heart and soul for direct labour representation. (Great applause.)

Mr. KELLY addressed the meeting at some length. He thought that some programme should be laid down for labour candidates, such as shortening the hours of labour, &c. He considered the present Parliament inferior in any other, but what the labouring classes required was equal representation with capital.

Mr. P. J. BRENNAN was then called upon to reply. He deplored the introduction of the free trade v. protection question into the debate, as it had nothing whatever to do with the question. A labour candidate would or should receive the entire support of the labour unions irrespective of his views on the fiscal question. The council represented 25,000 working men, and yet they were slow in moving in such an important matter as the direct representation of labour in the House. He referred at some length to the various trade representatives who had been elected to Parliament, and considered that Victoria was far ahead of New South Wales with reference to this matter.

On the motion being put to the meeting, it was carried by about 25 to 5.

NEWCASTLE WHARF LABOURERS' DIFFICULTY.

At a meeting of the Trades and Labour Council last evening, a letter was read from the Amalgamated Miners, requesting the council to meet them in conference, with a view to settling the difficulty between the Newcastle wharf labourers and the employers. It was decided to comply with the request, and Mr. F. J. Brennan was elected to represent the council. The chairman asked Mr. M'Killop what action the Maritime Council were taking with reference to the matter, but he said that he could not disclose the proceedings of the council. He suggested that the secretary of the council should be communicated with.

AMUSEMENTS.

General and Mrs. Mite continue to hold receptions at the Manly Aquarium, and to interest their audiences by their unique performances and singing. The management of this establishment have added a well-appointed swimming bath to the premises, and also a number of private plunge and shower baths. They have also made special arrangements for lady visitors to participate in a sea water swim without risk.

Despite the very inclement state of the weather, the attendance at the School of Arts has in no way diminished. The highly amusing comedietta, "Cockaleky," will be given for the last time to-night. To-morrow afternoon the matinee, which have become so popular with ladies and children, will be continued, and in the evening Mr. Rickard's well-known vaudeville, "Ma-in-Law," will be revived for the first time this season.

REVENUE TARIFF v. THE SINGLE TAX.

TO THE EDITOR OF THE HERALD.

Sir,—While I am prepared to admit the logic of the ground taken by the single tax party as laid down by Messrs. Knapp, Foxall, Johnson, and Cotton, I still think that they will experience great difficulty in persuading any Government to relinquish so prolific a source of revenue as that derived from duties on intoxicating liquors. The community has so long been accustomed to recognise these as legitimate duties for purposes of revenue that no injurious moral effect is likely to be chargeable by a continuation of the practice of raising revenue in this unexpensive way. I do not propose to enter into any newspaper discussion with anonymous correspondents on the land nationalisation question or any other. And as I presume "Ignoramus" is a pseudonym I cannot waste my valuable time in exposing his palpable misstatements of facts. But having been requested to define luxuries, I will endeavour to do so. I would class as luxuries beer, tobacco, preserves, jams, upholstered furniture, pianos, buggies, carriages, horses, expensive clothing, jewellery, watches, and all other articles not absolutely necessary for the ordinary requirements of existence. I think if such men as Cobden, Gladstone, Stuart Mill, John Bright, and others who were leaders of the free-trade movement in its inception were content to raise revenue from nominal duties through the Customs, which nobody really feels, and, in the majority of cases, do not even know they pay, surely we freetraders in this colony do not require to depart, and indeed have no right to depart, from the principles they espoused.

I am, &c.,
R. J. STEWART.

IN WATSON'S BAY.

A steamer anchored in Watson's Bay at 1.30 a.m. to-day, resembling the Colonial Union line steamer Hurley, from London, to Messrs. Ralston, Johnston, and Co.

THE CATTERTHUN.

The E. and A. S. N. Company's s.s. Catterthun, Captain J. W. D. Darke, left Hongkong at 2.30 a.m. on December 16, and arrived at Singapore at 7.30 p.m. on 27th. Having experienced from Hongkong moderate N.E. monsoon with moderate and much rainy weather to 4° N., followed by fresh S.E. and westerly winds and fine weather. Having received about 600 tons cargo, left Singapore at 9 a.m. on 31st December, and arrived at Batavia at 9 a.m. on 2nd January; embarked 20 coolies for Sourabaya sugar Company, and left again at 5 p.m. same day; at 4 p.m. on 4th anchored in Samarang Roads. Received 300 tons sugar for Melbourne, and sailed at 6 p.m. 5th for Sourabaya. At 10 a.m. 6th anchored off western channel to Sourabaya to await tide, proceeded at 4 p.m. and arrived 6.30 p.m. After loading some 900 tons sugar proceeded on voyage at 8 p.m. 9th. Anchored to await tide at 7 p.m., and started again at 1 a.m. 10th. Passed through Bali Strait and arrived at Banjoewangie at 1 p.m. same day, and arrived at Port Darwin at 7 a.m. on 15th, having anchored at 11.30 p.m. previous night to await daylight. From Singapore through the Java Sea experienced light and moderate variable winds, with frequent squalls and showers and thunder and lightning; from Sourabaya to Port Darwin light and moderate variable winds from S.W. to S.E., with fine weather and smooth sea to port. At Port Darwin 70 tons silver and lead ore and other cargo were received, and after embarking a number of passengers, the voyage was resumed at 7 a.m. on 15th. Passed Thursday Island at 6 a.m. on the 19th, and arrived at Cooktown at 6 p.m. on the 21st, having had light N.E. winds and cloudy weather with occasional showers during the passage. Left Cooktown at 2.45 p.m. next day, but had to anchor at 9.15 p.m., having hard from S.E., with heavy squalls and torrents of heading rain. At 4 a.m. 23rd weather cleared a little, proceeded on voyage, and anchored off Mourilyan Harbour at 4 p.m. Fresh S.E. breezes and squally weather during the day. Disembarked the Javanese coolies, left at 6 p.m., and arrived at Townsville at 7.30 a.m. 24th. Discharged cargo, and sailed again at 2.30 a.m. same day. Rounded Bowen 4 p.m. at 5 a.m. 25th, and anchored under Cape Moreton at 8 a.m. 28th, having clear with fresh S.E. gale and rough showery weather with high sea and adverse current from Percy Islands. At 5 p.m. anchored off Brisbane bar, discharged cargo and received coals, and left again at 5 a.m. 29th for south, having had to await tide for water through the channel. Passed Cape Moreton at 1.30 p.m. 29th, South Solitary at 3.15 a.m. 30th, Seal Rocks at 11.40 a.m., and entered Sydney Heads at 2.30 a.m. Received pratique at Watson's Bay at 4 p.m., and made fast to company's wharf at 5 p.m. From Brisbane experienced light and variable winds to Port Stephens; thence to Sydney a strong S.W. gale.

THE AUSTRALASIAN.

The Australasian left the Albert Docks on the 11th December, and anchored for the night in the river. Weighed anchor shortly after midnight on the 12th, and landed pilot off Dover at 5 a.m. Beachy Head was passed at 9.30 a.m., and St. Catherine's at 1.30 p.m. same day. Fresh W.S.W. winds were met with, which reached to the force of a strong gale with rain and high sea after passing the Isle of Wight. The engines were eased, and full speed was not put on again till noon 13th, when the ship was off the Ushant. A good run was made across the Bay of Biscay, and Cape Finisterre was passed at 8.30 p.m. on the 14th. Moderate winds from E. to N.N.E. were then carried to Teneriffe, and the anchor was dropped in Santa Cruz Roads at 10.20 p.m. on the 17th. Coaling was commenced, and 467 tons taken on board by 11.30 a.m. 18th. The passengers having had a run ashore, and supplies of fruit, &c., laid in, the anchor was weighed, and the ship proceeded to Capetown. Light and variable N.E. trades and fine weather extended to 5° N. lat. Thence a succession of strong S.E. trades, high seas, and adverse currents continued till Capetown was reached at 2.10 a.m. on January 6. During 24 hours the currents swept the ship about 35 miles out of her course. After embarking passengers and mails a start was made from Capetown at 1.30 p.m. on the 6th. A course was shaped on the Great Circle as far as the Crozet Islands, and the parallel of 46·30 south chosen for running the easting down. Fine weather and smooth seas were carried to the Crozets. Hog Island was seen at 6 a.m., and St. 5.30 were steaming around its northerly and eastern shores, all telescopes being utilised to watch for any signs of human life. The sea elephants and seals were basking in the sunshine on the low grassy slopes and pebbly beaches in hundreds, the albatrosses were feeding amongst the grass all over the island, while the penguins in thousands held possession of every stone and rock, acres of ground being covered in several places by them. The dear of the rat was closed, and within 50 yards of it a group of sea elephants were amusing themselves in the grass. In one of the bays three deals about 12ft. long were cast up on the beach. The twelve Apostles and Penguin Islands were seen, but have intervened with a good inspection of them. Possession Island was, however, closely scrutinised and the huts in American Bay and ship Cove were found with doors closed, and the sea elephants again were apparently in possession. About 10 or 20 oil casks were stacked above high-water mark in America Bay. East Island could not be approached owing to fog coming on, but after passing it two deals floated past the ship similar to the three seen on the beach at Hog Island. These deals have probably formed part of the deck load of some ship bound to the colonies, and could not have been long in the water, as they were entirely free from marine growths, and looked as if they had not been long out of the sawmill. Commotion signals were frequently fired off as we passed along the shore, which could not have failed to attract the notice of any human being, but help was not required by anyone. The day continued fine and clear, although cold, and a sight of these dreary islands was a source of great enjoyment, mingled with curiosity, to the passengers. Winds prevailing from the N.W. and S.W. and moderate to fresh in force, have been carried to Cape Otway. The weather, although fine, has been very cold, the thermometer ranging on an average 5° lower than the mean of the winter months. Cape Otway was passed at 4.15 p.m. yesterday, and the Heads entered at 9.50 p.m. The steaming time from the Channel to Teneriffe is 4 days 11 hours, averaging 285 knots daily and 11·8 hourly. From Teneriffe to Capetown, 16 days 2 hours 45 minutes, averaging 271·0 knots daily and 11·3 knots hourly. Capetown to the Heads, 18 days 15 hours 53 minutes, averaging 306 knots daily and 12·8 knots per hour. Total steaming time, 39 days 20 hours, and distance 11,687 knots. The deck officers are Messrs. Mather, Booth, Hillman, and Garrison; and in the engine-room, Mr. Thom is still chief, while with him are Messrs. Grant, M'Crindle, Ferguson, and Stewart. Dr. Sidney, the new (an old voyager) is in charge of the medical department, and Mr. Dickson is chief steward. No sickness of any kind has been on board, and all the passengers have enjoyed themselves thoroughly. Concerts, lectures, cricket, quoits, &c., have been used to pass away weary hours. The Australasian left Melbourne at 5.22 p.m. of Tuesday last, and discharged pilot at 7.45; passed Cape Schanck at 8.30, Wilson's Promontory at 4.30 a.m. Wednesday, Gabo at 10.31, and Montague at 5.30 a.m. yesterday. Entered Sydney Heads at 4.5 p.m., and made fast at Messrs. Dalgety and Company's Wharf. The run from wharf to wharf was 48, and 44 from heads to heads. The Australasian, it will be remembered, loaded some 12,280 bales of wool, and sailed from Adelaide on October 8 for the November wool sales. Fair steaming was made to Aden, and good work was maintained all the way to London. The run from Port Said to the docks, notwithstanding several stoppages for fog, was accomplished in 13 days 7 hours. The ship was reported as being in Channel at 7 a.m. on November 16 at the London Wool Exchange, and was at the docks by noon, November 17, 38 days 17 hours steaming time, and total time on the voyage 39 days 23 hours. Unloading was commenced two days after arrival, and it took 15 working days to get on board 1200 tons. The discharge of the wool cargo has been finished in former voyages in 18 hours, on this occasion 14 days were fully occupied. Further three days were required for 1780 tons coal. Stoke the company's steamer Dunearn, at well, in lat. 3° N., and long. 5° W., on December 24, at 7 a.m. About 7.15 p.m. on January 5, the ship being 68 miles off Capetown, a young A. B. named Harold Thompson, while employed taking in the bruise weather cloth, accidentally fell overboard and was drowned. He was seen to go head-first overboard by one of the firemen coming out of the forecastle, who immediately gave the alarm, but the passengers were enjoying themselves and making a deal of noise on deck, and a minute or two elapsed before the accident was reported on the bridge. The engines were immediately stopped and reversed, and the boat cleared away and lowered, but on taking the water the forward back did not disconnect, and the ship's quarter came down on the boat, and caused her to fill and swamp. Her crew of five men were thrown into the water, but were fortunately rescued. The other quarter boat was lowered and proceeded towards the spot where the man was last seen holding up his hands. The ship steamed six times over the ground, and the boat cruised about, but no signs of the man or the two lifebuoys were seen. Darkness coming on immediately after the accident, it was with difficulty that the ship could be kept in touch with the boat, and after two hours the search was given up. All hands were called aft and were asked, if they could suggest anything more being done. They were unanimous in their reply that they were satisfied everything had been done to save their shipmate.

The big guns turned out by the Elswick arsenal are now fitted with a device to facilitate firing at night. The ordinary sights are illuminated by a small incandescent lamp, the rays from which, passing through a lens, are converged, so that only a minute point or line of light just sufficient to distinguish the sights is obtained. By means of an adjustable resistance, the light can be modulated to suit the degree of darkness of the night or the eye of the observer.—*Electrician.*

METROPOLITAN DISTRICT COURT.

(Before Mr. District Court Judge FITZHARDINGE *and a jury of four.)*

MACKENZIE V. GRAND CENTRAL COFFEE PALACE COMPANY (PART HEARD).

Mr. Gibson, instructed by Messrs. Laurence and Rich, for the plaintiff; and Mr. Field, instructed by Mr. W. H. Pigott, for the defendant. This was a claim made by John Piper Mackenzie, executor of the will of the late A. K. Mackenzie, against the Grand Central Coffee Palace Co., Limited, for £200 for breach of agreement. The plaintiff urged that he had agreed with the defendant company to supply them with milk for 12 months at the rate of 1s. per gallon, less 5 per cent. discount provided that payment was made before the 7th day of each month for the previous month's account, upon the terms that the plaintiff delivered to the defendant the milk daily. The plaintiff incurred expense in preparing to supply the milk and in buying cows and erecting bails and sheds, but the defendants did not accept or pay for the milk, whereby the plaintiff was deprived of the price of the milk, and the profits which he would have made. Plaintiff commenced to perform the agreement, and was always ready to complete the whole of it, but the defendants would not allow him to complete it, and wrongfully discharged him.

The evidence for the defence was continued, and John Russell, manager of the company, stated that the arrangement with the plaintiff was that he was to commence delivery on or about the 1st August, for a period of 12 months. From the 5th to the 12th August and a day or two afterwards the quantity of milk supplied by plaintiff was deficient, and he was also irregular in delivery. On several occasions the company were unable to supply some of their customers with milk, and, the matter being reported to witness and the resident director, milk had to be obtained elsewhere; on the 15th of August witness wrote to the plaintiff, stating that, owing to the irregular and unsatisfactory supply of milk, he had been instructed to intimate to him that the delivery must be discontinued. Evidence was also given by the head pantryman of the company that on the 5th, 11th, and 14th of August there was short delivery; but this was to some extent denied by the plaintiff's carter, who was called in reply.

Counsel having addressed the Court, his Honor summed up, and the jury, after about half an hour's consideration, returned a verdict for plaintiff with damages £100 in addition to the amount paid into court. His Honor assessed counsel's fees at £7 7s. and the attorney's at £3 3s.

ALLEN V. MANSON.

Mr. Gibson, instructed by Mr. T. J. Dickson, appeared for the plaintiff; and Mr. J. M. Fawl for the defendant. This was an action brought by John Allen, builder, of St. Peters, against John Manson, also of St. Peters, to recover the sum of £52 15s., being balance due to him on the sale of certain furniture. It appeared from the statement of plaintiff's case that in March, 1889, he had a property situated at Nos. 19 and 21, George-street, in which a restaurant known as the Railway Dining-rooms was carried on. On the 26th March defendant purchased the business and goodwill from the plaintiff, and he also bought the furniture for the sum of £200. An agreement was drawn up under which the defendant was to pay £30 cash, and the balance at £3 per week; and, further, that on all moneys remaining unpaid on the 1st April interest was to be charged at the rate of 8 per cent. The defendant duly paid the deposit, and he had altogether paid to the plaintiff the amount of £37 5s., leaving arrears of instalment due between the 1st April, 1889, and the 27th October, 1889, of £52 15s., which was the amount sued for. The defence was a denial of the contract, and a recission of the contract, if any existed, by the act of the plaintiff in taking possession of the property which defendant had purchased under a distress warrant.

The jury returned a verdict for plaintiff in the amount claimed.

POLICE.

Mr. Delohery, D.S.M., presided in the charge division of the CENTRAL POLICE COURT yesterday. Henry Thomas was charged on remand with being a suspected person. On Wednesday morning, as Constable M. Scott was standing in front of Messrs. Hordern Brothers' drapery shop, in Pitt-street, he noticed a young man, whom he knew to be Henry Thomas, moving about among a crowd of ladies and acting in a very suspicious manner. Scott kept near Thomas, and watched him closely. He saw him go up to a lady and walk beside her. As soon as Thomas was close enough, Scott saw him try and put his left hand into the lady's dress-pocket. Not being able to do that, he tried his right hand, and was again unsuccessful. After several attempts to get his hand into the pocket, he at last managed to do so, but as he succeeded, the lady turned and the man's hand was caught. Scott walked up and arrested him, at the same time drawing Thomas's hand out of the lady's pocket. The accused called witnesses to prove that he was working, and had no need to pick pockets; but the Bench considered the case proved, and ordered him to be imprisoned for six months, with hard labour. The prisoner gave notice of appeal.

Mr. G. W. F. Addison, S.M., dealt with the business in the charge division of the WATER POLICE COURT. Mr. T. K. Abbott, S.M., presided in the summons division. A youth named George Thompson, on remand, was charged with having been on the enclosed premises of William Edwards, No. 13, Campbell-street, Darlinghurst, for an unlawful purpose. It was shown that the accused was found in the prosecutor's pigeon-house on Sunday last with some birds in his possession. The prisoner, who had served a short sentence for stealing, was ordered to be kept to hard labour in Darlinghurst Gaol for 14 days. Three little boys, named respectively Joseph Tierney, John Henry Stratton, and Edward George, were charged with having stolen, in company with others, six bottles of schnapps, value 13s. 6d., the property of John Upward, jun., Circular Quay. Constable Johnson deposed to seeing Tierney and the other boys at the back of Upward's store on Sunday; he saw Tierney put his hand through a window and take a bottle of schnapps from a case which had been broken open; witness arrested the boy and took him to the lockup; later on he arrested the boy Stratton, who was under the influence of liquor at the time. George when taken into custody said the other boys took him to the place. Other evidence having been given, each of the boys received a sentence of seven days' imprisonment, with separate treatment. Ferdinand Jakobson, licensee of the Queen's Wharf Hotel, George-street, was fined £10, and 5s. 6d. costs, or two months to gaol, for keeping his house open for the sale of liquor on Sunday, the 19th instant.

Captain A. M. Fisher, S.M., presided at the REDFERN POLICE COURT. Edwin Claud Bryant, 28, a cabman, was sentenced to three months' imprisonment on a charge of having fraudulently appropriated to his own use the sum of 30s., the property of James M'Laughlin. William Homes was fined 20s. for having been drunk and disorderly.

LIVERPOOL.—The case of Lizzie Anderson v. George Johnston, for assault, was dismissed. Mr. Johnston, of Parramatta, prosecuted for the Crown, and Mr. Charles Bull appeared for the defendant. Mr. Giles, the police magistrate, and Messrs. N. G. Bell, Kenyon, Stimpson, and Johnstone were on the bench.

LICENSING COURT.

The weekly meeting of the Licensing Bench was held at the Water Police Court yesterday. Mr. G. W. F. Addison presided. A transfer of publican's and billiard licenses was granted from Theodore Pleym to Michael Whelan for the Rope-makers' Arms, George-street. The colonial wine license of Benjamin G. Plummer, of West-street, St. Leonards, was transferred to William T. M. Jones. Leave of absence for three months was granted to Jemima Tweedie, of Tweedie's Hotel, Phillip-street. Auctioneers' licenses were granted to Robert C. Greenwood, Myer Suttenberg, and John Cash Neild. A number of music permits and hawkers' licenses were also issued.

DEPUTATIONS.

PUBLIC PARK FOR RYDALMERE.

A deputation of residents of Rydalmere, accompanied by Messrs. Farnell, Nobbs, and Dale, Ms.L.A., waited upon the Minister for Lands yesterday, to urge the desirableness of the Government purchasing a piece of land at Rydalmere, and setting it apart for the purposes of a public park. It was stated that the population of the district numbered about 2000, and there was no park in existence. Land could be purchased at a low rate—at, it was believed, between £80 and £100 an acre. It transpired that a member of the deputation had already written to a member of the Government offering to sell 45 acres to be dedicated as a public park. The gentleman who had done so now informed the Minister that he would be perfectly willing to sell a much smaller piece of land than that he had offered, and would take "any assessor's fair value for it."

Mr. BRUNKER pointed out that even if he were to decide to consider the propriety of purchasing a park for Rydalmere, he would be beset by the difficulty that no funds had been provided on the estimates for this year for the purchase of parks. He recognised the desirableness of making provision for the future in districts where there were likely to be large populations, but he was opposed on principle to the purchase of large areas for public parks. His experience had taught him that where the area dedicated for recreation purposes was small it was generally well kept and beautified, as it ought to be. On the other hand, in some cases where large areas had been set apart as public parks they were allowed to become neglected, the result being that they were regarded as eyesores. He did not regard their application as one of a very urgent character, but he would consider it as soon as opportunity arose for him to do so.

ROAD REQUIREMENTS AT WATERLOO.

A deputation, consisting of Messrs. Howe, Stephen, and Sohey, Ms.L.A., and the aldermen of the Waterloo Municipal Council, waited on the Minister for Works yesterday, and requested that Elizabeth-street, Waterloo, should be put in a proper state of repair and handed over to the municipal council. The street was still under Government control, and they had offered to hand it over to the council on payment of £150. They would not accept those terms, but would take it over and wood block it if the Government would grant them a sum of £1500 to do the work.

Mr. SMITH would not recognise the road as a Government one, as it now formed part of the municipality, and as such the council had power to levy a rate for its maintenance.

A member of the deputation replied that the Government made the road without reference to the municipal council, for the sole convenience of Sir Hercules Robinson, and up to the present the Government had always kept it in repair.

Mr. BRUCE SMITH, replying, said he would make full inquiries, and if he found the road had been made without consulting the municipality and for convenience of a former Governor of the colony, then it might be a matter for him to make some arrangement in the direction sought. Another point that would have weight with him would be the assertion that by putting the road in proper repair it would be of advantage to the Railway Department and to the general public by saving the roads along which tram lines were used. He would have full inquiries made into these two points, and act in accordance with the official reports supplied.

THE ST. PETERS LOOP LINE.

Messrs. Farnell, Ritchie, Nobbs, and Dale, Ms.L.A., and several prominent residents for the district, asked the Minister for Works yesterday to submit the concluding section of the proposed line from St. Peters to Liverpool to the present Parliamentary Standing Committee on Public Works.

Mr. BRUCE SMITH pointed out that in Parliament he had said the Government, while submitting the first section from Marrickville to Burwood-road, could not conscientiously recommend the completion of the line to Liverpool until it had been shown that increased population at the terminus for the first section would warrant the construction of the whole line. They might, however, regard a line from St. Peters to Liverpool as the ultimate work; but he thought it was premature to ask him and the Government to turn turtle on the opinions and decisions arrived at when the first section was submitted to Parliament. It had been only by a good deal of trouble and after having at first negatived the proposal that the Public Works Committee could get a majority in favour of constructing the line from Marrickville to Burwood-road. It would be fairer to wait patiently until they had the official report of the Works Committee; and if it was favourable to the construction of the line, no doubt the proposal would be amongst the first passed by Parliament on its reassembling. Tenders would immediately be called and the work proceeded with, but some considerable time must elapse before the conditions, as to increase of population, which were made in regard to the completion of the line, could take place. When population had gathered round the terminus at Burwood-road would be the time to come forward and ask for the completion of the railway to Liverpool.

CARLINGFORD REQUIREMENTS.

Yesterday Messrs. F. Farnell, Nobbs, Ritchie, and Dale, Ms.L.A., introduced a deputation to the Minister for Works from Carlingford, and asked for a road to be constructed from Carlingford post-office to Smith's Corner, at Pennant Hills.

In reply, Mr. BRUCE SMITH read an official report, which stated that the road was three miles long and in want of repair. The sum of £300 would put the road in good order, and the report recommended that that amount be granted. Therefore, in accordance with the report, he would grant the amount.

INQUEST.

THE FATAL RAILWAY ACCIDENT AT EVELEIGH.

An inquest was held yesterday morning by Mr. J. C. Woore, City Coroner, at the South Sydney morgue, on the body of William Fleming, who was knocked down and killed by an Illawarra train on Wednesday.

Joshua Wiggins identified the body as that of his nephew, William Fleming, a single man, 23 years of age, in the employ of the Railway Commissioners, and residing at 5, Wyndham-street, Alexandria.

William Watkins, a labourer on the railways, deposed that at about 5.30 on Wednesday morning he was at the Eveleigh Railway Station, and saw the deceased go on to the line; he was a labourer employed in the same gang as witness; when he first saw deceased step on to the line he was about 80 yards on the Hurstville side of the Eveleigh platform; he was walking along the line towards the platform, on the track the employees usually walk upon; it was then about 5.35; witness was sitting on the platform; when deceased stepped on to the line he looked towards Hurstville; at the same time witness saw two trains approaching Eveleigh, one from Hurstville and the other from Parramatta; when deceased looked round both trains should have been within view of him, although they were a good distance away; he noticed that deceased kept walking along whilst the train was rapidly approaching him; witness turned his head in another direction for a moment, and on again looking saw that Fleming was immediately in front of the engine of the Hurstville train, and saw him knocked down; when he was struck his back appeared to be towards the engine; he was struck about the shoulders, and was pushed along by the cowcatcher and thrown into the 6ft. space between the lines; the engine did not pass over him; witness at once went to the spot and saw that his head was smashed, and his brains scattered about; the guard and porter picked up the body, and it was conveyed to the morgue; crossing the line as deceased did was a short cut to his work.

James Walker, an engine-driver, residing at 87, Eveleigh-street, Redfern, deposed that about 5.33 on Wednesday morning he was driving engine No. 363, drawing a train from Hurstville, and as he was approaching Eveleigh Station saw a number of workmen walking along the line at the side of the down line, which is a common occurrence; the line witness was on was quite clear; but when some 10 yards from the platform he saw the deceased step from the down line four or five yards ahead of the engine; on seeing him do this witness shouted as loudly as possible; but had not time to whistle before deceased disappeared from view; when witness first saw deceased he was in the act of reducing speed to stop at the platform; he shouted, and applied the brake, and pulled the train up before he got to the usual stopping place; on coming to a standstill his fireman went back and found deceased lying some 12 yards from the engine, dead.

The jury returned a verdict of death from injuries accidentally received.

SANITARY REFORM.

TO THE EDITOR OF THE HERALD.

Sir,—That prompt measures are needed at this time of the year to combat with diseases that are deadly, and that every effort should be made to prevent as much as possible the spread of typhoid, diphtheria, and kindred diseases, all will admit. Now, Sir, I crave space in and by the aid of your valuable paper to offer a few practical suggestions, that I think, if carried out by the municipal authorities, would have the desired effect. That all house refuse be removed as often as possible is very important, but it is of greater importance that all drains, sinks, cesspits be thoroughly disinfected every day. To encourage the citizens to assist the authorities I would suggest that at depots in each ward of the city disinfectants be supplied free, and the use of them made compulsory. Also, that instead of the present system of street watering, all streets, lanes, and gutters be well flushed daily by hydrants, the benefit of which would be a great boon, more particularly in suburban boroughs, to prevent fœtid water to remain until it becomes offensive and dangerous to health. I am confident that if my suggestions be carried out the result would be that we should have less disease and sickness in this fair city. I am, &c.,

Public Companies.

ABRIDGED PROSPECTUS of the AUCKLAND TRAMWAY COMPANY (New Zealand), Limited.

To be registered under the Companies Act, 1864.

CAPITAL: £100,000, in 200,000 shares of 10s each. First Issue, 100,000 shares.

30,000 shares, paid up, are taken by the vendors, who are promoters.

70,000 shares are offered to the public on the following terms:—

2s 6d on application, 2s 6d on allotment, 2s 6d at three months, and 2s 6d at six months.

BANKERS: THE BANK OF NEW SOUTH WALES.

TRUSTEES: GEORGE CHAFFEY, Esq. (Chaffey Brothers), and FRANK STUART, Esq., M.L.A., Melbourne.

COMPANY'S TEMPORARY OFFICES: Collins-street, Melbourne.

This Company is being formed for the purpose of purchasing from the promoters the undertakings of the Auckland Tramway Company, which is now in working order, and has been carried on for the last five years.

The tramways have shown a large surplus over working expenses, but the Company, through engaging in several large suburban land speculations, became involved, and had to pay heavy interest, which swallowed up all their profits. The BANK FORECLOSED, and sold the tramway property, which is now in the market.

FROM THIS PROSPECTUS ALL THE UNPROFITABLE SUBURBAN LANDS ARE EXCLUDED.

IT IS BELIEVED THAT NO CHEAPER OR SOUNDER INVESTMENT COULD BE PLACED BEFORE THE PUBLIC.

The returns are now over £16,000 per annum, and the expenses about £11,000, showing, even under present management, 10 PER CENT. ON THE CAPITAL REQUIRED.

The list will close on February 10, 1890.

Applications for shares must be made on the forms to be obtained from Mr. J. Leach, the Sydney representative of the Trustees, 22, Exchange-buildings, Pitt-street, Sydney, accompanied by cheque to the amount of 2s 6d per share, which MUST BE FORWARDED to the BANK OF NEW SOUTH WALES, GEORGE-STREET, SYDNEY, on or BEFORE FEBRUARY 10, 1890.

The full prospectus will be found in the Herald of Saturday, January 25, 1890.

PROSPECTUS of the BROKEN HILL MAIN LODE SILVER-MINING COMPANY, Broken Hill, N.S.W.

To be Registered in Victoria under Part 4 of the Mining Companies Act, 1871.

Capital, £50,000, in 100,000 shares of 10s each, To be apportioned as follows:—

50,000 shares, issued as paid up to 5s each, to the vendors as payment in full for the property.

50,000 shares (to be issued as paid up to 5s) are offered to the public on the following terms, viz.:—1s 6d per share on application, and 1s 6d on allotment. All shares will then rank equally for calls. Calls will be made as required, but shall not exceed 3d per share in any one month.

The full amount derived from the shares subscribed for by the public, viz., £7500, less the cost of floating the company, including a brokerage of threepence a share, will be placed to the credit of the company, and will be available for developing and working the mine.

The company will be declared formed as soon as 40,000 shares are applied for.

Shares will be allotted according to priority of application.

Applications for shares will be received by the Brokers, or at the Office of the Manager, up to 31st JANUARY, 1890, when the list will close.

In the event of the company not being floated, the application money will be returned in full.

The company is formed for the purpose of acquiring from the present owners, and working for silver and lead, measured portions Nos. 29, 30, and 31, parish of Soudan, county of Yancowinna, N.S.W., each containing 20 acres.

The property adjoins the White Lead Proprietary Company's mine on the south-east, and directly south of the South Extended No. 2 Company's property, and has a total length on the course of the Broken Hill line of lode of about half a mile.

The work already done on the blocks proves that there are two lodes in the property which form a junction a little to the south of shaft, and on Block No. 30, and marked on the annexed plan as shaft No. 3. The character of the ore obtained is good proof that these are a continuation of the Broken Hill lode; and in the opinion of competent mining men it only requires deeper sinking to bring the property in that position as an ore producer that it undoubtedly deserves—vide Captain Phillips's report attached. It must be patent to every person with the smallest idea of mining that no lode can be considered proved by simply removing the outcrop, neither by sinking only 100ft. or so; and seeing that the strike of the Broken Hill lode at the Central and South mines is southerly, it is necessary, in order to prove any mine in the vicinity, deep sinking should be pursued without hesitation.

It is expected that the amount derived from shares applied for will be found sufficient to prove the property to a depth of 500ft.

The vendors have every confidence in the success of the venture. This is evidenced by their willingness to accept payment in full for the property in shares, and to make themselves equally liable with the contributors for calls.

Appended is a report from Captain Joel Phillips, manager of the Southern Cross Silver Mine, and well known throughout the colonies as a manager of large experience. This report will speak for itself as to work done on the property, and his opinion of future prospects:—

To the Proprietors of the Broken Hill Main Lode Silver Mine.

Gentlemen,—According to instructions, I visited and carefully inspected your claims, and beg to hand you the following report:—

Your claims are situated about two miles southwest of Broken Hill, on the main line of lode. They consist of three 20-acre blocks, and are measured portions Nos. 29, 30, and 31, parish of Soudan, adjoining the White Lead Proprietary Company's mine on the east, as shown on accompanying plan.

On Block No. 29 no work has been done.

On Block No. 30 two shafts have been sunk.

No. 1, situated about 25ft. from the south and 20ft. from the west boundary, is sunk to a depth of about 120ft. through country rock of a very favourable nature for working.

No. 2 is situated about 5½ chains from the west boundary of the block, and is sunk to a depth of 220ft. It was started on a very promising-looking lode which had been exposed by a costeen trench a few feet north of the shaft, carrying a strong vein of silicious ironstone from the surface to the present bottom.

On Block No. 31 three shafts have been sunk.

No. 3 shaft is situated about 5½ chains from the west boundary, and is sunk 50ft. It is sunk on a silicious ironstone formation of a very kindly nature, which can be traced on the surface to No. 4 shaft, near the northern boundary of the property. No. 4 shaft has been sunk on the underlie 65ft., and has yielded iron ore of a similar character to that in No. 3 shaft. This shaft, however, is, from its position, of little or no use to the mine, tending to prove the South Extended No. 2 Company's property rather than yours.

No. 5 shaft is situated about six chains from the north and six chains from the west boundary of Block No. 31. Here there is a very promising-looking lode, but very little work has been done on it. I would respectfully suggest that this shaft should be sunk say 200ft., and then levels driven north and south in order to prove the lode. No. 2 should also be sunk deeper, as it will be useful for working both lodes, being near the point where, according to their bearings, as seen on the surface, they will form a junction.

Your claims, I consider, are well situated, seeing that the late developments at the South Extended No. 1 mine prove that the Broken Hill lode, or at least a portion of it, is very much farther to the east than was anticipated, and will, if it continues its present course, go directly through your property. So far the work done has been little better than surface scratching, but I am fully convinced that if you would sink and prospect your lodes at a depth it will amply repay you for the outlay.

JOEL PHILLIPS, Manager S. C. S. Co., N. S. W.

Memo.—When Captain Joel Phillips visited and inspected this property I accompanied him, and agree with the sentiments and recommendations therein contained.

RICHARD PIPER, Mining Engineer and Valuer.

SCIENTIFIC MASSAGE.
The surprising cures worked by Massage are not produced by the mere mechanical rubbing and kneading of the operator, but by the transference of nervous energy from a healthy organism. It is evident, therefore, that the great desideratum is to have operators selected on scientific principles. Mr. R. BLACK, of the Massage Establishment, 483, Pitt-street, near Christ Church, has devoted years of study to the subject, and Massage is practised at his establishment under conditions which produce the best results.

We are informed that at the half-yearly meeting of the Queensland National Bank held at Brisbane to-day the report was unanimously adopted. The Hon. B. D. Morehead was re-elected as director, unopposed, and Messrs. Francis Q. Southerden and W. Robertson Strong were re-elected as auditors. At an extraordinary general meeting which was held immediately afterwards the resolution to increase the board from three to five directors was passed.

The half-yearly meeting of the Australian Gaslight Company was held to-day, Mr. G. J. Cohen in the chair. The report, of which we have already given details, was adopted, and a vote of thanks passed to the directors.

The 36th half-yearly report of the New South Wales Shale and Oil Company was held to-day, Mr. J. R. Street in the chair. The report showed shale, oil, and coal profits amounting to £7212; miners' rents, £104; previous balance, £15; making a total of £7330. Expenses, including £4437 law costs to date, reduced this amount to £768. The directors stated that the return to the direct control of the board of all manufacturing works, as the result of the lawsuit, would eventually prove advantageous to the shareholders. The report was adopted.

The tenth annual report of the Metropolitan Permanent Building and Investment Association for presentation to the annual meeting on February 14, shows that to the balance from last year amounting to £441 had been added interest on mortgages, &c., £18,932; fines, £83; Glebe rent account, less replacement, £5197; Waterloo and Schimelstreet rent account, £575; George and Market-street rent account, £888; profit on York's Estate and other land sales, £2921. On the other side of the account interest on deposits and loans had absorbed £16,843, management expenses £2116. Two half-yearly dividends at the rate of 8 per cent. per annum had been paid, absorbing £9838, leaving £247 as a balance to be carried forward. The total assets of the association amounted to £454,850, including £26,779 of uncalled capital. The balances due by mortgageors &c., amounted to £183,062; Glebe and Waterloo estates leasehold, £95,811; city freeholds, £35,465; unsold portions of subdivision estates, £52,312; York estate, Penrith, £51,417; other items, including £7516 in the bank, amounting to £10,501.

The fourteenth half-yearly report of the North Shore Gas Company shows that the net profit on sales of gas (after allowing for depreciation) was £3135, the balance carried forward was £236, making a total of £3372. Out of this available balance the directors recommend the payment of a dividend at the rate of 8 per cent. per annum, which will absorb £3120, leaving a balance to be carried forward of £252.

The third ordinary meeting of the Watson's Bay and South Shore Steam Ferry Company, Limited, was held this afternoon, Mr. E. C. Batt in the chair. The report shows that the year's receipts had been £5164 and the expenses £5405. A balance at debit of profit and loss had been increased for the year from £2720 to £2962. The report was adopted.

The half-yearly meeting of the Burwood Land, Building, and Investment Company was held today, Mr. William Deane presiding. The report shows that to the previous balance of £1345 had been added interest, &c., £132; profit on transactions, £1252; making a total of £2729. The amounts of accrued interest on deposits, and expenses, &c., reduced the balance to £1840. Out of this the directors proposed to pay the usual dividend at the rate of 10 per cent. per annum, which would absorb £280, leaving a balance of £1559 to carry forward to meet contingencies. The report was adopted. Messrs. J. O. Phillips and John Melliday were elected directors; Messrs. C. M. Deane and J. B. Watson were re-elected auditors. Votes of thanks were passed to the directors, manager, and officers of the company.

The half yearly meeting of the Wolseley Sheep-shearing Machine Company, Limited, was held on Friday last, the Hon. G. H. Cox, M.L.C., presiding. The only business was the presentation of the directors' report and balance-sheet, which were considered satisfactory and adopted.

Meetings will be held to-morrow, Friday, as follows:—Mont de Piété, at noon; the Sydney and Suburban Hydraulic Power Company, at 2.30 p.m.; and the Sydney Cyclorama Company, at 3 p.m.

The Australian Roburite Explosives Company, as stated by advertisement, has been formed, with a capital of £20,000, in shares of £10 each, to manufacture and sell the new safety explosive roburite, having acquired the patent rights for the whole of Australia, Tasmania, and New Zealand. Valuable qualities as an explosive are claimed for the new substance, for the manufacture of which the necessary works are in course of construction at Eastwood.

In the Import markets to-day business was slack, although inquiries were numerous, and there seems to be a prospect of a good trade next month. The flour market is unaltered. In addition supplies of flour from the other colonies continue on a liberal scale, comprising 416 tons from Victoria, 671 tons from Adelaide, and 518 tons from New Zealand; 20 tons of wheat from Victoria also being delivered. In tea we note the sale of 250 half-chests at about 14d. per lb., with further inquiry for medium; a small quantity of Indian tea was also placed. Dried fruits remain almost unnoticed. In fish we note the sale of a line of fairly good quality of sardines at 8s. 10½d. Business in tinned salmon was done at 7s. 3d., and at a fuller figure a parcel was placed for Melbourne, a better inquiry generally opening up for this description of fish. A shipment of ling was sold at 5¼d. Good sales of Hoffman's starch at full rates, supplies having been brought from Melbourne to a bare market. The demand for liquids was of a trade order character, including a few transactions for delivery next month. The metal trade is still devoid of all life, buyers apparently holding off, while importers show little or no disposition to make concessions. Oils are selling at late rates. As to castor, Messrs. Stanley and Co. write from Calcutta under date December 30: "Castor has continued to fall in price, Australian buyers keeping off the market. Imports of seed continue small, and stocks light. Prospects of the new crop are very favourable. No. 1 cases, 3s. 5d.; No. 2, 2s. 10½d., c.f.i., Sydney." Locally cornsacks are in moderate request at 5s. 10½d. As to the Eastern position for jute goods Messrs. Stanley and Co. write from Calcutta on the 30th ultimo:—"There is very little to report this mail. Such demand as exists is almost entirely for country requirements, and is not enough to take off the production. Most mills are anxious sellers, and the advisability of still further reducing the output after February 15 next is under consideration. Unsold stocks are, however, not large, and the new year may bring a better export demand. The mills are closed for the whole of this week. Woolpacks, 11¼lb., 1s. 10d.; cornsacks, 2¼lb. 5s. 8¼d., 2¼lb. 6s. 0¼d.; bran bags (Hessian, 20oz.), 4s. 4½d., c.i.f. Sydney." About 1100 doors were placed at rates up to the level of last auction prices. Some small lines of cement were sold at 16s. 6d. to 17s.

The following reports of to-day's wool sales have been furnished:—

Messrs. Brunker and Wolfe report having held a sale of oddments this morning to a good attendance of buyers, and cleared their catalogue as under:—Greasy, 7¼d to 8¼d; bellies, 5¼d to 5¾d; locks, 3d to 4d; pieces, 5d to 6¼d; locks and pieces, 5d to 5¼d; bellies and pieces, 5¼d to 6¼d per lb.

Messrs. John Bridge and Co. held a supplementary sale of odd packages and sacks to-day. The attendance large and competition spirited from all sections of the trade. The clearance of the entire catalogue was readily effected, good greasy rating to 9¼d, fair to 8¼d, washed to 15¼d, scoured to 18¼d, greasy pieces to 5¼d, locks to 2¼d.

Our London cablegrams report the opening of the first series of London wool sales for the year. Although at the Antwerp sales recently the market appeared to be rather weaker, it cannot be said that the prices are appreciably lower. Good Australian merinos are selling at the high closing rates of last series of sales, and crossbreds are unchanged. If there is any alteration for the worse it is in the lower descriptions of wools, which are said to be selling in buyers' favour. There was a large attendance of buyers and good competition. The quantity of wool that will be offered at the sales is 280,000 bales, about 80,000 bales having gone direct to the manufacturers in Yorkshire and on the Continent. The following cablegram has been handed to us for publication by Goldsbrough, Mort, and Co., Limited, dated London, January 28:—

"Wool.—The sales opened this day with good attendance of home and foreign buyers. Prices are fully equal to those ruling at the close of the fifth series (December, 1889). The quantity available for the series, including hold over and bought in, is 362,000 bales, of which 80,000 bales have gone forward direct to Yorkshire and Continent."

The shipping arrivals to-day include the steamer Australasian, from London, via ports, with general merchandise, and the steamer Catterthun, from Hongkong, with Eastern produce.

The clipper barque Selkirkshire cleared at the Customs to-day for London, with 3952 bales wool, 305 bales glue pieces, 9873 bags nickel ore, 157 bags 56 tons copra, 218 casks tallow, 19 cases sewing machines.

The following was the Customs revenue received to-day:—

Spirits, £1929 19s 4d; wine (still), £56 10s 11d; wine (sparkling), £33 15s; ale, porter, and beer (in wood) £12 10s; ale, porter and beer (in bottles), £60 15s; tobacco and snuff, £378 12s; tobacco (for manufacturing purposes only) £379 1s; cigars, £61 5s 2d; cigarettes, £112 10s; tea, £1027 5s 2d; coffee (raw), £12 13s 8d; chicory (raw) £28; sugar (unrefined), £508 5s 5d; rice, £42 13s 3d; dried fruits, £71 14s 4d. Specific Duty: bacon and hams, £19 18s; bitters over 25 per cent. of proof spirit, £2 10s 8d; candles, £15 12s. 6d.; cement, £100; cheese, £1 7s; cocoa and chocolate, £34 3s 4d; confectionery, £2 5s; dynamite and lithofracteur, £8 6s 8d; essences over 25 per cent. of proof spirit, £7 14s 5d; fish, £9 5s 11d; gasoline, £9; galvanised manufactures, 11s 3d; iron and steel wire, 10s; milk, £5; oils in (bottle) £14 17s; oils (other) £4 1s 6d; paints, £30; powder, blasting, £31 5s; powder, sporting, £26 8s; spirits, methylated, £5 8s.; tapioca and semolina, £4 8s 10d; timber, undressed, £3 4s; varnish, £8. Colonial distilled spirits, £127 16s 4d; excise on tobacco, £966 6s 3d; excise on cigars and cigarettes, £8 6s 3d; excise on beer, £182 3s 9d. Total, £6372 0s 11d.

Messrs. Batt, Rodd, and Purves report the sale by private treaty, at the rooms, Pitt-street, of a residence and grounds at St. Leonards, for £5000.

COMMERCIAL TELEGRAMS.

(FROM OUR CORRESPONDENT.)

MELBOURNE, THURSDAY.

Only a moderate business was done in investment stocks to-day. Mercantile Finance quitted a little lower. Silverton Tramway, Melbourne Tramway and Omnibus sold at higher prices. Commercial Bank, new issue, offered to exchange at £6 2s., but a sale of 1500 shares was reported afterwards at £6 4s.; Federal Bank, 62s.; Tramway and Omnibus, £6 8s. 6d., £6 9s.

Wheat is firm at 3s. 6½d. to 3s. 8½d. for old. Malting barley is slow of sale; medium, 4s.; prime, 4s. 3d. Sales of white maize, 3s. 10d. There is a good demand for sugar and prices are a shade firmer. Mauritius good whites sold at £24. A fair business was done in tea. Trade lots of woolpacks sold at 2s. 1½d. to 2s. 2d., duty paid. Fish is active. Half sardines sold at 6s. 3d.; Marshall's fresh herrings sold at 6s.

ADELAIDE, THURSDAY.

The wheat and flour trade is quiet, with prices about the same. Wheat, 3s 6d.; roller flour, £9 9s. 10d.; superfine, £8 10s. 9d.; bran, 6½d., 7d.; pollard, 7½d., 8d. In general merchandise only moderate sales have been made. Bulk oils: Some 400 cases of crystal water white, 150° test, kerosene changed hands at market rate. Trade lots of malt move off. Stocks are low. In liquids 600 cases Walker's whisky have been placed at agents' rates.

BRISBANE, THURSDAY.

At a meeting of the shareholders of the Queensland National Bank to-day the directors' report and balance-sheet were adopted. An increase in the number of directors from three to five was approved of. The present directors will appoint the new members of the board.

PRODUCE MARKET.—THURSDAY.

This morning, at the Darling Harbour auction sale, there was a small attendance of buyers. The supply of forage was limited to 21 trucks, 13 being of hay and eight of chaff. The demand was principally for chaff, although good coloured lots of hay commanded fairly active attention. There was no special feature at the sales of wood, prices being the same as yesterday. At the wharfs but light shipments were forward, chiefly from the Hunter River. Business lacked animation. All descriptions of produce were sold at yesterday's rates. At Darling Harbour sales the quotations were:—

Wood.—Fair consignments. Billet ranges from 8s to 10s per ton; bundle, 8s 6d to 13s; foot, 9s to 13s; bakers', 8s 6d to 11s.

Hay.—The supplies to hand were sufficient for the day's requirements. Best oaten, in bundles, realised 3s 10d to 4s 5d per cwt.; other sorts, 1s 11d to 3s 6d; wheaten, in bundles, 2s 6d to 3s.

Chaff.—Small stocks. There was a steady inquiry. Oaten and wheaten, in bags, 3s 9d to 4s 10d per cwt.

At the wharfs the following were the wholesale quotations:—

Wheat.—Prime milling wheat unaltered, 3s 6d per bushel.

Maize.—Best lots, free from weevil, steady, 3s 1d to 3s 5d per bushel; other sorts, from 2s.

Oats.—Feeding lines are quoted from 1s 6d to 2s 3d per bushel, according to colour.

Bran.—At 7¼d per bushel.

Pollard.—Prices from 7½d to 8d per bushel.

Hay.—The wharfs are still amply stocked. Prime, well-saved, dry, green lucerne, £3 per ton; other sorts, from £2.

Chaff.—This market remains unsettled. Good Adelaide and Victorian lines, £4 10s to £5 per ton.

Onions.—Unchanged, from £4 to £5 per ton.

Potatoes.—Hunter River descriptions again quoted at £3 per ton; best Warrnambool, £3 10s.

Butter.—Factory-made from the Illawarra districts, 7d to 8d per lb.; dairy kinds, 5d to 7d.

Cheese.—4433 for the week from Southern ports. Prices range from 2d to 6d per lb.

Bacon.—Hand-cured Southern worth 7d to 8d per lb.; machine-cured, 5d to 6d; roll, 7d to 7½d; hams, 6d to 9d.

Lard.—Finely rendered, in bladders, 3d to 4d per lb.; bulk, 1d to 2d.

Eggs.—Northern rivers lines unaltered, 1s to 1s 1d per dozen; Southern district lots, 1s 2d to 1s 4d.

Flour.—The current rates were:—New South Wales roller makes, £9 10s to £10 per ton; stone, £9 5s to £9 15s; South Australian and Victorian, £9 15s to £10 15s. ... 1, £9 10s to £9 15s; South Australian and Victoria, £9 15s to £10 15s.

Poultry.—Fowls are saleable 2s 6d to 4s per pair; ducks, 3s to 3s 9d; geese, 4s to 7s.; turkeys, 7s to 14s.

The following is a return of produce received coastwise for the week ended January 29:—

The fourteenth half-yearly meeting of shareholders in the Stockton Coal Company was held on Wednesday. Mr. Cowlishaw presided. The report and balance-sheet were adopted. The colliery manager's report showed that the various portions of the mine now being worked are in a satisfactory condition. The balance-sheet showed a profit for the half-year of £3045 15s. 11d., which with the premiums and last year's balance makes a total of £6967 7s. 11d., which it is proposed to appropriate by declaring 7½ per cent. dividend amounting to £3000, to transfer £6468 18s. to reserve fund (being premiums on new issue of shares), to pay a dividend of 7½ per cent. on new shares amounting to £75, and to carry forward the balance of £498 9s. 11d.

The Great Western Gold-mining Company announce by advertisement that a meeting of members will be held on the 3rd March for the purpose of having an account laid before them showing the manner in which the winding up has been conducted and the property of the company disposed of.

The fourth half-yearly meeting of shareholders in the Redhead Coal-mining Company was held yesterday; Mr. Cowlishaw presided. The report showed that the construction of the railway is being pushed on as rapidly as possible, and the directors hope to have the whole of the work completed within eight months. The amended Railway Bill alluded to in the last half-yearly report has become law, and the company has accepted a tender for the second portion of the line. The balance-sheet and report were adopted.

A general meeting of shareholders in the Bonang Gold-mining Company was held yesterday at Tattersall's-chambers. Mr. W. B. Walford presided. The report showed that the quantity of stone crushed to date was 2274 tons, which had yielded 3112oz 11dwt. 22grs. of gold; and the number of tons of concentrates sold has been 13 tons 3cwt. 2 qrs., averaging at the rate of 9 oz. 6dwt. 11grs. gold per ton, and have about 11 tons in Sydney and transit, which will be treated on arrival. The balance-sheet showed that, after paying a dividend of 6d. per share, a substantial balance was carried forward. The report and balance-sheet were adopted.

The fourth half-yearly meeting of shareholders in the Burwood Extended Coal Company was held yesterday. Mr. Cowlishaw presided. The directors' report showed that the colliery is being developed very expeditiously. The main shaft has been sunk to a depth of 359ft., and the air shaft to a depth of 493ft. The celebrated Bore-Hole Seam was struck in the latter shaft in the early part of last October, and is 5ft. 3in. thick, and of excellent quality. In addition to the Bore-Hole Seam two other splendid seams of coal have been proved to exist on the company's estate at depths of 220ft. and 303ft. respectively. The coal is of great thickness and of very good quality. The supply of coal proved to exist on this property is practically inexhaustible. A section of the Bore-Hole Seam taken from the air-shaft is on view at the Exchange, Pitt-street, Sydney. The whole of the machinery and plant required for working the colliery is now afloat, and may be expected to arrive in a few days. The Redhead Coal Mining Company are pushing on with the construction of the railway, and the directors feel confident that by the time it is completed to this company's property they will be in a position to send coal to market. The report and balance sheet were adopted.

The first annual meeting of shareholders in the New Caledonia Chrome and Mineral Company was held yesterday. Mr. G. Pile occupied the chair. The report and balance-sheet were adopted, showing a balance at credit of £3409 5s. 8d. Of this sum £393 15s. was set aside to pay a dividend at the rate of 2s. 6d. per share, £2000 was written off for plant account, and after providing for the payment of the company's Sydney bank overdraft the sum of £560 10s. 10d. was carried forward to next year's account. The directors had arranged with Monsieur Desmagures, the company's local director, that the amount to the credit of the Noumean office be liquidated by his receiving half the profits of the company monthly, the balance to be appropriated for dividends. The chairman explained that there were three shipments of ore in transit and two in Sydney, and as to the nature of the large works which had been carried out on the company's properties.

(FROM OUR CORRESPONDENTS.)

MELBOURNE, THURSDAY.

There was a change in the market for silver shares to-day, sellers being more pressing than of late, lower prices resulting. Broken Hill Proprietary led the way, being quitted at £89 to £83 10s., but rather firmer at the close with sales at £84 10s. British sold at £6 5s., Block 10 at £16, £15 13s., to £15 14s. South fell to £7 2s., but recovered to £7 8s. Central sold at £12 15s. to £12 7s.; North, 48s., 47s.; Block 5, 38s. to 36s. to 36s. 9d.; Round Hill, £13 15s. to £13 10s. In gold companies, Working Miners United were in improved demand, and placed at 13s. Koh-i-noor sold at 28s. on terms. Sales: Broken Hill, £89, £83 10s.; Block 10, £16 3s., £16 13s., £15 14s.; Block 14, £10 12s., £10 11s.; Junctions, £8 5s., £8 7s.; South, paid, £7 13s., £7 2s., £7 8s.; British, £6 10s., £6 5s.; Centrals, paid, £12 15s., £12 7s.; New North Brokens, 48s. 6d., 47s.; Round Hill, £13 16s., £13 8s.; Victoria Cross, 10s. 9d., 10s.; White Lead, 10s. 6d.

BRISBANE, THURSDAY.

A crushing of 169 tons from the Willmott Extended, Gympie, yielded 842oz. gold. A dividend of 15d. was declared.

The Mount Morgan Company has declared a dividend of 1s. for January, payable on and after Saturday next.

ADELAIDE, THURSDAY.

Share Report.—Sales: Moonta, 63s. 3d.; No. 1 North Glanmire, £5 10s.; Baker's Creek, 52s., 50s. 3d.; Peels, 4s. 1½d.; Broken, £90, £85 12s. 6d. Block 10, £15 18s., £16, £15 8s., £15 18s. 6d.; Round, £13 17s. 6d., £13 12s. 6d.; Central, £12 18s., £12 10s.—contributing, £12 10s.; Block 14, £10 15s., £10; Junctions, £8 5s., £8 10s., £8 6s.; South, paid, £7 12s., £7 6s.; British, £6 12s. 9d., £6 6s.; North, 47s. 6d.; Block 5, 38s.; White Lead, 9s.; Commodore Vanderbilt, 6s. 9d.; Globe, Proprietary, 6s.; Globe, contributing, 4s. 5d.; Silver Hill, 4s. 5d.; Pioneer, 3s. 5d.; Rising Sun North, 3s. 5d.; Soudan, 1s. 11d.; Dark Hill, 1s. 3d.; Allandale, 3d.

Late Sales: Broken, £85 10s.; Block 10, £15 18s., £16 1s.; Round, £13 15s.; Block 14, £10 10s.; South, paid, £7 4s.; British, £6 7s.; Baker's, 49s. 9d., 51s.; Block 5, 36s. 6d.; Central Block, 10s.; Peels, 5s.; Globe, contributing, 4s. 6d.

ALBURY, THURSDAY.

A new crushing mill has just been started at Corryong, Upper Murray, for the purpose of testing the quartz reefs on Towong station. The battery consists of five head of stampers, driven by a portable engine. A number of new claims have been taken up in consequence of facilities for crushing being now available.

BARMEDMAN, THURSDAY.

Crushing has commenced at Barmedman battery, there being a plentiful supply of water. Portions of Phoenix, Jackson's Hard to Find, No. 1, and South Jackson stuff passed through. Separate boxes of stone will also be crushed at the Little Ada battery. Jackson's Hard to Find stone is very rich.

BROKEN HILL, THURSDAY.

The expectation formed by the manager that he would be able to resume sinking No. 2 shaft of Block 10 to-day was not realised, owing to the water not having completely subsided; but it is fully expected that the shaft will be quite dry to-morrow. At the Central Mine the winze and the rest of the south shaft is still in high-grade ore carrying native silver in the main shaft. Only an additional depth of 10in. is required to complete the 100ft. The manager will then proceed to cut out pump station, and expects to commence crosscutting west at 400ft. level for the lode. Now down 345ft., and now being timbered and enlarged for the reception of hauling machinery. At the Broken Hill South Extended mine the main shaft is down 323ft. A contract has now been let to supply machine drills and condenser. In the meantime it is intended to drive into the South mine from the 200ft. and 300ft. levels of the Central mine, thus following on the course of the shoots of ore, and all stuff will be hauled from the south shaft of the Central mine. This will greatly facilitate the development of the South mine.

SOFALA, THURSDAY.

Middle Creek and Caledonian reefs are showing excellent stone, and good returns are expected. The Queenslander Company are removing their battery; when erected work will be resumed on a larger scale. Very little alluvial mining is being done.

MANAGERS' REPORTS.

Koh-i-Noor Gold and Silver Mining Company, Limited, January 24.—Gold lode: 90ft. level south put ahead 18ft., total 89ft., ore 28ft. wide; usual quantity of ore taken from stopes north and south of tunnel, the latter being holed to No. 2 pass; 60ft. level advanced to 30ft. and holed to old ground; will now start the next stope overhead from shaft; 380 tons ore mined delivered to battery and crushed; commenced re-timbering 90ft. level south (east level); cleaned up battery for 114oz. smelted gold from 663 tons ore crushed.

Broken Hill Junction North Silver-mining Company, Limited.—The company have resumed active operations in the shaft, and the winding plant, which remained stored in Adelaide during the dispute, is under way. The shaft is now down to a depth of 230ft., and judging from the underlay of the junction lode it is anticipated that the lode will shortly be cut.

The Castle Rag Proprietary Silver-mining Company, Limited, January 26.—The main shaft is down 88ft., and water very heavy and draining the mine towards No. 1 shaft. The tunnel extended 14ft., total 494ft. Big formation in the face. No. 4 Shaft: Have erected whip, which will facilitate the raising of ores. South-west level in 78ft., showing good ore in the face. Machinery nearing completion.

Pye's Creek Silver-mining Company, Limited, January 25.—South drive, 280ft. level, has been extended 6ft., making a total of 12ft. from shaft. So far as we have gone in this direction matters have not improved; the formation is a little larger than have seen it for some time, and is fully 4ft. wide this morning from wall to wall, but the ore is very narrow, and is confined to a small band of 4in. wide on the footwall; this is quite a new feature to find the ore on the west side of the lode. The ground works fairly good, that is considering the general character of the ground in this shaft, and if it continues as it is now, anticipate driving 6ft. per week, with six men below and two hauling.

Mount M'Donald Gold-mining Syndicate Proprietary Mine, January 25.—Since last report have had all hands working in the top stopes. There is a new branch of stone made on the hanging-wall side of the main vein; it is about 4in. thick and shows first-rate gold. The main vein on the footwall also shows very fair gold and a fair average thickness. Judge the stone we are at present on as 3oz. Raised 5 tons for the week.

Webb's South Silver-mining Company, Limited, January 27.—Shaft timbered up 20ft.; crosscut driven 8ft.; total, 10ft.

The Queen Gold-mining Company, No Liability, January 25.—The shaft has been sunk 11ft., making a total of 120ft. Have struck a new reef to-day between No. 1 and No. 2 shaft, which shows a very good prospect. Only one shift working at present, owing to water in the mine. Country passed through is of a slate formation.

New England Proprietary Silver-mining Company, Limited, January 25.—The leading stope does not look so well this week. It is of large size, 11ft., but not so much ore worth sending away. The second stope is producing some very fair-looking ore, principally galena, gossan, and ore from small leaders. Have about 3 tons of hard galena ore ready for bagging. Have been timbering for the last two days. There is a rich vein coming in on the hanging-wall of the lode. No. 3 lode looking better this week, more galena showing. Contractors sunk 8ft. for the week.

Root Hog Gold-mining Company, Limited, January 27.—We have worked down a deep stope alongside the reef, north side of Randwick shaft, several feet long, and intend stripping down the quartz on Tuesday. We are also driving north of shaft, where the reef shows good gold.

North Root Hog Gold-mining Company, Limited, January 27.—Have worked by side of western reef several feet in length, and shall now stope it down. We have several tons at the battery from the eastern reef, and more ready to cart there. Will resume crushing in a few days.

Castle Chief Silver and Lead Mining Company, January 25.—No. 2 shaft sunk 8ft., total 73ft.; ground more solid. Change coming in from west end of shaft.

Castle King No. 2 Silver-mining Company, January 25.—No. 3 shaft sunk 8ft., total 40ft. A promising-looking leader has just been struck in the bottom of the shaft. Ground in shaft very hard and bad to blast, but think it is only a bar.

Baker's Creek South Gold-mining Company, Limited, January 18.—The prospects met with in No. 3 reef are very encouraging. The reef, which has been stripped for a distance of 20ft., shows a width of 18in. on the west and 2ft. on the east side of the exposed line. The reef, which was stripped on Thursday, was broken down on Saturday, and is improving in size and quality, showing a width of 20in., with a seam of splendid-looking stone on the hanging-wall portion, showing gold very freely. (By wire, January 25).—Breaking No. 3 reef this morning, gold showing freely through the quartz. Specimens forwarded for assay:—Assay No. 1, fine gold at the rate of 5oz. 1dwt. 6gr. per ton, fine silver at the rate of 8oz. 11dwt. 20gr. per ton; No. 2, fine gold at the rate of 19dwt. 14gr. per ton, fine silver at the rate of 5dwt. 12gr. per ton; No. 3, fine gold at the rate of 6oz. 4dwt. 3gr., fine silver at the rate of 8oz. 2dwt. 1gr. per ton; No. 4, fine gold at the rate of 7oz. 3dwt. 17gr. per ton, fine silver at the rate of 6oz. 4dwt. 3gr. per ton; No. 5, fine gold at the rate of 23oz. 3dwt. 20gr. per ton, fine silver at the rate of 21oz. 4dwt. 16gr. per ton.

THE WOOL TRADE.

At the only sale for the current week, held to-day by Messrs. Goldsbrough, Mort, and Co., a marked falling-off in the attendance of buyers as compared with what we have lately been accustomed to was decidedly apparent, the recent visitors from Melbourne having gone back to be present at the auctions taking place in that market during the current week. Owing partly to this circumstance, and also, no doubt, in some measure to the absence of anticipated telegraphic information (somewhat anxiously expected) as to the opening last evening of the London sales, there was much less animation than of late in the auction room. No giving way in prices was, however, noticeable. The catalogue comprised only some 1700 bales, and amongst the lots submitted were one or two good-sized parcels of fair-conditioned wools in the grease, which in consequence of offers for some not coming up to owners' ideas of value, had to be passed in. Lambs' wool was again in strong demand on Continental account at firm prices. Washed fleece had a little more attention given to it than usual, but cannot yet be otherwise remarked on than as being difficult of sale. Scoured was in good request as well for Yorkshire as for Continental account. Current prices are:—

—	Good.	Average.	Inferior.
Greasy fleece	10½d to 11½d	9d to 10d	7½d to 8½d
Greasy lambs	—	7½d to 8½d	5½d to 7d
Greasy pieces	8½d to 9½d	7d to 8d	5d to 6½d
Washed fleece	15½d to 16½d	14d to 15d	12½d to 13½d
Scoured	18½d to 21d	16d to 18d	10d to 15d

Particulars of sales and offerings are as follows:—

Freight.—Rates continue to be quoted at ¼d. for greasy, and ⅜d. for clean by steamer, and 7-16d. and 9-16d. for greasy and clean respectively by sailing vessel.

Receipts for the week are again small, being 3706 bales, as against 4850 bales last week, and 3520 bales for corresponding week last year.

Antwerp Sales.—Our London correspondent on 22nd instant cabled:—"The Antwerp wool sales are rather flat. There is only a medium attendance of buyers. There is a fall of 10 per cent. all round on November prices. Two thousand bales were offered, of which only 1160 were sold; and again on the 25th, the Antwerp wool sales closed with slightly better rates. Three thousand five hundred bales were sold at the series. The Australian wools were withdrawn from sale."

Other messages made public regarding these sales are one received by Messrs. Dalgety and Co., dated 23rd instant, which reads:—"The Antwerp sales opened yesterday in the presence of a small attendance of buyers. Only a moderate selection of wool was submitted. The tone of the market was dull, and prices, as compared with the closing rates of the last London series, were scarcely maintained." And the Union Mortgage and Agency Company's message as follows:—"Wool sales at Antwerp about equal to closing rates of last London sales."

By mail we have brokers' circulars of 12th December, reviewing the series of sales which had then just closed. It is encouraging to read therein that prospects for the future were satisfactory. In this respect Messrs. Windeler and Co. say:—

"Our home and Continental markets are certainly quieter than a fortnight ago, but the closing up of the year and stocktaking, may account for this to some extent, as from all parts the trade is reported as very busy, stocks in small compass, and at the moment there is reason to anticipate a maintenance of the present rates in the near future."

Messrs. Helmuth, Schwartze, and Company state:—"Though the market has declined during the latter part of the series, the competition has been very good to the end, and the general state of the trade and the prospects remain alike satisfactory."

And Messrs. Charles Balme and Co. remark:—"The general position of the industry remains very satisfactory, the turnover of raw material in all directions progresses on a very considerable scale, and the purchases of the trade have been made with strict reference only to current requirements."

MILITARY NOTES.

Authority has been given under the 5th section of the Volunteer Force Regulation Act of 1867, for the formation of a reserve rifle company at Willoughby, to be called the "Willoughby Reserve Rifle Company," and to be affiliated to the 2nd Regiment Volunteer Infantry.

The continuous training of the military forces for the current year has been sanctioned, and will commence on Friday morning, the 4th of April, and terminate on Saturday, the 12th idem, and will be held as follows:—The bulk of the Volunteer Artillery and the partially paid Submarine Miners at the Heads, under the command of the officer commanding the artillery forces; the Cavalry, Field Battery, Volunteer Artillery, Engineers, Volunteer Infantry (mounted and foot), and the Medical Staff Corps at the National Park, under the supervision of the Major-General commanding the military forces; the Field Battery of the N. S. W. Artillery and the Permanent Mounted Infantry to join the National encampment; and the other Batteries of the N. S. W. Artillery, together with the Permanent Submarine Miners, to join that at the Heads.

Messrs. Charles West Alexander and Arthur Bathurst Manning have resigned their appointments as first and second lieutenants respectively in the 2nd Regiment of Volunteer Infantry.

RIFLE SHOOTING.

A handicap rifle match was fired at Bega on Anniversary Day among members of the reserve rifle company. The conditions were seven shots at 400, 500, and 600 yards. The weather was intensely hot, and not at all conducive to good shooting. After the match a sweep was got up, seven shots at 600 yards. The following are the principal scores:—Captain Scott, 84, including a sweepstake of 12; Mr. J. Colledge, 73, including a sweepstake of 1; Mr. A. Furner, 70, including a sweepstake of 7; and Mr. R. R. Sharp, 70, including a sweepstake of 15. In the sweepstake Mr. A. Furner, 31, was first, firing from scratch; Mr. R. W. Hughes, 28, second, with a handicap of 4; Mr. J. College, 26, third, with a handicap of 1; and Mr. J. H. Joughin, 24, fourth, with a handicap of 3.

HAZON'S ORCHESTRAL CONCERTS.

TO THE EDITOR OF THE HERALD.

Sir,—Much correspondence has been published from writers who, I suppose, must be qualified musically to offer their opinions, but in disputing about terms such as Hazon, nucleus, national, &c., the main object is lost sight of. If I understand rightly, Signor Hazon's present orchestra cannot be had except for afternoon performances, and 50 equally qualified professional musicians are required. Where are they? As to amateur help I am, perhaps, one of the oldest of that class here, so know all about them, and I hope I may not be present at the first rehearsal of any selection from Signor Hazon's late programme where the amateur element is in excess. The modern amateur will not do the steady practice necessary to perform even respectably at some of our societies' concerts. I am told that not more than 10 or 11 members of the orchestra turn up at the weekly rehearsals of one society. Where is the help to form a national orchestra to be looked for in this quarter? I am, &c.,

F. E. SLOPER.

TO THE EDITOR OF THE HERALD.

Sir,—In this morning's *Herald* I notice that "Euterpe" is again to the fore, with a suggestion that Signor Hazon should give evening concerts. I think I am as well informed as "Euterpe" about the possibility or otherwise of getting an orchestra together for concert purposes, and therefore venture to express my opinion. I am fully aware that there are a certain number of good instrumentalists who do not play in theatres, but the number of such is so limited that I am sure it is impossible to organise a sufficiently large orchestra to give an adequate rendering of any one of the great works that Signor Hazon has presented to the public through the medium of the players under his bâton, unless the assistance of those engaged in the theatres is called in. Seeing that at present we cannot give "evening concerts," let us by all means do our best to make the Saturday afternoon concerts a success, and not damp the enthusiasm of the Sydney public by letters to the press about giving orchestral concerts in the evening, when we know, or ought to know, that we cannot have them.

I am, &c.,

January 30. G. RIVERS ALLPRESS.
